^{*} Two dividends were declared in each of the first quarters of 2024 and 2023.

Notes to Condensed Consolidated Financial Statements

(Dollars in Millions Except Share and Per Share Amounts)
(Unaudited)

1. Basis of Presentation

The Condensed Consolidated Financial Statements reflect all normal recurring adjustments which, in management's opinion, are necessary for a fair statement of the results for interimperiods. Results of operations for interimperiods may not be representative of results to be expected for a full year. Note that certain columns and rows may not sum due to rounding. Colgate-Palmolive Company (together with its subsidiaries, the "Company" or "Colgate") reclassifies certain prior year amounts, as applicable, to conform to the current year presentation.

For a complete set of financial statement notes, including the Company's significant accounting policies, refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2023, filed with the Securities and Exchange Commission (the "SEC").

2. Use of Estimates

Provisions for certain expenses, including income taxes, advertising and consumer promotion, are based on full year assumptions and are included in the accompanying Condensed Consolidated Financial Statements in proportion with estimated annual tax rates, the passage of time or estimated annual sales, as applicable.

3. Recent Accounting Pronouncements and Disclosure Rules

In March 2024, the SEC finalized rules intended to enhance and standardize climate-related disclosures in registrants' registration statements and Annual Reports on Form 10-K. The new rules would require climate-related disclosures, including as they relate to governance, strategy, risk management, targets and goals and greenhouse gas emissions. In addition, the rules would require certain climate-related disclosures as it relates to severe weather events and other natural conditions and carbon offsets and renewable energy credits. In April 2024, the SEC voluntarily stayed the rules due to pending judicial review. As these rules only impact disclosures, they will not have a material impact on the Company's Consolidated Financial Statements.

In December 2023, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") No. 2023-09, "Income Taxes (Topic 740): Improvements to Income Tax Disclosures." This ASU improves the transparency of income tax disclosures by requiring consistent categories and greater disaggregation of information in the rate reconciliation, and income taxes paid disaggregated by jurisdiction. This guidance is effective for the Company for fiscal years beginning after December 15, 2024. As this accounting standard only impacts disclosures, it will not have a material impact on the Company's Consolidated Financial Statements.

In December 2023, the FASB issued ASU No. 2023-08, "Intangibles-Goodwill and Other-Crypto Assets (Subtopic 350-60): Accounting for and Disclosure of Crypto Assets." This ASU improves the accounting for certain crypto assets by requiring companies to measure them at fair value for each reporting period with changes in fair value recognized in net income. This guidance is effective for the Company for fiscal years beginning after December 15, 2024 and is not expected to have an impact on the Company's Consolidated Financial Statements.

In November 2023, the FASB issued ASU No. 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures." This ASU modified the disclosure and presentation requirements primarily through enhanced disclosures of significant segment expenses and other segment items. This guidance is effective for the Company for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. As this accounting standard only impacts disclosures, it will not have a material impact on the Company's Consolidated Financial Statements.

In October 2023, the FASB issued ASU No. 2023-06, "Disclosure Improvements-Codification Amendments in Response to the SEC's Disclosure Update and Simplification Initiative." This ASU modified the disclosure and presentation requirements of a variety of codification topics by aligning them with the SEC's regulations. This guidance is effective for the Company no later than June 30, 2027. As this accounting standard only impacts disclosures, it will not have a material impact on the Company's Consolidated Financial Statements.

Notes to Condensed Consolidated Financial Statements (continued)

(Dollars in Millions Except Share and Per Share Amounts)
(Unaudited)

In August 2023, the FASB issued ASU No. 2023-05, "Business Combinations-Joint Venture Formations (Subtopic 805-60): Recognition and Initial Measurement." This ASU requires a joint venture to initially measure all contributions received upon its formation at fair value. This guidance is applicable to joint ventures with a formation date on or after January 1, 2025 and is not expected to have a material impact on the Company's Consolidated Financial Statements.

In March 2023, the FASB issued ASU No. 2023-01, "Leases (Topic 842): Common Control Arrangements." This ASU clarified the accounting for leasehold improvements for leases under common control. The guidance was effective for the Company beginning on January 1, 2024 and did not have a material impact on the Company's Consolidated Financial Statements.

In September 2022, the FASB issued ASU No. 2022-04, "Liabilities-Supplier Finance Programs (Subtopic 405-50): Disclosure of Supplier Finance Program Obligations." This ASU requires a buyer that uses supplier finance programs to make annual disclosures about the programs' key terms, the balance sheet presentation of related amounts, the confirmed amount outstanding at the end of the period and associated roll-forward information. The Company adopted the guidance beginning on January 1, 2023, and with respect to the roll-forward information disclosure, beginning on January 1, 2024. See Note 12, Supplier Finance Program for additional information.

4. Restructuring and Related Implementation Charges

On January 27, 2022, the Company's Board of Directors (the "Board") approved a targeted productivity program (the "2022 Global Productivity Initiative"). All initiatives under the program have been implemented as of the third quarter of 2024 and the Company expects to incur the remaining charges by the end of 2024. The 2022 Global Productivity Initiative resulted in the reallocation of resources towards the Company's strategic priorities and faster growth businesses, efficiencies in the Company's operations and the streamlining of its supply chain to reduce structural costs.

Total pretax charges from the implementation of the 2022 Global Productivity Initiative are expected to be approximately \$225 (\$180 aftertax), once all the charges are recorded, which is comprised of the following categories: employee-related costs, including severance, pension and other termination benefits (80%); asset-related costs, primarily accelerated depreciation and asset write-downs (5%); and other charges (15%), which include contract termination costs, consisting primarily of implementation-related charges resulting directly from exit activities and the implementation of new strategies. It is expected that approximately 80% of the charges will result in cash expenditures.

For the three months ended September 30, 2024, charges resulting from the 2022 Global Productivity Initiative were \$15 pretax (\$13 aftertax). For the three months ended September 30, 2023, charges resulting from the 2022 Global Productivity Initiative were \$2 pretax (\$2 aftertax).

For the nine months ended September 30, 2024 and September 30, 2023, charges resulting from the 2022 Global Productivity Initiative are reflected in the income statement as follows:

		Nine Months Ended	l Septembe	er 30,
	20	124		2023
Gross Profit	\$	19	\$	1
Selling, general and administrative expenses		4		2
Other (income) expense, net		54		22
Non-service related postretirement costs				4
Total 2022 Global Productivity Initiative charges, pretax	\$	77	\$	29
Total 2022 Global Productivity Initiative charges, aftertax	\$	67	\$	23

Restructuring and related implementation charges were recorded in the Corporate segment as these initiatives are predominantly centrally directed and controlled and are not included in internal measures of segment operating performance.

Notes to Condensed Consolidated Financial Statements (continued)

(Dollars in Millions Except Share and Per Share Amounts) (Unaudited)

Total charges incurred for the 2022 Global Productivity Initiative relate to initiatives undertaken by the following reportable operating segments and Corporate:

	Nine Months Ended S	Program-to-date Accumulated Charges		
	2024	2023		
North America ⁽¹⁾	3 %	15 %	9	%
Latin America	<u> </u>	1 %	9	%
Europe ⁽¹⁾	88 %	19 %	43	%
Asia Pacific	<u> </u>	21 %	7	%
Africa/Eurasia	<u> </u>	10 %	6	%
Hill's Pet Nutrition	7 %	14 %	12	%
Corporate	2 %	20 %	14	%
Total	100 %	100 %	100	%

⁽¹⁾ The Company has recast its historical geographic segment information to conform to the reporting structure effective as of July 1, 2024. The results of the skin health business previously reported within the Europe reportable operating segment are reported with the other skin health businesses in the North America reportable operating segment. See Note 10, Segment Information for additional details.

Since the inception of the 2022 Global Productivity Initiative, the Company has incurred cumulative pretax charges of \$220 (\$178 aftertax) in connection with the implementation of various projects as follows:

	Cumulative Charges as of September 30, 2024							
Employee-Related Costs	\$	175						
Incremental Depreciation		13						
Asset Impairments		1						
Other		31						
Total	\$	220						

The following table summarizes the activity for the restructuring and related implementation charges discussed above and the related accruals:

		Nine Months	End	ed September 30, 2	024		
	ee-Related os ts	Incremental Depreciation		Asset Impairments		Other	Total
Balance at December 31, 2023	\$ 10	\$ _	\$	_	\$	1	\$ 11
Charges	49	13		_		15	77
Cash Payments	(13)	_		_		(10)	(23)
Charges against assets	_	(13)		_		_	(13)
Foreign exchange	(1)	_		_		_	(1)
Balance at September 30, 2024	\$ 45	\$ _	\$	_	\$	6	\$ 51

Employee-Related Costs primarily include severance and other termination benefits and are calculated based on long-standing benefit practices, written severance policies, local statutory requirements and, in certain cases, voluntary termination arrangements. Employee-Related Costs also include pension enhancements which are reflected as Charges against assets within Employee-Related Costs in the preceding table as the corresponding balance sheet amounts are

Notes to Condensed Consolidated Financial Statements (continued)

(Dollars in Millions Except Share and Per Share Amounts) (Unaudited)

reflected as a reduction of pension assets or an increase in pension liabilities. For the nine months ended September 30, 2024, there were no pension enhancements included in Charges against assets within Employee-Related Costs.

Incremental Depreciation is recorded to reflect changes in useful lives and estimated residual values for long-lived assets that will be taken out of service prior to the end of their normal service period. Asset Impairments are recorded to write down inventories and assets held for sale or disposal to their fair value based on amounts expected to be realized. Charges against assets within Asset Impairments are net of cash proceeds pertaining to the sale of certain assets.

5. Inventories

Inventories by major class were as follows:

	tember 30, 2024	De	ecember 31, 2023
Raw materials and supplies	\$ 620	\$	606
Work-in-process	49		46
Finished goods	1,489		1,411

Current Inventories, net	\$ 2,041	\$	1,934

6. Earnings Per Share

For the three months ended September 30, 2024 and 2023, earnings per share were as follows:

			Three Mo	nths	Ended .			
	Sept	ember 30, 2024		Septem	ber 30, 2023			
	Net income attributable to Colgate-Palmolive Company	Shares (millions)	Per Share		let income attributable to Colgate-Palmolive Company	Shares (millions)	,	Per Share
Basic EPS	\$ 737	817.7	\$ 0.90	\$	708	825.6	\$	0.86
Stock options and restricted stock units		4.8				1.7		
Diluted EPS	\$ 737	822.5	\$ 0.90	\$	708	827.3	\$	0.86

For the three months ended September 30, 2024 and 2023, the average number of stock options and restricted stock units that were anti-dilutive and not included in diluted earnings per share calculations were 315,441 and 13,538,153, respectively.

Notes to Condensed Consolidated Financial Statements (continued)

(Dollars in Millions Except Share and Per Share Amounts) (Unaudited)

For the nine months ended September 30, 2024 and 2023, earnings per share were as follows:

					Nine Mo	nths E	inded		
		September 30, 2024 September 30, 2023							
	to Colg	me attributable ate-Palmolive ompany	Shares (millions)	,	Per Share		income attributable Colgate-Palmolive Company	Shares (millions)	Per Share
Basic EPS	\$	2,150	820.1	\$	2.62	\$	1,582	828.8	\$ 1.91
Stock options and restricted stock units			4.1					1.7	
Diluted EPS	\$	2,150	824.2	\$	2.61	\$	1,582	830.5	\$ 1.90

For the nine months ended September 30, 2024 and 2023, the average number of stock options and restricted stock units that were anti-dilutive and not included in diluted earnings per share calculations were 113,356 and 13,504,588, respectively.

Basic and diluted earnings per share are computed independently for each quarter and any year-to-date period presented. As a result of changes in the number of shares outstanding during the year and rounding, the sum of the quarters' earnings per share may not necessarily equal the earnings per share for any year-to-date period.

7. Other Comprehensive Income (Loss)

Additions to and reclassifications out of Accumulated other comprehensive income (loss) attributable to the Company for the three and nine months ended September 30, 2024 and 2023 were as follows:

	Three Months Ended September 30,						Months Ended eptember 30,

8. Retirement Plans and Other Retiree Benefits

Components of Net periodic benefit cost for the three and nine months ended September 30, 2024 and 2023 were as follows:

Three Months Ended September 30. **Pension Benefits** Other Retiree Benefits **United States** International 2024 2024 2024 2023 2023 2023 Service cost 3 \$ 3 \$ 2 \$ 2 \$ Interest cost 23 20 7 6 8 7 Expected return on plan assets (20)(20)(7)(5) Amortization of actuarial losses (gains) 10 12 (5) (6) 2 14 12 5 5 5 3 Net periodic benefit cost Other postretirement charges 5 19 12 5 5 5 3 \$ Total pension cost

	Nine Months Ended September 30,												
	Pension Benefits									Other Retiree Benefits			
	United States International												
		2024		2023		2024		2023		2024		2023	
Service cost	\$	1	\$	_	\$	11	\$	9	\$	6	\$	6	
Interest cost		70		68		22		22		26		29	
Expected return on plan assets		(58)		(61)		(20)		(14)		_		_	
Amortization of actuarial losses (gains)		31		34		4		3		(13)		(14)	
Net periodic benefit cost	\$	44	\$	41	\$	17	\$	20	\$	19	\$	21	
Other postretirement charges		5		4		_		_		_		_	
ERISA litigation matter		_		267		_		_		_		_	
Total pension cost	\$	49	\$	312	\$	17	\$	20	\$	19	\$	21	

Other postretirement charges for the three and nine months ended September 30, 2024 included pension and other charges amounting to \$5. Other postretirement charges for the three and nine months ended September 30, 2023 included pension and other charges of \$0 and \$4, respectively, incurred pursuant to the 2022 Global Productivity Initiative.

In the first quarter of 2023, the Company recorded a charge of \$267 as a result of a decision of the United States Court of Appeals for the Second Circuit (the "Second Circuit") affirming a grant of summary judgment to the plaintiffs in a lawsuit under the Employee Retirement Income Security Act ("ERISA") seeking the recalculation of benefits and other relief associated with a 2005 residual annuity amendment to the Colgate-Palmolive Company Employees' Retirement Income Plan (the "Retirement Plan"). The decision resulted in an increase in the obligations of the Retirement Plan, which based on the current funded status of the Retirement Plan and depending on the asset performance, impact of interest rates for the remainder of the year and further developments in the litigation, may require a cash contribution by the Company in 2025. See Note 9, Contingencies for additional information.

For the three and nine months ended September 30, 2024 and 2023, the Company made no voluntary contributions to its U.S. postretirement plans.

Notes to Condensed Consolidated Financial Statements (continued)

(Dollars in Millions Except Share and Per Share Amounts) (Unaudited)

9. Contingencies

As a global company serving consumers in more than 200 countries and territories, the Company is routinely subject to a wide variety of legal proceedings. These include disputes relating to intellectual property, contracts, product liability, marketing, advertising, foreign exchange controls, antitrust and trade regulation, as well as labor and employment, pension, data privacy and security, environmental and tax matters and consumer class actions. In addition, management proactively reviews and monitors the Company's exposure to, and the impact of, environmental matters. The Company is party to various environmental matters and, as such, may be responsible for all or a portion of the cleanup, restoration and post-closure monitoring of several sites.

The Company establishes accruals for loss contingencies when it has determined that a loss is probable and that the amount of loss, or range of loss, can be reasonably estimated. Any such accruals are adjusted thereafter as appropriate to reflect changes in circumstances.

The Company also determines estimates of reasonably possible losses or ranges of reasonably possible losses in excess of related accrued liabilities, if any, when it has determined that a loss is reasonably possible and it is able to determine such estimates. For those matters disclosed below for which the amount of any potential losses can be reasonably estimated, the Company currently estimates that the aggregate range of reasonably possible losses in excess of any accrued liabilities is \$0 to approximately \$275 (based on current exchange rates). The estimates included in this amount are based on the Company's analysis of currently available information and, as new information is obtained, these estimates may change. Due to the inherent subjectivity of the assessments and the unpredictability of outcomes of legal proceedings, any amounts accrued or included in this aggregate range may not represent the ultimate loss to the Company. Thus, the Company's exposure and ultimate losses may be higher or lower, and possibly significantly so, than the amounts accrued or the range disclosed above

Based on current knowledge, management does not believe that the ultimate resolution of loss contingencies arising from the matters discussed herein will have a material effect on the Company's consolidated financial position or its ongoing results of operations or cash flows. However, in light of the inherent uncertainties noted above, an adverse outcome in one or more matters could be material to the Company's results of operations or cash flows for any particular quarter or year.

Brazilian Matters

There are certain tax and civil proceedings outstanding, as described below, related to the Company's 1995 acquisition of the Kolynos oral care business from Wyeth (the "Seller").

The Brazilian internal revenue authority has disallowed interest deductions and foreign exchange losses taken by the Company's Brazilian subsidiary for certain years in connection with the financing of the Kolynos acquisition. The tax assessments with interest, penalties and any court-mandated fees, at the current exchange rate, are approximately \$105. This amount includes additional assessments received from the Brazilian internal revenue authority in April 2016 relating to net operating loss carryforwards used by the Company's Brazilian subsidiary to offset taxable income that had also been deducted from the authority's original assessments. The Company has been disputing the disallowances by appealing the assessments since October 2001.

In each of September 2015, February 2017, September 2018, April 2019 and August 2020, the Company lost an administrative appeal and subsequently challenged these assessments in the Brazilian federal courts. Currently, there are three lawsuits pending in the Lower Federal Court and two cases have progressed to the Federal Court of Appeals. Although there can be no assurances, management believes, based on the opinion of its Brazilian legal counsel, that the disallowances are without merit and that the Company should ultimately prevail. The Company is challenging these disallowances vigorously. In November 2023, based upon changes in Brazilian tax law, the Company filed petitions in three of the actions requesting that the penalty portion of the claim be removed. The Brazilian tax authority agreed with the Company's position and in August 2024 reduced its claim in two of those actions and in October 2024 reduced its claim in the third.

In July 2002, the Brazilian Federal Public Attorney filed a civil action against the federal government of Brazil, Laboratorios Wyeth-Whitehall Ltda. (the Brazilian subsidiary of the Seller) and the Company, as represented by its Brazilian subsidiary, in the 6th. Lower Federal Court in the City of São Paulo, seeking to annul an April 2000 decision by the Brazilian Board of Tax Appeals that found in favor of the Seller's Brazilian subsidiary on the issue of whether it had

Notes to Condensed Consolidated Financial Statements (continued)

(Dollars in Millions Except Share and Per Share Amounts)
(Unaudited)

incurred taxable capital gains as a result of the divestiture of Kolynos. The action seeks to make the Company's Brazilian subsidiary jointly and severally liable for any tax due from the Seller's Brazilian subsidiary. The case has been pending since 2002, and the Lower Federal Court has not issued a decision. Although there can be no assurances, management believes, based on the opinion of its Brazilian legal counsel, that the Company should ultimately prevail in this action. The Company is challenging this action vigorously.

In December 2005, the Brazilian internal revenue authority issued to the Company's Brazilian subsidiary a tax assessment with interest, penalties and any court-mandated fees of approximately \$53, at the current exchange rate, based on a claim that certain purchases of U.S. Treasury bills by the subsidiary and their subsequent disposition during the period 2000 to 2001 were subject to a tax on foreign exchange transactions. The Company had been disputing the assessment within the internal revenue authority's administrative appeals process. However, in November 2015, the Superior Chamber of Administrative Tax Appeals denied the Company's final administrative appeal, and the Company has filed a lawsuit in the Brazilian federal court. In the event the Company is unsuccessful in this lawsuit, further appeals are available within the Brazilian federal courts. Although there can be no assurances, management believes, based on the opinion of its Brazilian legal counsel, that the tax assessment is without merit and that the Company should ultimately prevail. The Company is challenging this assessment vigorously. In addition, in April 2024, based upon changes in Brazilian tax law, the Company filed a petition in this matter requesting that the penalty portion of the claim be removed. The Brazilian tax authority has not yet responded to that petition.

Competition Matter

Certain of the Company's subsidiaries were historically subject to actions and, in some cases, fines, by governmental authorities in a number of countries related to alleged competition law violations. Substantially all of these matters also involved other consumer goods companies and/or retail customers. The Company's policy is to comply with antitrust and competition laws and, if a violation of any such laws is found, to take appropriate remedial action and to cooperate fully with any related governmental inquiry. The status as of September 30, 2024 of such competition law matters pending against the Company during the nine months ended September 30, 2024 is set forth below.

• In July 2014, the Greek competition law authority issued a statement of objections alleging a restriction of parallel imports into Greece. The Company responded to this statement of objections. In July 2017, the Company received the decision from the Greek competition law authority in which the Company was fined \$11. The Company appealed the decision to the Greek courts. In April 2019, the Greek courts affirmed the judgment against the Company's Greek subsidiary, but reduced the fine to \$10.5 and dismissed the case against Colgate-Palmolive Company. The Company's Greek subsidiary and the Greek competition authority appealed the decision to the Greek Supreme Court.

Talcum Powder Matters

The Company has been named as a defendant in civil actions alleging that certain of its talcumpowder products were contaminated with asbestos and/or caused mesothelioma and other cancers. Many of these actions involve a number of co-defendants from a variety of different industries, including suppliers of asbestos and manufacturers of products that, unlike the Company's products, were designed to contain asbestos.

As of September 30, 2024, there were 313 individual cases pending against the Company in state and federal courts throughout the United States, as compared to 293 cases as of June 30, 2024 and 279 cases as of December 31, 2023. During the three months ended September 30, 2024, 39 new cases were filed, 18 cases were resolved by voluntary dismissal or settlement and one case was removed from the case count when it was established that the claimdoes not relate to talcum powder. During the nine months ended September 30, 2024, 105 new cases were filed and 70 cases were resolved by voluntary dismissal, settlement or dismissal by the court, and one case was removed from the case count as described in the previous sentence. The value of the settlements in the periods presented was not material, either individually or in the aggregate, to such periods' results of operations. During the three months ended March 31, 2024, one case resulted in a jury verdict in favor of the Company after a trial. Subsequently, the trial court granted plaintiffs' motion for a new trial in that case. However, during the three months ended September 30, 2024, an appellate court granted the Company's request to reinstate the jury's verdict in favor of the Company. Plaintiffs are challenging the ruling of the appellate court.

Notes to Condensed Consolidated Financial Statements (continued)

(Dollars in Millions Except Share and Per Share Amounts)
(Unaudited)

A significant portion of the Company's costs incurred in defending and resolving these claims has been, and the Company believes that a portion of the costs will continue to be, covered by insurance policies issued by several primary, excess and umbrella insurance carriers, subject to deductibles, exclusions, retentions, policy limits and insurance carrier insolvencies.

While the Company and its legal counsel believe that these cases are without merit and intend to challenge them vigorously, there can be no assurances regarding the ultimate resolution of these matters.

ERISA Matter

In June 2016, a lawsuit was filed in the United States District Court for the Southern District of New York (the "District Court") against the Retirement Plan, the Company and certain individuals (the "Company Defendants") claiming that residual annuity payments associated with a 2005 residual annuity amendment to the Retirement Plan were improperly calculated for certain Retirement Plan participants in violation of ERISA. The relief sought included recalculation of benefits, pre- and post-judgment interest and attorneys' fees. This action was certified as a class action in July 2017. In July 2020, the District Court dismissed certain claims, and in August 2020 granted the plaintiffs' motion for summary judgment on the remaining claims. In September 2020, the Company appealed to the Second Circuit. In March 2023, the Second Circuit affirmed the grant of summary judgment to the plaintiffs.

In light of the Second Circuit decision, the Company recorded a charge to earnings of \$267 in the quarter ended March 31, 2023, which is comprised of the recalculation of benefits and interest. Possible additional charges associated with this matter are expected to be immaterial and, where estimable, are reflected in the range of reasonably possible losses disclosed above. The decision resulted in an increase in the obligations of the Retirement Plan, which based on the current funded status of the Retirement Plan and depending on the asset performance, impact of interest rates for the remainder of the year and further developments in the litigation, may require a cash contribution by the Company in 2025. In June 2023, the Company filed a petition for certiorari to the United States Supreme Court requesting permission for an appeal to that court and that petition was denied in October 2023. Also, in June 2023, the plaintiffs filed a motion to enter a revised final judgment in the District Court to address certain unresolved calculation issues, which the Company opposed. In March 2024, the District Court granted the plaintiffs' motion and found for the plaintiffs on those calculation issues. The Company is appealing that decision to the Second Circuit

10. Segment Information

The Company operates in two product segments: Oral, Personal and Home Care; and Pet Nutrition.

The operations of the Oral, Personal and Home Care product segment are managed geographically in five reportable operating segments: North America, Latin America, Europe, Asia Pacific and Africa/Eurasia.

In connection with management changes, the Company realigned the reporting structure of its skin health business effective July 1, 2024. Accordingly, commencing with the quarter ended September 30, 2024, the results of the skin health business previously reported within the Europe reportable operating segment are reported with the other skin health businesses in the North America reportable operating segment, with no impact on the Company's consolidated results of operations or financial position. The Company has recast its historical geographic segment information to conform to the new reporting structure.

As a result of this reporting structure realignment, the Company reallocated the goodwill of its skin health business (approximately \$223) from the Europe segment to the North America segment. In conjunction with this reporting structure realignment, the Company completed an assessment indicating no goodwill impairment existed as a result of this new segment reporting structure.

The Company evaluates segment performance based on several factors, including Operating profit. The Company uses Operating profit as a measure of operating segment performance because it excludes the impact of Corporate-driven decisions related to interest expense and income taxes.

The accounting policies of the operating segments are generally the same as those described in Note 2, Summary of Significant Accounting Policies to the Company's Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2023. Intercompany sales have been eliminated. Corporate

Notes to Condensed Consolidated Financial Statements (continued)

(Dollars in Millions Except Share and Per Share Amounts) (Unaudited)

operations include costs related to stock options and restricted stock units, research and development costs, Corporate overhead costs, restructuring and related implementation charges and gains and losses on sales of non-core product lines and assets. The Company reports these items within Corporate operations as they relate to Corporate-based responsibilities and decisions and are not included in the internal measures of segment operating performance used by the Company to measure the underlying performance of the operating segments.

Net sales by segment were as follows:

	Three Mo Septen		Nine Mor Septen		
	 2024		2023	2024	2023
Net sales					
Oral, Personal and Home Care					
North America	\$ 1,004	\$	1,025	\$ 3,076	\$ 3,044
Latin America	1,156		1,194	3,676	3,447
Europe	744		690	2,102	1,935
Asia Pacific	725		682	2,133	2,084
Africa/Eurasia	278		266	827	822
Total Oral, Personal and Home Care	 3,907		3,857	11,814	11,332
Pet Nutrition	1,126		1,058	3,342	3,175
Total Net sales	\$ 5,033	\$	4,915	\$ 15,156	\$ 14,507

Approximately two-thirds of the Company's Net sales are generated from markets outside the U.S., with approximately 45% of the Company's Net sales coming from emerging markets (which consist of Latin America, Asia (excluding Japan), Africa/Eurasia and Central Europe).

The Company's Net sales of Oral, Personal and Home Care and Pet Nutrition products accounted for the following percentages of the Company's Net sales:

	Three Mont Septemb		Nine Mon Septem	ths Ended ber 30,
	2024 2023		2024	2023

(Unaudited)

11. Fair Value Measurements and Financial Instruments

The Company uses available market information and other valuation methodologies in assessing the fair value of financial instruments. Judgment is required in interpreting market data to develop the estimates of fair value and, accordingly, changes in assumptions or the estimation methodologies may affect the fair value estimates. The Company is exposed to the risk of credit loss in the event of nonperformance by counterparties to financial instrument contracts; however, nonperformance is considered unlikely and any nonperformance is unlikely to be material, as it is the Company's policy to contract only with diverse, creditworthy counterparties based upon both strong credit ratings and other credit considerations.

The Company is exposed to market risk from foreign currency exchange rates, interest rates and commodity price fluctuations. Volatility relating to these exposures is managed on a global basis by utilizing a number of techniques, including working capital management, sourcing strategies, selling price increases, selective borrowings in local currencies and entering into selective derivative instrument transactions, issued with standard features, in accordance with the Company's treasury and risk management policies, which prohibit the use of derivatives for speculative purposes and leveraged derivatives for any purpose. It is the Company's policy to enter into derivative instrument contracts with terms that match the underlying exposure being hedged.

The Company's derivative instruments include forward-starting interest rate swaps, foreign currency contracts and commodity contracts. The Company utilizes forward-starting interest rate swaps to mitigate the risk of variability in interest rate for future debt issuances and these swaps are valued using observable benchmark rates (Level 2 valuation). The Company utilizes foreign currency contracts, including forward and swap contracts, option contracts, local currency deposits and local currency borrowings to hedge portions of its foreign currency purchases, assets and liabilities arising in the normal course of business and the net investment in certain foreign subsidiaries. These contracts are valued using observable market rates (Level 2 valuation). Commodity futures contracts are utilized to hedge the purchases of raw materials used in production. These contracts are measured using quoted commodity exchange prices (Level 1 valuation). The duration of foreign currency and commodity contracts generally does not exceed 12 months.

The following table summarizes the fair value of the Company's derivative instruments and other financial instruments which are carried at fair value in the Company's Condensed Consolidated Balance Sheets at September 30, 2024 and December 31, 2023:

		Assets						lities			
	Account		Fair Value			Account		Fair Value			
Designated derivative instru	uments		ember 30, 2024	De	cember 31, 2023			mber 30, 024		nber 31, 023	
Foreign currency contracts	Other current assets	\$	31	\$	19	Other accruals	\$	39	\$	25

Total designated		\$	31	\$	19		\$	40	\$	26	
Other financial instruments	S										
Marketable securities	Other current assets	\$	260	\$	179						
Total other financial instru	ments	\$	260	\$	179						

Notes to Condensed Consolidated Financial Statements (continued)

(Dollars in Millions Except Share and Per Share Amounts) (Unaudited)

The carrying amount of cash, cash equivalents, marketable securities, accounts receivable and short-term debt approximated fair value as of September 30, 2024 and December 31, 2023. The estimated fair value of the Company's long-term debt, including the current portion, as of September 30, 2024 and December 31, 2023, was \$7,565 and \$7,862, respectively, and the related carrying value was \$7,929 and \$8,239, respectively. The estimated fair value of long-term debt was derived principally from quoted prices on the Company's outstanding fixed-term notes (Level 2 valuation).

The following tables present the notional values as of:

	_	September 30, 2024								
		Foreign Currency Contracts	Foreign Currency Debt		Commodity Contracts	Total				
Fair Value Hedges	\$	1,732	\$ —	\$		\$	1,732			
Cash Flow Hedges		1,022	_		26		1,048			
Net Investment Hedges		474	4,269		_		4,743			

		December 31, 2023								
	-	Foreign Currency Contracts	Foreign Curre	ncy Debt		Commodity Contracts		Total		
Fair Value Hedges	\$	1,625	\$		\$		\$	1,625		
Cash Flow Hedges		869		_		39		908		
Net Investment Hedges		280		3,908		_		4,188		

The amount of gain (loss) recognized in income associated with fair value hedges did not have a material impact on the Company's Condensed Consolidated Financial Statements during the three and nine months ended September 30, 2024.

The amount of gain (loss) recognized in income and Accumulated Other Comprehensive Income (AOCI) associated with cash flow hedges did not have a material impact on the Company's Condensed Consolidated Financial Statements during the three and nine months ended September 30, 2024.

The following table presents the amount of gain (loss) on net investment hedges recognized in the Company's AOCI:

	Gain (Loss) Recognized in AOCI										
	Three	Three Months Ended September 30,				Vine Months Ende	Ended September 30,				
	-	2024		2023		2024		2023			
Hedging instruments:

Foreign currency debt		(216)		50		(82)		90			
Total gain (loss) on net investment hedges	\$	(220)	\$	13	\$	(62)	\$	71			

Notes to Condensed Consolidated Financial Statements (continued)

(Dollars in Millions Except Share and Per Share Amounts)
(Unaudited)

12. Supplier Finance Program

The Company has agreements to provide supplier finance programs which facilitate participating suppliers' ability to finance payment obligations of the Company with designated third-party financial institutions. Participating suppliers may, at their sole discretion, elect to finance one or more payment obligations of the Company prior to their scheduled due dates at a discounted price to participating financial institutions. The Company's obligations to its suppliers, including amounts due and scheduled payment dates, are not impacted by suppliers' decisions to finance amounts under these arrangements. The outstanding payment obligations under the Company's supplier finance programs are included in Accounts Payable in the Condensed Consolidated Balance Sheets and were not material as of September 30, 2024 and December 31, 2023.

13. Income Taxes

The effective income tax rate was 21.3% for the third quarter of 2024 as compared to 21.9% for the third quarter of 2023. The quarterly provision for income taxes is determined based on the Company's estimated full year effective income tax rate adjusted by the amount of tax attributable to infrequent or unusual items that are separately recognized on a discrete basis in the income tax provision in the quarter in which they occur. The Company's current estimate of its full year effective income tax rate before discrete period items is 23.7%, flat with the comparable period of 2023.

In the third quarter of 2023, the Internal Revenue Service (the "IRS") issued a notice giving taxpayers temporary relief from the effects of certain U.S. tax regulations that were issued in December 2021, which place greater restrictions on foreign taxes that are creditable against U.S. taxes on foreign-source income. This notice allowed taxpayers to defer the application of these new regulations through the end of 2023. In December 2023, the IRS issued further guidance modifying this temporary relief period to the date that a notice or other guidance withdrawing or modifying the temporary relief is issued. The Company will recognize the impact, if any, in the period in which the temporary relief is withdrawn or modified.

The Company has ongoing federal, state and international income tax audits in various jurisdictions and evaluates uncertain tax positions that may be challenged by local tax authorities and not fully sustained. All U.S. federal income tax returns through December 31, 2013 have been audited by the IRS and there are limited matters which the Company plans to appeal for years 2010 through 2013. One such matter relates to the IRS assessment of taxes on the Company by imputing income on certain activities within one of our international operations, which is also under audit for the years 2014 through 2018. There were U.S. Tax Court rulings during 2023 in favor of the IRS against unrelated third parties on similar matters. Despite the U.S. Tax Court rulings, the Company continues to believe that the tax assessment against the Company is without merit. While there can be no assurances, the Company believes this matter will ultimately be decided in favor of the Company. The amount of tax plus interest for the years 2010 through 2018 is estimated to be approximately \$150, which is not included in the Company's uncertain tax positions. In May 2024, the IRS initiated an audit for the years 2019 through 2021.

On August 16, 2022, the Inflation Reduction Act of 2022 ("IRA") was enacted, which among other things, implements a 15% minimum tax on book income of certain large corporations effective for years beginning after December 31, 2022. Based on the Company's analysis, as well as guidance published by the IRS, the IRA, and in particular the 15% minimum tax, did not have an impact on the Company's Consolidated Financial Statements. Subsequent to the aforementioned guidance published by the IRS, on September 12, 2024, the U.S. Treasury Department and IRS released proposed regulations relating to this 15% minimum tax. The Company is currently evaluating the potential impact of these regulations and will evaluate any additional guidance and clarification that becomes available.

Additionally, on December 15, 2022, the 27 member states of the European Union ("EU") reached an agreement on a minimum level of taxation for certain large corporations to pay a minimum corporate tax rate of 15% in every jurisdiction in which they operate. This agreement, which is known as the Minimum Tax Directive (part of the "Pillar II Model Rules"), was supposed to be transposed into the laws of all EU member states by December 31, 2023. Most member states complied, while some were granted extensions of time. In addition, many other jurisdictions outside the EU have also committed to implement this Directive while others have implemented a similar minimum tax regime consistent with the policy of the Pillar II Model Rules. Details of these rules are still being developed and, in some cases, enactment and timing is still uncertain. Based on current legislation and available guidance, this Directive does not have a material impact

Notes to Condensed Consolidated Financial Statements (continued)

(Dollars in Millions Except Share and Per Share Amounts) (Unaudited)

on the Company's Consolidated Financial Statements. However, as these rules and related regulations are revised and implemented, the Company will evaluate the impact, if any, on its Consolidated Financial Statements.

During the quarter ended June 30, 2023, the Company reassessed with its legal and tax advisers certain tax deductions taken in prior years by one of our subsidiaries and concluded that it was more likely than not that the deductions would not be sustained by the courts in that jurisdiction. The value of the tax deductions was not material to the Company in any year in which they were taken. The cumulative effect of the change in tax position of \$148 was reflected as a discrete item in the quarter ended June 30, 2023 income tax expense, partially offset by the reversal of certain prior years' withholding tax reserves of \$22 that were no longer required. The tax liability was paid in the quarter ended September 30, 2023.

Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in Millions Except Per Share Amounts)

Executive Overview

Business Organization

Colgate-Palmolive Company (together with its subsidiaries, "we," "us," "our," the "Company" or "Colgate") is a caring, innovative growth company reimagining a healthier future for all people, their pets and our planet. We seek to deliver sustainable, profitable growth and superior shareholder returns, as well as to provide Colgate people with an innovative and inclusive work environment. We do this by developing and selling science-led products globally that make people's and their pets' lives healthier and more enjoyable and by embracing our sustainability and social impact and diversity, equity and inclusion ("DE&I") strategies across our organization.

We are tightly focused on two product segments: Oral, Personal and Home Care; and Pet Nutrition. Within these segments, we follow a closely defined business strategy to grow our key product categories and increase our overall market share. Within the categories in which we compete, we prioritize our efforts based on their capacity to maximize the use of the organization's core competencies and strong global equities and to deliver sustainable, profitable long-term growth.

Operationally, we are organized along geographic lines with management teams having responsibility for the business and financial results in each region. We compete in more than 200 countries and territories worldwide with established businesses in all regions contributing to our sales and profitability. Approximately two-thirds of our Net sales are generated from markets outside the U.S., with approximately 45% of our Net sales coming from emerging markets (which consist of Latin America, Asia (excluding Japan), Africa/Eurasia and Central Europe). This geographic diversity and balance help to reduce our exposure to business and other risks in any one country or part of the world.

The Oral, Personal and Home Care product segment is managed geographically in five reportable operating segments: North America, Latin America, Europe, Asia Pacific and Africa/Eurasia, all of which sell primarily to a variety of traditional and eCommerce retailers, wholesalers, distributors, dentists and, in some segments, skin health professionals. Through Hill's Pet Nutrition, we also compete on a worldwide basis in the pet nutrition market, selling products principally through authorized pet supply retailers, veterinarians and eCommerce retailers. We also sell certain of our products direct-to-consumer. We are engaged in manufacturing and sourcing of products and materials on a global scale and have major manufacturing facilities, warehousing facilities and distribution centers in every region around the world.

In connection with management changes, we realigned the reporting structure of our skin health business effective July 1, 2024. Accordingly, commencing with the quarter ending September 30, 2024, the results of the skin health business previously reported within the Europe reportable operating segment are now reported with our other skin health businesses in the North America reportable operating segment, with no impact on the Company's consolidated results of operations or financial position.

On an ongoing basis, management focuses on a variety of key indicators to monitor business health and performance. These indicators include net sales (including volume, pricing and foreign exchange components), organic sales growth (net sales growth excluding the impact of foreign exchange, acquisitions and divestments), a non-GAAP financial measure, and gross profit margin, selling, general and administrative expenses, operating profit, net income and earnings per share, in each case, on a GAAP and non-GAAP basis, as well as measures used to optimize the management of working capital, capital expenditures, cash flow and return on capital. In addition, we review market share, household penetration and other data to assess how our brands are performing within their categories on a global and regional basis. The monitoring of these indicators and our Code of Conduct and corporate governance practices help to maintain business health and strong internal controls. For additional information regarding non-GAAP financial measures and the Company's use of market share data and the limitations of such data, see "Non-GAAP Financial Measures" and "Market Share Information" below.

Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in Millions Except Per Share Amounts)

The War in Ukraine

The war in Ukraine, and the related geopolitical tensions, have had and continue to have a significant impact on our operations in Ukraine and Russia, though it has not been material to our Consolidated Financial Statements. While our ability to do business in Ukraine has been significantly impacted, we remain committed to providing access to our products to people in the region. In Russia, we are importing and selling a reduced portfolio of health and hygiene products for everyday use. We have no manufacturing facilities in Russia and have ceased all capital investments and media activities in the country. For the nine months ended September 30, 2024, our business in the Eurasia region constituted approximately 1% of our consolidated net sales and approximately 2% of our consolidated operating profit. We have experienced, and expect to continue to experience, risks related to the impact of the war in Ukraine, including increases in the costs and, in certain cases, limitations on the availability of certain raw and packaging materials and commodities (including oil and natural gas), supply chain and logistics challenges, import restrictions, foreign currency volatility and reputational concerns. We also have faced and continue to face challenges to our ability to repatriate cash from Russia and finding banking partners to support our Russian operations and we may face challenges to our ability to protect our assets in Russia. We also continue to monitor the impact of sanctions, export controls and import restrictions imposed in response to the war in Ukraine.

The War in the Middle East

The war in the Middle East has not had a material impact on our Consolidated Financial Statements. Uncertainties and risks remain as to the duration of the war and its impact on geopolitical relations and stability in North Africa, the Middle East and nearby regions. The war has impacted and may continue to impact, among other things, supply chain and logistics, the availability and price of raw and packaging materials and commodities such as oil, consumer sentiment and consumption and category growth rates in the region.

For more information about factors that could impact our business, including due to geopolitical conflicts, such as the wars in Ukraine and the Middle East, refer to Part I, Item 1A "Risk Factors" of our Annual Report on Form 10-K for the year ended December 31, 2023.

Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in Millions Except Per Share Amounts)

Business Strategy

To achieve our business and financial objectives, we are focused on driving organic sales growth and consistent compounded earnings per share growth through science-led, core and premium innovation, pursuing higher-growth adjacent categories and segments, expanding in faster-growing channels and markets and delivering margin expansion through operating leverage and efficiency. We continue to prioritize our investments in high growth segments within our Oral Care, Personal Care and Pet Nutrition businesses. We are also seeking to lead in the development of human capital and to maximize the impact of our sustainability and social impact and DE&I strategies. We are strengthening and leveraging our capabilities in areas such as innovation, digital, artificial intelligence, eCommerce and data and analytics, enabling us to be more responsive in today's rapidly changing world. We continue to invest behind our brands, including through advertising, and to develop initiatives to build strong relationships with consumers, dental, veterinary and skin health professionals and traditional and eCommerce retailers. We continue to believe that growth opportunities are greater in those areas of the world in which economic development and rising consumer incomes expand the size and number of markets for our products.

The investments needed to drive growth are supported through continuous, Company-wide initiatives to lower costs and increase effective asset utilization. Through these initiatives, which are referred to as our funding-the-growth initiatives, we seek to become even more effective and efficient throughout our businesses. These initiatives are designed to reduce costs associated with direct materials, indirect expenses, distribution and logistics and advertising and promotional materials, among other things, and encompass a wide range of projects, examples of which include raw material substitution, reduction of packaging materials, consolidating suppliers to leverage volumes and increasing manufacturing efficiency through SKU reductions and formulation simplification.

Significant Items Impacting Comparability

During the quarter ended June 30, 2023, we reassessed with our legal and tax advisers certain tax deductions taken in prior years by one of our subsidiaries and concluded that it was more likely than not that the deductions would not be sustained by the courts in that jurisdiction. The value of the tax deductions was not material to us in any year in which they were taken. The cumulative effect of the change in tax position of \$148 was reflected as a discrete item in the quarter ended June 30, 2023 income tax expense, partially offset by the reversal of certain prior years' withholding tax reserves of \$22 that are no longer required (hereinafter referred to as the "foreign tax matter"). The tax liability was paid in the quarter ended September 30, 2023. See Note 13, Income Taxes, to the Condensed Consolidated Financial Statements for additional information.

During the quarter ended March 31, 2023, we recorded a charge of \$267 as a result of a decision of the United States Court of Appeals for the Second Circuit (the "Second Circuit") affirming a grant of summary judgment to the plaintiffs in a lawsuit under the Employee Retirement Income Security Act seeking the recalculation of benefits and other relief associated with a 2005 residual annuity amendment to the Colgate-Palmolive Company Employees' Retirement Income Plan (the "Retirement Plan"). The decision resulted in an increase in the obligations of the Retirement Plan, which based on the current funded status of the Retirement Plan and depending on the asset performance, impact of interest rates for the remainder of the year and further developments in the litigation, may require a cash contribution by the Company in 2025. In June 2023, we filed a petition for certiorari to the United States Supreme Court requesting permission for an appeal to that court and that petition was denied in October 2023. Also, in June 2023, the plaintiffs filed a motion to enter a revised final judgment in the United States District Court for the Southern District of New York (the "District Court") to address certain unresolved calculation issues, which we opposed. In March 2024, the District Court granted the Plaintiffs' motion and found for the plaintiffs on those calculation issues. We are appealing that decision to the Second Circuit. See Note 9, Contingencies to the Condensed Consolidated Financial Statements for additional information.

During the quarter ended March 31, 2023, we announced a voluntary recall of select Fabuloso multi-purpose cleaner products sold in the United States and Canada. The costs associated with the voluntary recall had a \$25 impact on our Operating profit in the nine months ended September 30, 2023.

On January 27, 2022, the Company's Board of Directors (the "Board") approved a targeted productivity program (the "2022 Global Productivity Initiative"). All initiatives under the program have been implemented as of the third quarter of 2024 and we expect to incur the remaining charges by the end of 2024. The 2022 Global Productivity Initiative resulted in the reallocation of resources towards our strategic priorities and faster growth businesses, efficiencies in our operations and

Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in Millions Except Per Share Amounts)

the streamlining of our supply chain to reduce structural costs. Total pretax charges from the implementation of the 2022 Global Productivity Initiative are expected to be approximately \$225 (\$180 aftertax), once all charges are recorded. Total annualized pretax savings from the 2022 Global Productivity Initiative are expected to be approximately \$125 (\$100 aftertax). For more information regarding the 2022 Global Productivity Initiative, see "Restructuring and Related Implementation Charges" below.

In the three months ended September 30, 2024 and 2023, we incurred pretax costs of \$15 (aftertax costs of \$13) and \$2 (aftertax costs of \$2), respectively, resulting from the 2022 Global Productivity Initiative.

In the nine months ended September 30, 2024 and 2023, we incurred pretax costs of \$77 (aftertax costs of \$67) and \$29 (aftertax costs of \$23), respectively, resulting from the 2022 Global Productivity Initiative.

Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in Millions Except Per Share Amounts)

Outlook

Looking forward, we expect global macroeconomic, political and market conditions to remain challenging, including as a result of inflation, high interest rates and foreign currency volatility. We have taken and are taking additional pricing to try to offset the increases in raw and packaging material costs we have seen in recent years. This has negatively impacted consumer demand for our products. Additionally, inflation has impacted the broader economy with consumers around the world facing widespread rising prices as well as high interest rates resulting from measures to address inflation. Such inflation and high interest rates may negatively impact consumer consumption or discretionary spending and/or change their purchasing patterns by foregoing purchasing certain of our products or by switching to "private label" or to our lower-priced product offerings. Although we continue to devote significant resources to support our brands and market our products at multiple price points, these changes could reduce demand for and sales volumes of our products or result in a shift in our product mix from higher margin to lower margin product offerings. In light of this challenging environment, we expect continued volatility across all of our categories and it is therefore difficult to predict category growth rates in the near term.

Given that approximately two-thirds of our Net sales originate in markets outside the U.S., we have experienced and will likely continue to experience volatile foreign currency fluctuations, particularly in Argentina and Türkiye, which are considered hyper-inflationary economies. As discussed above, we have also experienced higher raw and packaging material costs. While we have taken, and will continue to take, measures to mitigate the effect of these conditions, such as the 2022 Global Productivity Initiative and our funding-the-growth and revenue growth management initiatives, in the current environment it may become increasingly difficult to implement certain of these mitigation strategies. Should these conditions persist, they could adversely affect our future results.

While the global marketplace in which we operate has always been highly competitive, we continue to experience heightened competitive activity in certain markets from strong local competitors, from other large multinational companies, some of which have greater resources than we do, and from new entrants into the market in many of our categories. Such activities have included more aggressive product claims and marketing challenges, as well as increased promotional spending and geographic expansion.

We have been negatively affected by changes in the policies and practices of our trade customers in key markets, such as inventory destocking, fulfillment requirements, limitations on access to shelf space, delisting of our products and certain sustainability, supply chain and packaging standards or initiatives. In addition, the retail landscape in many of our markets continues to evolve as a result of the continued growth of eCommerce, changing consumer preferences (as consumers increasingly shop online and via mobile and social applications) and the increased presence of alternative retail channels, such as subscription services and direct-to-consumer businesses. We plan to continue to invest behind our data strategy, digital and analytics (including artificial intelligence) capabilities and higher growth businesses. The substantial growth in eCommerce and the emergence of alternative retail channels have created and may continue to create pricing pressures and/or adversely affect our relationships with our key retailers.

We continue to closely monitor the impact of geopolitical events and tensions, such as the wars in Ukraine and the Middle East and tensions between China and Taiwan and the challenging market conditions discussed above, on our business and the related uncertainties and risks. While we have taken, and will continue to take, measures to mitigate the effects of these events and conditions, we cannot estimate with certainty the full extent of their impact on our business, results of operations, cash flows and/or financial condition. For more information about factors that could impact our business, see "Risk Factors" in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2023.

We believe that we are well prepared to meet the challenges ahead due to our strong financial condition, experience operating in challenging environments, resilient global supply chain, dedicated and diverse global team and focused business strategy. Our strategy is based on driving organic sales growth and consistent compounded earnings per share growth through science-led, core and premium innovation, pursuing higher-growth adjacent categories and segments, expanding in faster-growing channels and markets and delivering margin expansion through operating leverage and efficiency. We are also seeking to lead in the development of human capital and to maximize our sustainability and social impact and DE&I strategies. Our commitment to these priorities, the strength of our brands, the breadth of our global footprint and a commitment to profitability and driving efficiency in cash generation should position us well to manage through the challenges we face and increase shareholder value over time.

Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in Millions Except Per Share Amounts)

Results of Operations

Three Months

Worldwide Net sales were \$5,033 in the third quarter of 2024, up 2.4% from the third quarter of 2023, due to volume growth of 3.7% and net selling price increases of 3.1%, partially offset by negative foreign exchange of 4.4%. Organic sales (Net sales excluding the impact of foreign exchange, acquisitions and divestments), a non-GAAP financial measure, increased 6.8% in the third quarter of 2024. A reconciliation of net sales growth to organic sales growth is provided under "Non-GAAP Financial Measures" below.

Net sales in the Oral, Personal and Home Care product segment were \$3,907 in the third quarter of 2024, up 1.3% from the third quarter of 2023, due to volume growth of 3.7% and net selling price increases of 3.1%, partially offset by negative foreign exchange of 5.5%. Organic sales in the Oral, Personal and Home Care product segment increased 6.8% in the third quarter of 2024.

The Company's share of the global toothpaste market was 41.6% on a year-to-date basis, up 0.5 share points from the year ago period, and its share of the global manual toothbrush market was 32.3% on a year-to-date basis, up 0.9 share points from the year ago period. Year-to-date market shares in toothpaste were up in Latin America, Europe and Africa/Eurasia and flat in North America and Asia/Pacific versus the comparable 2023 period. In the manual toothbrush category, year-to-date market shares were up in North America, Latin America and Asia/Pacific and flat in Europe and Africa/Eurasia versus the comparable 2023 period. For additional information regarding market shares, see "Market Share Information" below.

Net sales in the Hill's Pet Nutrition segment were \$1,126 in the third quarter of 2024, up 6.3% from the third quarter of 2023, due to volume growth of 3.6% and net selling price increases of 2.8%, partially offset by negative foreign exchange of 0.1%. Organic sales in the Hill's Pet Nutrition segment increased 6.5% in the third quarter of 2024.

Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in Millions Except Per Share Amounts)

Gross Profit/Margin

Worldwide Gross profit increased to \$3,074 in the third quarter of 2024 compared to \$2,877 in the third quarter of 2023. Worldwide Gross profit in both periods included charges resulting from the 2022 Global Productivity Initiative. Excluding these charges in both periods, Worldwide Gross profit increased to \$3,083 in the third quarter of 2024 compared to \$2,878 in the third quarter of 2023, reflecting an increase of \$136 resulting from higher Gross profit margin and an increase of \$69 resulting from higher Net sales.

Worldwide Gross profit margin increased to 61.1% in the third quarter of 2024 from 58.5% in the third quarter of 2023. Excluding charges resulting from the 2022 Global Productivity Initiative in both periods, Gross profit margin increased to 61.3% in the third quarter of 2024 from 58.6% in the third quarter of 2023. This increase in Gross profit margin was due to cost savings from the Company's funding-the-growth initiatives (270 bps), higher pricing (110 bps) and favorable mix (40 bps), partially offset by higher raw and packaging material costs (150 bps), which included foreign exchange transaction costs.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased 9% to \$1,979 in the third quarter of 2024 compared to \$1,822 in the third quarter of 2023. Selling, general and administrative expenses in the third quarter of 2024 included charges resulting from the 2022 Global Productivity Initiative. Excluding these charges, Selling, general and administrative expenses increased 8% to \$1,976 in the third quarter of 2024 compared to \$1,822 in the third quarter of 2023, reflecting increased advertising investment of \$96 and higher overhead expenses of \$58.

Selling, general and administrative expenses as a percentage of Net sales increased by 220 bps to 39.3% in the third quarter of 2024 as compared to 37.1% in the third quarter of 2023. This increase was due to increased advertising investment (160 bps) and higher overhead expenses (60 bps). In the third quarter of 2024, advertising investment increased as a percentage of Net sales to 13.8% from 12.2% in the third quarter of 2023, or 16% in absolute terms, to \$694 as compared with \$598 in the third quarter of 2023.

		mber 30,

Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in Millions Except Per Share Amounts)

Operating Profit

Operating profit increased 4% to \$1,065 in the third quarter of 2024 from \$1,029 in the third quarter of 2023. Operating profit in both periods included charges resulting from the 2022 Global Productivity Initiative. Excluding these charges in both periods, Operating profit increased 5% to \$1,080 in the third quarter of 2024 from \$1,031 in the third quarter of 2023.

Operating profit margin was 21.2% in the third quarter of 2024, an increase of 30 bps compared to 20.9% in the third quarter of 2023. Excluding charges resulting from the 2022 Global Productivity Initiative in both periods, Operating profit margin was 21.5% in the third quarter of 2024, an increase of 50 bps compared to 21.0% in the third quarter of 2023. This increase in Operating profit margin was due to an increase in Gross profit (270 bps), partially offset by an increase in Selling, general and administrative expenses (220 bps), both as a percentage of Net sales.

	Three Months Ended September 30,					
	2024	% Change				
Operating profit, GAAP	\$ 1,065	\$ 1,029	4 %			
2022 Global Productivity Initiative	15	2				
Operating profit, non-GAAP	\$ 1,080	\$ 1,031	5 %			

	Three Months Ended September 30,								
	2024 2023 Basis Point								
Operating profit margin, GAAP	21.2 %	20.9 %	30						
2022 Global Productivity Initiative	0.3 %	0.1 %							
Operating profit margin, non-GAAP	21.5 %	21.0 %	50						

Non-Service Related Postretirement Costs

Non-service related postretirement costs were \$23 in the third quarter of 2024 as compared to \$15 in the third quarter of 2023.

Interest (Income) Expense, Net

Interest (income) expense, net was \$56 in the third quarter of 2024 as compared to \$58 in the third quarter of 2023.

Net Income Attributable to Colgate-Palmolive Company and Earnings Per Share

Net income attributable to Colgate-Palmolive Company in the third quarter of 2024 increased to \$737 from \$708 in the third quarter of 2023, and Earnings per common share on a diluted basis increased to \$0.90 per share in the third quarter of 2024 from \$0.86 in the third quarter of 2023. Net Income attributable to Colgate-Palmolive Company in both periods included charges resulting from the 2022 Global Productivity Initiative.

Excluding the charges resulting from the 2022 Global Productivity Initiative described above in both periods, Net income attributable to Colgate-Palmolive Company in the third quarter of 2024 increased 6% to \$750 from \$710 in the third quarter of 2023, and Earnings per common share on a diluted basis increased 6% to \$0.91 in the third quarter of 2024 from \$0.86 in the third quarter of 2023.

⁽¹⁾ The income tax effect on non-GAAP items is calculated based upon the tax laws and statutory income tax rates applicable in the tax jurisdiction(s) of the underlying non-GAAP adjustment.

(2) The impact of non-GAAP adjustments on diluted earnings per share may not necessarily equal the difference between "GAAP" and "non-GAAP" as a result of rounding.

Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in Millions Except Per Share Amounts)

Net Sales and Operating Profit by Segment

Oral, Personal and Home Care

North America

	Thre	ee M	Three Months Ended September 30,					
	2024		2023	Change				
	\$ 1,004	\$	1,025	(2.1) %				
t	\$ 206	\$	227	(9) %				
	20.5 %		22.2 %	(170) bps				

Net sales in North America decreased 2.1% in the third quarter of 2024 to \$1,004, driven by net selling price decreases of 3.2% and negative foreign exchange of 0.2%, partially offset by volume growth of 1.2%. Organic sales in North America decreased 1.9% in the third quarter of 2024. The organic sales decline was driven by the United States

The decrease in organic sales in North America in the third quarter of 2024 versus the third quarter of 2023 was primarily due to a decrease in Personal Care organic sales, partially offset by growth in Home Care organic sales. The decrease in Personal Care was primarily due to organic sales declines in the skin health, bar soap and underarm protection categories. The increase in Home Care was primarily due to organic sales growth in the surface cleaner and fabric softener categories, partially offset by organic sales decline in the hand dish category.

Operating profit in North America decreased 9% in the third quarter of 2024 to \$206, or 170 bps to 20.5% as a percentage of Net sales. This decrease in Operating profit as a percentage of Net sales was primarily due to an increase in Selling, general and administrative expenses (270 bps), partially offset by an increase in Gross profit (90 bps), both as a percentage of Net sales. This increase in Gross profit margin was primarily due to cost savings from the Company's funding-the-growth initiatives (190 bps), partially offset by lower pricing. This increase in Selling, general and administrative expenses was due to increased advertising investment (150 bps) and higher overhead expenses (120 bps).

Latin America

	Thr	ee Mo	onths Ended Septen	nber 30,
	 2024		2023	Change
sales	\$ 1,156	\$	1,194	(3.2) %
iting profit	\$ 365	\$	372	(2) %
sales	31.6 %		31.2 %	40bps

Net sales in Latin America decreased 3.2% in the third quarter of 2024 to \$1,156, driven by negative foreign exchange of 17.4%, partially offset by volume growth of 3.3% and net selling price increases of 10.9%. Organic sales in Latin America increased 14.2% in the third quarter of 2024. Organic sales growth was led by Argentina, Brazil and Mexico.

The increase in organic sales in Latin America in the third quarter of 2024 versus the third quarter of 2023 was primarily due to an increase in Oral Care organic sales. The increase in Oral Care was primarily due to organic sales growth in the toothpaste and manual toothbrush categories.

Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in Millions Except Per Share Amounts)

Operating profit in Latin America decreased 2% in the third quarter of 2024 to \$365, while as a percentage of Net sales it increased 40 bps to 31.6%. This increase in Operating profit as a percentage of Net sales was due to an increase in Gross profit (240 bps), partially offset by an increase in Selling, general and administrative expenses (110 bps) and an increase in Other (income) expense, net (90 bps), all as a percentage of Net sales. This increase in Gross profit was primarily due to higher pricing and cost savings from the Company's funding-the-growth initiatives (280 bps), partially offset by significantly higher raw and packaging material costs (460 bps), which included foreign exchange transaction costs. This increase in Selling, general and administrative expenses was primarily due to higher overhead expenses (80 bps).

Europe

	Thr	ee Mo	onths Ended Septem	ber 30,
	2024		2023	Change
Net sales	\$ 744	\$	690	8.0 %
Operating profit	\$ 181	\$	165	10 %
% of Net sales	24.3 %)	24.0 %	30 bps

Net sales in Europe increased 8.0% in the third quarter of 2024 to \$744, driven by volume growth of 4.1%, net selling price increases of 2.2% and positive foreign exchange of 1.6%. Organic sales in Europe increased 6.3% in the third quarter of 2024. Organic sales growth was led by Germany, the United Kingdom and Poland.

The increase in organic sales in Europe in the third quarter of 2024 versus the third quarter of 2023 was primarily due to increases in Oral Care and Home Care organic sales. The increase in Oral Care was primarily due to organic sales growth in the toothpaste category. The increase in Home Care was primarily due to organic sales growth in the hand dish and fabric softener categories.

Operating profit in Europe increased 10% in the third quarter of 2024 to \$181, or 30 bps to 24.3% as a percentage of Net sales. This increase in Operating profit as a percentage of Net sales was primarily due to an increase in Gross profit (400 bps), partially offset by an increase in Selling, general and administrative expenses (350 bps), both as a percentage of Net sales. This increase in Gross profit was primarily due to cost savings from the Company's funding-the-growth initiatives (280 bps) and higher pricing. This increase in Selling, general and administrative expenses was due to increased advertising investment (250 bps) and higher overhead expenses (100 bps).

Asia Pacific

	Thr	ee Mo	nths Ended Septem	ber 30,
	2024		2023	Change
Net sales	\$ 725	\$	682	6.3 %
Operating profit	\$ 199	\$	193	3 %
% of Net sales	27.4 %)	28.3 %	(90) bps

Net sales in Asia Pacific increased 6.3% in the third quarter of 2024 to \$725, driven by volume growth of 6.5% and positive foreign exchange of 0.2%, partially offset by net selling price decreases of 0.3%. Organic sales in Asia Pacific increased 6.1% in the third quarter of 2024. Organic sales growth was led by India, the Greater China region, the Philippines and Australia.

The increase in organic sales in Asia Pacific in the third quarter of 2024 versus the third quarter of 2023 was primarily due to an increase in Oral Care organic sales. The increase in Oral Care was primarily due to organic sales growth in the toothpaste category.

Operating profit in Asia Pacific increased 3% in the third quarter of 2024 to \$199, while as a percentage of net sales it decreased 90 bps to 27.4%. This decrease in Operating profit as a percentage of Net sales was primarily due to an increase in Selling, general and administrative expense (390 bps), partially offset by an increase in Gross Profit (270 bps), both as a

Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in Millions Except Per Share Amounts)

percentage of Net sales. This increase in Gross profit was primarily due to cost savings from the Company's funding-the-growth initiatives (240 bps). This increase in Selling, general and administrative expenses was due to increased advertising investment (310 bps) and higher overhead expenses (70 bps).

Africa/Eurasia

	Three Months Ended September 30,					
	2024		2023	Change		
\$	278	\$	266	4.8 %		
\$	65	\$	66	(1)%		
	23.4 %		24.8 %	(140) bps		

Net sales in Africa/Eurasia increased 4.8% in the third quarter of 2024 to \$278, driven by volume growth of 6.9% and net selling price increases of 3.9%, partially offset by negative foreign exchange of 6.0%. Organic sales in Africa/Eurasia increased 10.8% in the third quarter of 2024. Organic sales growth was led by Nigeria and Türkiye.

The increase in organic sales in Africa/Eurasia in the third quarter of 2024 versus the third quarter of 2023 was primarily due to an increase in Oral Care organic sales. The increase in Oral Care was primarily due to organic sales growth in the toothpaste and manual toothbrush categories.

Operating profit in Africa/Eurasia decreased 1% in the third quarter of 2024 to \$65, or 140 bps to 23.4% as a percentage of Net sales. This decrease in Operating profit as a percentage of Net sales was due to an increase in Selling, general and administrative expenses (290 bps) and an increase in Other (income) expense, net (90 bps), partially offset by an increase in Gross profit (240 bps), all as a percentage of Net sales. This increase in Gross profit was due to cost savings from the Company's funding-the-growth initiatives (220 bps), higher pricing and favorable mix (60 bps), partially offset by higher raw and packaging material costs (180 bps), which included foreign exchange transaction costs. This increase in Selling, general and administrative expenses was due to higher overhead expenses (190 bps) and increased advertising investment (100 bps).

Hill's Pet Nutrition

	Thre	ee M	onths Ended Septe	ember 30,
	2024		2023	Change
\$	1,126	\$	1,058	6.3 %
\$	258	\$	201	28 %
	22.9 %		19.0 %	390 bps

Net sales for Hill's Pet Nutrition increased 6.3% in the third quarter of 2024 to \$1,126, driven by volume growth of 3.6% and net selling price increases of 2.8%, partially offset by negative foreign exchange of 0.1%. Organic sales in Hill's Pet Nutrition increased 6.5% in the third quarter of 2024. Organic sales growth was led by the United States.

The increase in organic sales in the third quarter of 2024 was due to organic sales growth in the therapeutic and wellness categories.

Operating profit in Hill's Pet Nutrition increased 28% in the third quarter of 2024 to \$258, or 390 bps to 22.9% as a percentage of Net sales. This increase in Operating profit as a percentage of Net sales was primarily due to an increase in Gross profit (380 bps), partially offset by an increase in Selling, general and administrative expenses (60 bps), both as a percentage of Net sales. This increase in Gross profit was primarily due to cost savings from the Company's funding-the-growth initiatives (350 bps), higher pricing and favorable mix (70 bps), partially offset by higher raw and packaging material costs (150 bps). This increase in Selling, general and administrative expenses was due to increased advertising investment (170 bps), partially offset by lower overhead expenses (100 bps).

	Three Months Ended September 30,					
	2024	2023	Change			
\$	(208)	\$ (196)	6 %			

Operating profit (loss) related to Corporate was \$(208) in the third quarter of 2024 as compared to \$(196) in the third quarter of 2023. In the third quarters of 2024 and 2023, Corporate Operating profit (loss) included charges resulting from the 2022 Global Productivity Initiative of \$15 and \$2, respectively.

Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in Millions Except Per Share Amounts)

Nine months

Worldwide Net sales were \$15,156 in the first nine months of 2024, up 4.5% as compared to the first nine months of 2023 due to volume growth of 3.3% and net selling price increases of 5.2%, partially offset by negative foreign exchange of 4.0%. Organic sales increased 8.5% in the first nine months of 2024.

Net sales in the Oral, Personal and Home Care product segment were \$11,814 in the first nine months of 2024, an increase of 4.3% as compared to the first nine months of 2023 due to volume growth of 4.0% and net selling price increases of 5.3%, partially offset by negative foreign exchange of 5.0%. Organic sales in the Oral, Personal and Home Care product segment increased 9.3% in the first nine months of 2024.

The increase in organic sales in the first nine months of 2024 versus the first nine months of 2023 was due to increases in Oral Care, Personal Care and Home Care organic sales. The increase in Oral Care was primarily due to organic sales growth in the toothpaste and manual toothbrush categories. The increase in Personal Care was primarily due to organic sales growth in the body wash and liquid hand soap categories. The increase in Home Care was primarily due to organic sales growth in the surface cleaner and fabric softener categories.

Net sales in the Hill's Pet Nutrition segment were \$3,342 in the first nine months of 2024, an increase of 5.2% from the first nine months of 2023 due to volume growth of 0.7% and net selling price increases of 4.9%, partially offset by negative foreign exchange of 0.4%. Organic sales in the Hill's Pet Nutrition segment increased 5.6% in the first nine months of 2024.

Total Company	4.5%	8.5%	3.3%	5.2%	(4.0)%

Note: Table may not sum due to rounding.

In the first nine months of 2024, Operating profit (loss) related to Corporate was \$(605) as compared to \$(536) in the first nine months of 2023. Corporate Operating profit (loss) for the first nine months of 2024 included charges resulting from the 2022 Global Productivity Initiative of \$77. Corporate Operating profit (loss) for the first nine months of 2023 included product recall costs of \$25 and charges resulting from the 2022 Global Productivity Initiative of \$25.

Gross Profit/Margin

Worldwide Gross profit increased to \$9,179 in the first nine months of 2024 from \$8,376 in the first nine months of 2023. Worldwide Gross profit in both periods included charges resulting from the 2022 Global Productivity Initiative. Excluding these charges, Worldwide Gross profit increased to \$9,198 in the first nine months of 2024 from \$8,377 in the first nine months of 2023, reflecting an increase of \$447 resulting from higher Gross profit margin and an increase of \$374 resulting from higher Net sales.

Worldwide Gross profit margin increased to 60.6% in the first nine months of 2024 from 57.7% in the first nine months of 2023. Excluding charges resulting from the 2022 Global Productivity Initiative in both periods. Gross profit margin increased to 60.7% in the first nine months of 2024 from 57.7% in the first nine months of 2023, primarily due to cost savings from the Company's funding-the-growth initiatives (260 bps) and higher pricing (200 bps), partially offset by higher raw and packaging material costs (180 bps), which included foreign exchange transaction costs.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased 9% to \$5,833 in the first nine months of 2024 from \$5,348 in the first nine months of 2023. Selling, general and administrative expenses in both periods included charges resulting from the 2022 Global Productivity Initiative. Excluding these charges, Selling, general and administrative expenses increased to \$5,829 in the first nine months of 2024 from \$5,346 in the first nine months of 2023, reflecting increased advertising investment of \$294 and higher overhead expenses of \$189.

Selling, general and administrative expenses as a percentage of Net sales increased to 38.5% in the first nine months of 2024 from 36.9% in the first nine months of 2023. This increase was largely due to increased advertising investment (140 bps). In the first nine months of 2024, advertising investment increased 17% in absolute terms to \$2,072 as compared with \$1,778 in the first nine months of 2023, while as a percentage of Net sales it increased to 13.7% from 12.3% in the first nine months of 2023.

Interest (Income) Expense, Net

Interest (income) expense, net was \$175 in the first nine months of 2024 as compared to \$170 in the first nine months of 2023.

Income Taxes

The effective income tax rate was 21.3% for the third quarter of 2024 as compared to 21.9% for the third quarter of 2023. As reflected in the table below, the non-GAAP effective income tax rate was 21.2% for the third quarter of 2024 as compared to 21.8% for the third quarter of 2023.

The effective income tax rate was 23.4% for the first nine months of 2024 as compared to 29.5% for the first nine months of 2023. As reflected in the table below, the non-GAAP effective income tax rate was 23.1% for the first nine months of 2024 as compared to 23.8% for the first nine months of 2023.

The quarterly provision for income taxes is determined based on the Company's estimated full year effective income tax rate adjusted by the amount of tax attributable to infrequent or unusual items that are separately recognized on a discrete basis in the income tax provision in the quarter in which they occur. The Company's current estimate of its full year effective income tax rate before discrete period items is 23.7%, flat with 2023.

In the third quarter of 2023, the Internal Revenue Service (the "IRS") issued a notice giving taxpayers temporary relief from the effects of certain U.S. tax regulations that were issued in December 2021, which place greater restrictions on foreign taxes that are creditable against U.S. taxes on foreign-source income. This notice allowed taxpayers to defer the application of these new regulations through the end of 2023. In December 2023, the IRS issued further guidance modifying this temporary relief period to the date that a notice or other guidance withdrawing or modifying the temporary relief is issued. The Company will recognize the impact, if any, in the period in which the temporary relief is withdrawn or modified.

The Company has ongoing federal, state and international income tax audits in various jurisdictions and evaluates uncertain tax positions that may be challenged by local tax authorities and not fully sustained. All U.S. federal income tax returns through December 31, 2013 have been audited by the IRS and there are limited matters which the Company plans to appeal for years 2010 through 2013. One such matter relates to the IRS assessment of taxes on the Company by imputing income on certain activities within one of our international operations, which is also under audit for the years 2014 through 2018. There were U.S. Tax Court rulings during 2023 in favor of the IRS against unrelated third parties on similar matters. Despite the U.S. Tax Court rulings, the Company continues to believe that the tax assessment against the Company is without merit. While there can be no assurances, the Company believes this matter will ultimately be decided in favor of the Company. The amount of tax plus interest for the years 2010 through 2018 is estimated to be approximately \$150,

Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in Millions Except Per Share Amounts)

which is not included in the Company's uncertain tax positions. In May 2024, the IRS initiated an audit for the years 2019 through 2021.

On August 16, 2022, the Inflation Reduction Act of 2022 ("IRA") was enacted, which among other things, implements a 15% minimum tax on book income of certain large corporations effective for years beginning after December 31, 2022. Based on the Company's analysis, as well as guidance published by the IRS, the IRA, and in particular the 15% minimum tax, did not have an impact on the Company's Consolidated Financial Statements. Subsequent to the aforementioned guidance published by the IRS, on September 12, 2024, the U.S. Treasury Department and IRS released proposed regulations relating to this 15% minimum tax. The Company is currently evaluating the potential impact of these regulations and will evaluate any additional guidance and clarification that becomes available.

Additionally, on December 15, 2022, the 27 member states of the European Union ("EU") reached an agreement on a minimum level of taxation for certain large corporations to pay a minimum corporate tax rate of 15% in every jurisdiction in which they operate. This agreement, which is known as the Minimum Tax Directive (part of the "Pillar II Model Rules"), was supposed to be transposed into the laws of all EU member states by December 31, 2023. Most member states complied while some were granted extensions of time. In addition, many other jurisdictions outside the EU have also committed to implement this Directive while others have implemented a similar minimum tax regime consistent with the policy of the Pillar II Model Rules. Details of these rules are still being developed and, in some cases, enactment and timing is still uncertain. Based on current legislation and available guidance, this Directive does not have a material impact on the Company's Consolidated Financial Statements. However, as these rules and related regulations are revised and implemented, the Company will evaluate the impact, if any, on its Consolidated Financial Statements.

During the quarter ended June 30, 2023, we reassessed with our legal and tax advisers certain tax deductions taken in prior years by one of our subsidiaries and concluded that it was more likely than not that the deductions would not be sustained by the courts in that jurisdiction. The value of the tax deductions was not material to us in any year in which they were taken. The cumulative effect of the change in tax position of \$148 was reflected as a discrete item in the quarter ended June 30, 2023 income tax expense, partially offset by the reversal of certain prior years' withholding tax reserves of \$22 that were no longer required. The tax liability was paid in the quarter ended September 30, 2023.

Net Income Attributable to Colgate-Palmolive Company and Earnings Per Share

Net income attributable to Colgate-Palmolive Company in the first nine months of 2024 increased to \$2,150 from \$1,582 in the comparable 2023 period. Earnings per common share on a diluted basis increased to \$2.61 in the first nine months of 2024 from \$1.90 in the comparable 2023 period. Net income attributable to Colgate-Palmolive Company in the first nine months of 2024 included charges resulting from the 2022 Global Productivity Initiative. Net income attributable to Colgate-Palmolive Company in the comparable 2023 period included charges resulting from the ERISA litigation matter, the foreign tax matter and the 2022 Global Productivity Initiative and product recall costs.

Excluding the items described above in both periods as applicable, Net income attributable to Colgate-Palmolive Company in the first nine months of 2024 increased 13% to \$2,217 from \$1,962 in the first nine months of 2023, and Earnings per common share on a diluted basis increased 14% to \$2.69 in the first nine months of 2024 from \$2.36 in the first nine months of 2023.

Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in Millions Except Per Share Amounts)

Restructuring and Related Implementation Charges

On January 27, 2022, the Board approved the 2022 Global Productivity Initiative. All initiatives under the program have been implemented as of the third quarter of 2024 and the Company expects to incur the remaining charges by the end of 2024. The 2022 Global Productivity Initiative resulted in the reallocation of resources towards the Company's strategic priorities and faster growth businesses, efficiencies in the Company's operations and the streamlining of its supply chain to reduce structural costs.

Total pretax charges from the implementation of the 2022 Global Productivity Initiative are expected to be approximately \$225 (\$180 aftertax), once all the charges are recorded, which is comprised of the following categories: employee-related costs, including severance, pension and other termination benefits (80%); asset-related costs, primarily accelerated depreciation and asset write-downs (5%); and other charges (15%), which include contract termination costs, consisting primarily of implementation-related charges resulting directly from exit activities and the implementation of new strategies. It is expected that approximately 80% of the charges will result in cash expenditures.

Total annualized pretax savings from the 2022 Global Productivity Initiative are expected to be approximately \$125 (\$100 aftertax). Savings achieved since the implementation of the 2022 Global Productivity Initiative were approximately \$115 pretax (\$91 aftertax).

For the three months ended September 30, 2024, charges resulting from the 2022 Global Productivity Initiative were \$15 pretax (\$13 aftertax). For the three months ended September 30, 2023, charges resulting from the 2022 Global Productivity Initiative were \$2 pretax (\$2 aftertax).

For the nine months ended September 30, 2024 and September 30, 2023, charges resulting from the 2022 Global Productivity Initiative are reflected in the income statement as follows:

	Nine Months Ended September 30,		
	2	024	2023
Gross Profit	\$	19 \$	1
Selling, general and administrative expenses		4	2
Other (income) expense, net		54	22
Non-service related postretirement costs		_	4
Total 2022 Global Productivity Initiative charges, pretax	\$	77 \$	29
Total 2022 Global Productivity Initiative charges, aftertax	\$	67 \$	23

Restructuring and related implementation charges are recorded in the Corporate segment as these initiatives are predominantly centrally directed and controlled and are not included in internal measures of segment operating performance.

Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in Millions Except Per Share Amounts)

Total charges incurred for the 2022 Global Productivity Initiative relate to initiatives undertaken by the following reportable operating segments and Corporate:

	Nine Months End	ed September 30,	Program-to-date Accumulated Char	rges
	2024	2023		
North America	3 %	15 %	9	%
Latin America	—%	1 %	9	%
Europe	88 %	19 %	43	%
Asia Pacific	—%	21 %	7	%
Africa/Eurasia	—%	10 %	6	%
Hill's Pet Nutrition	7 %	14 %	12	%
Corporate	2 %	20 %	14	%
Total	100 %	100 %	100	%

Since the inception of the 2022 Global Productivity Initiative, the Company has incurred cumulative pretax charges of \$220 (\$178 aftertax) in connection with the implementation of various projects as follows:

	Cumulative Charges
	as of September 30, 2024
Employee-Related Costs	\$ 17:
Incremental Depreciation	1:
Asset Impairments	
Other	3
Total	\$ 220

The following table summarizes the activity for the restructuring and related implementation charges discussed above and the related accruals:

	Nine Months Ended September 30, 2024								
	ee-Related os ts		Incremental Depreciation		Asset Impairments		Other		Total

Foreign exchange	(1)		_		_		_		(1)
Balance at September 30, 2024	\$ 45	\$	_	\$	_	\$	6	\$	51

Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in Millions Except Per Share Amounts)

Employee-Related Costs primarily include severance and other termination benefits and are calculated based on long-standing benefit practices, written severance policies, local statutory requirements and, in certain cases, voluntary termination arrangements. Employee-Related Costs also include pension enhancements, which are reflected as Charges against assets within Employee-Related Costs in the preceding table, as the corresponding balance sheet amounts are reflected as a reduction of pension assets or an increase in pension liabilities. For the nine months ended September 30, 2024, there were no pension enhancements included in Charges against assets within Employee-Related Costs.

Incremental Depreciation is recorded to reflect changes in useful lives and estimated residual values for long-lived assets that will be taken out of service prior to the end of their normal service period. Asset Impairments are recorded to write down inventories and assets held for sale or disposal to their fair value based on amounts expected to be realized. Charges against assets within Asset Impairments are net of cash proceeds pertaining to the sale of certain assets.

Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in Millions Except Per Share Amounts)

Non-GAAP Financial Measures

This Quarterly Report on Form 10-Q discusses certain financial measures on both a GAAP and a non-GAAP basis. The Company uses the non-GAAP financial measures described below internally in its budgeting process, to evaluate segment and overall operating performance and as a factor in determining compensation. The Company believes that these non-GAAP financial measures are useful in evaluating the Company's underlying business performance and trends; however, this information should be considered as supplemental in nature and is not meant to be considered in isolation or as a substitute for the related financial information prepared in accordance with GAAP. In addition, these non-GAAP financial measures may not be the same as similar measures presented by other companies.

Net sales growth (GAAP) and organic sales growth (Net sales growth excluding the impact of foreign exchange, acquisitions and divestments) (non-GAAP) are discussed in this Quarterly Report on Form 10-Q. Management believes the organic sales growth measure provides investors and analysts with useful supplemental information regarding the Company's underlying sales trends by presenting sales growth excluding the external factor of foreign exchange, as well as the impact of acquisitions and divestments, as applicable. A reconciliation of organic sales growth to Net sales growth for the three and nine months ended September 30, 2024 is provided below.

Gross Profit, Gross Profit margin, Selling, general and administrative expenses, Other (income) expense, net, Operating profit, Operating profit margin, Non-service related postretirement costs, Effective income tax rate, Net income attributable to Colgate-Palmolive Company and Earnings per share on a diluted basis are discussed in this Quarterly Report on Form 10-Q both on a GAAP basis and excluding, as applicable, charges resulting from the ERISA litigation matter, the foreign tax matter and the 2022 Global Productivity Initiative and product recall costs. These non-GAAP financial measures exclude items that, either by their nature or amount, management would not expect to occur as part of the Company's normal business on a regular basis, such as restructuring charges, charges for certain litigation and tax matters, acquisition-related costs, gains and losses from certain divestitures and certain other unusual, non-recurring items. Investors and analysts use these financial measures in assessing the Company's business performance, and management believes that presenting these financial measures on a non-GAAP basis provides them with useful supplemental information to enhance their understanding of the Company's underlying business performance and trends. These non-GAAP financial measures also enhance the ability to compare period-to-period financial results. A reconciliation of each of these non-GAAP financial measures to the most directly comparable GAAP financial measures for the three and nine months ended September 30, 2024 and 2023 is presented within the applicable section of Results of Operations.

The following tables provide a quantitative reconciliation of Net sales growth to organic sales growth for the three and nine months ended September 30, 2024:

Three Months Ended September 30, 2024	Net Sales Growth (GAAP)	Foreign Exchange Impact	Acquisitions and Divestments Impact	Organic Sales Growth (Non-GAAP)

Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in Millions Except Per Share Amounts)

Liquidity and Capital Resources

The Company expects cash flow from operations and debt issuances will be sufficient to meet foreseeable business operating and recurring cash needs (including for debt service, dividends, capital expenditures, share repurchases and acquisitions). The Company believes its strong cash generation and financial position should continue to allow it broad access to global credit and capital markets.

Cash Flow

Net cash provided by operations increased 9% to \$2,838 in the first nine months of 2024, compared to \$2,609 in the first nine months of 2023, primarily due to higher net income, partially offset by changes in working capital. The Company's working capital was (3.6%) as a percentage of Net sales as of September 30, 2024 as compared to (2.1%) as of September 30, 2023. The Company defines working capital as the difference between current assets (excluding Cash and cash equivalents and marketable securities, the latter of which is reported in Other current assets) and current liabilities (excluding short-term debt).

Investing activities used \$454 of cash in the first nine months of 2024, compared to \$599 in the first nine months of 2023.

Capital expenditures were \$377 in the first nine months of 2024 compared to \$508 in the first nine months of 2023. Capital expenditures for 2024 are expected to be approximately 3.0% of Net sales. The Company continues to focus its capital spending on projects that are expected to yield high aftertax returns.

Financing activities used \$2,110 of cash during the first nine months of 2024, compared to \$1,801 used in the first nine months of 2023. The increase in cash used was primarily due to higher share repurchases, partially offset by higher proceeds from the exercise of stock options.

Long-term debt, including the current portion, decreased to \$7,929 as of September 30, 2024, as compared to \$8,239 as of December 31, 2023 and total debt was \$8,436 as of September 30, 2024, as compared to \$8,549 as of December 31, 2023. During the first quarter of 2024, the Company redeemed at maturity \$500 of ten-year Medium-Term Notes with a fixed coupon of 3.25%. The redemption was financed with commercial paper borrowings.

Domestic and foreign commercial paper outstanding was \$1,282 and \$906 as of September 30, 2024 and December 31, 2023, respectively. The average daily balances outstanding for commercial paper in the first nine months of 2024 and 2023 were \$1,754 and \$1,886, respectively. The Company classifies commercial paper and certain current maturities of notes payable as long-term debt when it has the intent and ability to refinance such obligations on a long-term basis, including, if necessary, by utilizing its unused lines of credit or by issuing long-term debt pursuant to an effective shelf registration statement.

Certain of the agreements with respect to the Company's bank borrowings contain financial and other covenants as well as cross-default provisions. Noncompliance with these requirements could ultimately result in the acceleration of amounts owed. The Company is in full compliance with all such requirements and believes the likelihood of noncompliance is remote. Refer to Note 6, Long Term Debt and Credit Facilities to the Consolidated Financial Statements contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2023 for further information about the Company's long-term debt and credit facilities.

In the first quarter of 2024, the Company increased the quarterly common stock dividend to \$0.50 per share from \$0.48 per share previously, effective in the second quarter of 2024.

Cash and cash equivalents increased \$268 during the first nine months of 2024 to \$1,234 at September 30, 2024, compared to \$966 at December 31, 2023, the majority of which (\$1,182 and \$922, respectively) was held by the Company's foreign subsidiaries.

 $For additional\ information\ regarding\ liquidity\ and\ capital\ resources, refer to\ the\ Company's\ Annual\ Report\ on\ Form\ 10-K\ for\ the\ year\ ended\ December\ 31,2023.$

Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in Millions Except Per Share Amounts)

Intangible Assets

As of the date of the annual indefinite-lived impairment test, the fair value of one of the Company's indefinite-lived trademarks continues to approximate its carrying value.

Given the inherent uncertainties of estimating the future cash flows, the impact of interest rates and inflation on macroeconomic conditions, actual results may differ from management's current estimates which could potentially result in impairment charges in future periods.

Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in Millions Except Per Share Amounts)

Market Share Information

Management uses market share information as a key indicator to monitor business health and performance. References to market share in this Quarterly Report on Form 10-Q are based on a combination of consumption and market share data provided by third-party vendors, primarily Nielsen, and internal estimates. All market share references represent the percentage of the dollar value of sales of our products, relative to all product sales in the category in the countries in which the Company competes and purchases data (excluding Venezuela from all periods).

Market share data is subject to limitations on the availability of up-to-date information. In particular, market share data is currently not generally available for certain retail channels, such as eCommerce or certain discounters. The Company measures year-to-date market shares from January 1 of the relevant year through the most recent period for which market share data is available, which typically reflects a lag time of one or two months. The Company believes that the third-party vendors we use to provide data are reliable, but we have not verified the accuracy or completeness of the data or any assumptions underlying the data. In addition, market share information calculated by the Company may be different from market share information calculated by other companies due to differences in category definitions, the use of data from different countries, internal estimates and other factors.

Cautionary Statement on Forward-Looking Statements

This Quarterly Report on Form 10-Q may contain forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995 or by the SEC in its rules, regulations and releases that set forth anticipated results based on management's current plans and assumptions. Such statements may relate, for example, to sales or volume growth, net selling price increases, organic sales growth, profit or profit margin levels, earnings per share levels, financial goals, the impact of foreign exchange, the impact of geopolitical conflicts and tensions, such as the wars in Ukraine and the Middle East and tensions between China and Taiwan, cost-reduction plans (including the 2022 Global Productivity Initiative), tax rates, interest rates, new product introductions, digital capabilities, commercial investment levels, acquisitions, divestitures, share repurchases or legal or tax proceedings, among other matters. These statements are made on the basis of the Company's views and assumptions as of this time and the Company undertakes no obligation to update these statements whether as a result of new information, future events or otherwise, except as required by law or by the rules and regulations of the SEC. Moreover, the Company does not, nor does any other person, assume responsibility for the accuracy and completeness of those statements. The Company cautions investors that any such forward-looking statements are not guarantees of future performance and that actual events or results may differ materially from those statements. Actual events or results may differ materially because of factors that affect international businesses and global economic conditions, as well as matters specific to the Company and the markets it serves, including the uncertain macroeconomic and political environment in different countries, including as a result of inflation and higher interest rates, and its effect on consumer confidence and spending, foreign currency rate fluctuations, exchange controls, import restrictions, tariffs, sanctions, price or profit controls, labor relations, changes in foreign or domestic laws, or regulations or their interpretation, political and fiscal developments, including changes in trade, tax and immigration policies, increased competition and evolving competitive practices (including from the growth of eCommerce and the entry of new competitors and business models), the ability to operate and respond effectively during a pandemic, epidemic or widespread public health concern, the ability to manage disruptions in our global supply chain and/or key office facilities, the ability to manage the availability and cost of raw and packaging materials and logistics costs, the ability to maintain or increase selling prices as needed, changes in the policies of retail trade customers, the emergence of alternative retail channels, the growth of eCommerce and the rapidly changing retail landscape (as consumers increasingly shop online and through mobile applications), the ability to develop innovative new products, the ability to continue lowering costs and operate in an agile manner, the ability to maintain the security of our information and operational technology systems from a cybersecurity incident or data breach, the ability to address the effects of climate change and achieve our sustainability and social impact goals, the ability to complete acquisitions and divestitures as planned, the ability to successfully integrate acquired businesses, the ability to attract and retain key employees and integrate DE&I initiatives across our organization, the uncertainty of the outcome of legal proceedings, whether or not the Company believes they have merit, and the ability to address uncertain or unfavorable global economic conditions, including inflation, disruptions in the credit markets and tax matters. For information about these and other factors that could impact the Company's business and cause actual results to differ materially from forward-looking statements, refer to the Company's filings with the SEC (including, but not limited to, the information set forth under the captions "Risk Factors" and "Cautionary Statement on Forward-Looking

Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in Millions Except Per Share Amounts)

Statements" in the Company's Annual Report on Form 10-K for the year ended December 31, 2023 and subsequent filings with the SEC).

Quantitative and Qualitative Disclosures about Market Risk

There is no material change in the information reported under Part II, Item 7, "Managing Foreign Currency, Interest Rate, Commodity Price and Credit Risk Exposure" contained in our Annual Report on Form 10-K for the year ended December 31, 2023.

Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's management, under the supervision and with the participation of the Company's Chairman of the Board, President and Chief Executive Officer and Chief Financial Officer, carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of September 30, 2024 (the "Evaluation"). Based upon the Evaluation, the Company's Chairman of the Board, President and Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934) are effective.

Changes in Internal Control Over Financial Reporting

The Company is in the process of upgrading its enterprise IT system to SAP S/4 HANA. This change has not had and is not expected to have a material impact on the Company's internal controls over financial reporting.

Except as noted above, there were no changes in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

<u>Item 1. Legal Proceedings</u>

For information regarding legal matters, refer to Note 9, Contingencies to the Condensed Consolidated Financial Statements contained in Part I of this Quarterly Report on Form 10-Q, which is incorporated herein by reference.

Item 1A. Risk Factors

There have been no material changes from the risk factors disclosed in "Risk Factors" in Part 1, Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2023.

<u>Item 2.</u> <u>Unregistered Sales of Equity Securities and Use of Proceeds</u>

On March 10, 2022, the Board authorized the repurchase of shares of the Company's common stock having an aggregate purchase price of up to \$5 billion under a new share repurchase program (the "2022 Program"), which replaced a previously authorized share repurchase program. The Board also has authorized share repurchases on an ongoing basis to fulfill certain requirements of the Company's compensation and benefit programs. The shares are repurchased from time to time in open market or privately negotiated transactions at the Company's discretion, subject to market conditions, customary blackout periods and other factors.

The following table shows the stock repurchase activity for the three months in the quarter ended September 30, 2024:

Month	Total Number of Shares Purchased ⁽¹⁾	A	verage Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽²⁾	S	roximate Dollar Value of hares That May Yet Be rchased Under the Plans or Programs ⁽³⁾ (in millions)

Item 5. Other Information

(c) Trading Plans

On August 21, 2024, Noel R. Wallace, the Company's Chairman, President and Chief Executive Officer, entered into a pre-arranged trading plan that is intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) under the Securities Exchange Act of 1934 (the "10b5-1 Plan"). The 10b5-1 Plan provides for the sale, subject to certain price limits, of up to 100,000 shares of the Company's common stock in the aggregate and terminates on May 23, 2025, unless terminated sooner in accordance with its terms. The 10b5-1 Plan was entered into during an open insider trading window and no sales will commence under the plan until completion of the required cooling off period under Rule 10b5-1.

Mr. Wallace entered into the 10b5-1 Plan as part of his long-term asset diversification, tax and financial planning strategy. Assuming all shares subject to the 10b5-1 Plan are sold, Mr. Wallace will continue to be meaningfully invested in the Company's stock and will continue to significantly exceed the Company's rigorous stock ownership guidelines, which require Mr. Wallace to maintain stock ownership of at least eight times his annual base salary.

No other director or officer of the Company adopted, modified or terminated a "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement," as each term is defined in Item 408(a) of Regulation S-K, during the three months ended September 30, 2024.
