SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

☒ Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
for the quarterly period ended March 31, 2024

or

☐ Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
for the transition period from to
Commission file number 1-3215

Johnson & Johnson
(Exact name of registrant as specified in its charter)

New Jersey
(State or other jurisdiction of
incorporation or organization)

22-1024240
(I.R.S. Employer
Identification No.)

**One Johnson & Johnson Plaza
New Brunswick, New Jersey 08933
(Address of principal executive offices)
Registrant's telephone number, including area code (732) 524-0400**

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. ☒ Yes ☐ No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). ☒ Yes ☐ No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	☒	Accelerated filer	☐
Non-accelerated filer	☐	Smaller reporting company	☐
Emerging growth company	☐		

If an emerging growth company, indicated by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). ☐ Yes ☒ No

SECURITIES REGISTERED PURSUANT TO SECTION 12(b) OF THE ACT

Title of each class	Trading Symbol	Name of each exchange on which registered
Common Stock, Par Value \$1.00	JNJ	New York Stock Exchange
0.650% Notes Due May 2024	JNJ24C	New York Stock Exchange
5.50% Notes Due November 2024	JNJ24BP	New York Stock Exchange
1.150% Notes Due November 2028	JNJ28	New York Stock Exchange
1.650% Notes Due May 2035	JNJ35	New York Stock Exchange

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

On April 25, 2024, 2,406,679,183 shares of Common Stock, \$1.00 par value, were outstanding.

Cautionary note regarding forward-looking statements

This Quarterly Report on Form 10-Q and Johnson & Johnson's other publicly available documents contain "forward-looking statements" within the meaning of the safe harbor provisions of the United States Private Securities Litigation Reform Act of 1995. Management and representatives of Johnson & Johnson and its subsidiaries (the Company) also may from time to time make forward-looking statements. Forward-looking statements do not relate strictly to historical or current facts and reflect management's assumptions, views, plans, objectives and projections about the future. Forward-looking statements may be identified by the use of words such as "plans," "expects," "will," "anticipates," "estimates," and other words of similar meaning in conjunction with, among other things: discussions of future operations, expected operating results, financial performance; impact of planned acquisitions and dispositions; impact and timing of restructuring initiatives including associated cost savings and other benefits; the Company's strategy for growth; product development activities; regulatory approvals; market position and expenditures.

Because forward-looking statements are based on current beliefs, expectations and assumptions regarding future events, they are subject to uncertainties, risks and changes that are difficult to predict and many of which are outside of the Company's control. Investors should realize that if underlying assumptions prove inaccurate, or known or unknown risks or uncertainties materialize, the Company's actual results and financial condition could vary materially from expectations and projections expressed or implied in its forward-looking statements. Investors are therefore cautioned not to rely on these forward-looking statements. Risks and uncertainties include, but are not limited to:

Risks related to product development, market success and competition

- Challenges and uncertainties inherent in innovation and development of new and improved products and technologies on which the Company's continued growth and success depend, including uncertainty of clinical outcomes, additional analysis of existing clinical data, obtaining regulatory approvals, health plan coverage and customer access, and initial and continued commercial success;
- Challenges to the Company's ability to obtain and protect adequate patent and other intellectual property rights for new and existing products and technologies in the United States and other important markets;
- The impact of patent expirations, typically followed by the introduction of competing generic, biosimilar or other products and resulting revenue and market share losses;
- Increasingly aggressive and frequent challenges to the Company's patents by competitors and others seeking to launch competing generic, biosimilar or other products and increased receptivity of courts, the United States Patent and Trademark Office and other decision makers to such challenges, potentially resulting in loss of market exclusivity and rapid decline in sales for the relevant product sooner than expected;
- Competition in research and development of new and improved products, processes and technologies, which can result in product and process obsolescence;
- Competition to reach agreement with third parties for collaboration, licensing, development and marketing agreements for products and technologies;
- Competition based on cost-effectiveness, product performance, technological advances and patents attained by competitors; and
- Allegations that the Company's products infringe the patents and other intellectual property rights of third parties, which could adversely affect the Company's ability to sell the products in question and require the payment of money damages and future royalties.

Risks related to product liability, litigation and regulatory activity

- Product efficacy or safety concerns, whether or not based on scientific evidence, potentially resulting in product withdrawals, recalls, regulatory action on the part of the United States Food and Drug Administration (U.S. FDA) (or international counterparts), declining sales, reputational damage, increased litigation expense and share price impact;
 - The impact, including declining sales and reputational damage, of significant litigation or government action adverse to the Company, including product liability claims and allegations related to pharmaceutical marketing practices and contracting strategies;
 - The impact of an adverse judgment or settlement and the adequacy of reserves related to legal proceedings, including patent litigation, product liability, personal injury claims, securities class actions, government investigations, employment and other legal proceedings;
-

- Increased scrutiny of the healthcare industry by government agencies and state attorneys general resulting in investigations and prosecutions, which carry the risk of significant civil and criminal penalties, including, but not limited to, debarment from government business;
- Failure to meet compliance obligations in compliance agreements with governments or government agencies, which could result in significant sanctions;
- Potential changes to applicable laws and regulations affecting United States and international operations, including relating to: approval of new products; licensing and patent rights; sales and promotion of healthcare products; access to, and reimbursement and pricing for, healthcare products and services; environmental protection; and sourcing of raw materials;
- Compliance with local regulations and laws that may restrict the Company's ability to manufacture or sell its products in relevant markets, including requirements to comply with medical device reporting regulations and other requirements such as the European Union's Medical Devices Regulation;
- Changes in domestic and international tax laws and regulations, increasing audit scrutiny by tax authorities around the world and exposures to additional tax liabilities potentially in excess of existing reserves; and
- The issuance of new or revised accounting standards by the Financial Accounting Standards Board and regulations by the Securities and Exchange Commission.

Risks related to healthcare market trends and the realization of benefits from the Company's strategic initiatives

- Pricing pressures resulting from trends toward healthcare cost containment, including the continued consolidation among healthcare providers and other market participants, trends toward managed care, the shift toward governments increasingly becoming the primary payors of healthcare expenses, significant new entrants to the healthcare markets seeking to reduce costs and government pressure on companies to voluntarily reduce costs and price increases;
- Restricted spending patterns of individual, institutional and governmental purchasers of healthcare products and services due to economic hardship and budgetary constraints;
- Challenges to the Company's ability to realize its strategy for growth including through externally sourced innovations, such as development collaborations, strategic acquisitions, licensing and marketing agreements, and the potential heightened costs of any such external arrangements due to competitive pressures;
- The potential that the expected strategic benefits and opportunities from any planned or completed acquisition or divestiture by the Company may not be realized or may take longer to realize than expected;
- The potential that the expected benefits and opportunities related to past and ongoing restructuring actions may not be realized or may take longer to realize than expected;
- The Company's ability to divest the Company's remaining ownership interest in Kenvue Inc. (Kenvue) and realize the anticipated benefits from the separation; and
- Kenvue's ability to succeed as a standalone publicly traded company.

Risks related to economic conditions, financial markets and operating internationally

- The risks associated with global operations on the Company and its customers and suppliers, including foreign governments in countries in which the Company operates;
 - The impact of inflation and fluctuations in interest rates and currency exchange rates and the potential effect of such fluctuations on revenues, expenses and resulting margins;
 - Potential changes in export/import and trade laws, regulations and policies of the United States and other countries, including any increased trade restrictions or tariffs and potential drug reimportation legislation;
 - The impact on international operations from financial instability in international economies, sovereign risk, possible imposition of governmental controls and restrictive economic policies, and unstable international governments and legal systems;
 - The impact of global public health crises and pandemics;
-

- Changes to global climate, extreme weather and natural disasters that could affect demand for the Company's products and services, cause disruptions in manufacturing and distribution networks, alter the availability of goods and services within the supply chain, and affect the overall design and integrity of the Company's products and operations;
- The impact of global or economic changes or events, including global tensions and war; and
- The impact of armed conflicts and terrorist attacks in the United States and other parts of the world, including social and economic disruptions and instability of financial and other markets.

Risks related to supply chain and operations

- Difficulties and delays in manufacturing, internally, through third-party providers or otherwise within the supply chain, that may lead to voluntary or involuntary business interruptions or shutdowns, product shortages, withdrawals or suspensions of products from the market, and potential regulatory action;
- Interruptions and breaches of the Company's information technology systems or those of the Company's vendors, which could result in reputational, competitive, operational or other business harm as well as financial costs and regulatory action;
- Reliance on global supply chains and production and distribution processes that are complex and subject to increasing regulatory requirements that may adversely affect supply, sourcing and pricing of materials used in the Company's products; and
- The potential that the expected benefits and opportunities related to restructuring actions may not be realized or may take longer to realize than expected, including due to any required approvals from applicable regulatory authorities.

Investors also should carefully read the Risk Factors described in Item 1A of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2023, for a description of certain risks that could, among other things, cause the Company's actual results to differ materially from those expressed in its forward-looking statements. Investors should understand that it is not possible to predict or identify all such factors and should not consider the risks described above to be a complete statement of all potential risks and uncertainties. The Company does not undertake to publicly update any forward-looking statement that may be made from time to time, whether as a result of new information or future events or developments.

Amounts presented have not been recast to exclude discontinued operations.

Notes to consolidated financial statements

Note 1 — The accompanying unaudited interim consolidated financial statements and related notes should be read in conjunction with the audited Consolidated Financial Statements of Johnson & Johnson and its subsidiaries (the Company) and related notes as contained in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2023. The unaudited interim financial statements include all adjustments (consisting only of normal recurring adjustments) and accruals necessary in the judgment of management for a fair statement of the results for the periods presented.

Columns and rows within tables may not add due to rounding. Percentages have been calculated using actual, non-rounded figures.

New accounting standards

The Company assesses the adoption impacts of recently issued accounting standards by the Financial Accounting Standards Board on the Company's financial statements as well as material updates to previous assessments, if any, from the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2023.

Recently adopted accounting standards

There were no new material accounting standards adopted in the fiscal first quarter of 2024.

Recently issued accounting standards

Not adopted as of March 31, 2024

ASU 2023-07: Segment Reporting (Topic 280) – Improvements to Reportable Segment Disclosures

This update requires expanded annual and interim disclosures for significant segment expenses that are regularly provided to the chief operating decision maker and included within each reported measure of segment profit or loss. This update will be effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. This standard is to be applied retrospectively to all periods presented in the financial statements. Early adoption is permitted. As this accounting standard only impacts disclosures, it will not have a material impact on the Company's Consolidated Financial Statements.

ASU 2023-09: Income Taxes (Topic 740) - Improvements to Income Tax Disclosures

This update standardizes categories for the effective tax rate reconciliation, requires disaggregation of income taxes and additional income tax-related disclosures. This update is required to be effective for the Company for fiscal periods beginning after December 15, 2024. As this accounting standard only impacts disclosures, it will not have a material impact on the Company's Consolidated Financial Statements.

There were no new material accounting standards issued in the fiscal first quarter of 2024.

Supplier finance program obligations

The Company has agreements for supplier finance programs with third-party financial institutions. These programs provide participating suppliers the ability to finance payment obligations from the Company with the third-party financial institutions. The Company is not a party to the arrangements between the suppliers and the third-party financial institutions. The Company's obligations to its suppliers, including amounts due, and scheduled payment dates (which have general payment terms of 90 days), are not affected by a participating supplier's decision to participate in the program.

As of March 31, 2024, and December 31, 2023, \$0.6 billion and \$0.7 billion, respectively, were valid obligations under the program. The obligations are presented as Accounts payable on the Consolidated Balance Sheets.

Note 2 — Inventories

(Dollars in Millions)	March 31, 2024	December 31, 2023
Raw materials and supplies	\$2,331	2,355

Finished goods	6,880	6,874
Total inventories	\$11,383	11,181

Note 3 — Intangible assets and goodwill

Intangible assets that have finite useful lives are amortized over their estimated useful lives. The latest annual impairment assessment of goodwill and indefinite lived intangible assets was completed in the fiscal fourth quarter of 2023. Future impairment tests for goodwill and indefinite lived intangible assets will be performed annually in the fiscal fourth quarter, or sooner, if warranted.

(Dollars in Millions)	March 31, 2024	December 31, 2023

Total intangible assets — net	\$34,286	34,175

⁽¹⁾ The majority is comprised of customer relationships

Goodwill as of March 31, 2024 was allocated by segment of business as follows:

(Dollars in Millions)	Innovative Medicine	MedTech	Total
Goodwill at December 31, 2023	\$10,407	26,151	36,558
Goodwill, related to acquisitions	290	—	290
Goodwill, related to divestitures	—	—	—
Currency translation/Other	(145)	(87)	(232)
Goodwill at March 31, 2024	\$10,552	26,064	36,616

The weighted average amortization period for patents and trademarks is approximately 11 years. The weighted average amortization period for customer relationships and other intangible assets is approximately 18 years. The amortization expense of amortizable intangible assets included in the cost of products sold was \$1.1 billion and \$1.1 billion for the fiscal first quarters ended March 31, 2024 and April 2, 2023, respectively. Intangible asset write-downs are included in Other (income) expense, net.

The estimated amortization expense for approved products, before tax, for the five succeeding years is approximately:

(Dollars in Millions)

2024	2025	2026	2027	2028
\$4,300	3,500	2,900	2,300	1,600

See Note 10 to the Consolidated Financial Statements for additional details related to acquisitions and divestitures.

Note 4 — Fair value measurements

The Company uses forward foreign exchange contracts to manage its exposure to the variability of cash flows, primarily related to the foreign exchange rate changes of future intercompany product and third-party purchases of materials denominated in a foreign currency. The Company uses cross currency interest rate swaps to manage currency risk primarily related to borrowings. Both types of derivatives are designated as cash flow hedges.

Additionally, the Company uses interest rate swaps as an instrument to manage interest rate risk related to fixed rate borrowings. These derivatives are designated as fair value hedges. The Company uses cross currency interest rate swaps and forward foreign exchange contracts designated as net investment hedges. Additionally, the Company uses forward foreign exchange contracts to offset its exposure to certain foreign currency assets and liabilities. These forward foreign exchange contracts are not designated as hedges, and therefore, changes in the fair values of these derivatives are recognized in earnings, thereby offsetting the current earnings effect of the related foreign currency assets and liabilities.

The Company does not enter into derivative financial instruments for trading or speculative purposes, or that contain credit risk related contingent features. The Company maintains credit support agreements (CSA) with certain derivative counterparties establishing collateral thresholds based on respective credit ratings and netting agreements. As of March 31, 2024, the cumulative amount of cash collateral paid by the Company under the CSA amounted to \$2.2 billion net, related to net investment and cash flow hedges. On an ongoing basis, the Company monitors counter-party credit ratings. The Company considers credit non-performance risk to be low, because the Company primarily enters into agreements with commercial institutions that have at least an investment grade credit rating. Refer to the table on significant financial assets and liabilities measured at fair value contained in this footnote for receivables and payables with these commercial institutions. As of March 31, 2024, the Company had notional amounts outstanding for forward foreign exchange contracts, cross currency interest rate swaps and interest rate swaps of \$43.2 billion, \$39.6 billion and \$10.0 billion, respectively. As of December 31, 2023, the Company had notional amounts outstanding for forward foreign exchange contracts, cross currency interest rate swaps and interest rate swaps of \$42.9 billion, \$39.7 billion and \$10.0 billion, respectively.

All derivative instruments are recorded on the balance sheet at fair value. Changes in the fair value of derivatives are recorded each period in current earnings or other comprehensive income, depending on whether the derivative is designated as part of a hedge transaction, and if so, the type of hedge transaction.

The designation as a cash flow hedge is made at the entrance date of the derivative contract. At inception, all derivatives are expected to be highly effective. Foreign exchange contracts designated as cash flow hedges are accounted for under the forward method and all gains/losses associated with these contracts will be recognized in the income statement when the hedged item impacts earnings. Changes in the fair value of these derivatives are recorded in accumulated other comprehensive income until the underlying transaction affects earnings and are then reclassified to earnings in the same account as the hedged transaction.

Gains and losses associated with interest rate swaps and changes in fair value of hedged debt attributable to changes in interest rates are recorded to interest expense in the period in which they occur. Gains and losses on net investment hedges are accounted for through the currency translation account within accumulated other comprehensive income. The portion excluded from effectiveness testing is recorded through interest (income) expense using the spot method. On an ongoing basis, the Company assesses whether each derivative continues to be highly effective in offsetting changes of hedged items. If and when a derivative is no longer expected to be highly effective, hedge accounting is discontinued.

The Company designated its Euro denominated notes with due dates ranging from 2024 to 2035 as a net investment hedge of the Company's investments in certain of its international subsidiaries that use the Euro as their functional currency in order to reduce the volatility caused by changes in exchange rates.

As of March 31, 2024, the balance of deferred net loss on derivatives included in accumulated other comprehensive income was \$795 million after-tax. For additional information, see the Consolidated Statements of Comprehensive Income and Note 7. The Company expects that substantially all of the amounts related to forward foreign exchange contracts will be reclassified into earnings over the next 12 months as a result of transactions that are expected to occur over that period. The maximum length of time over which the Company is hedging transaction exposure is 18 months, excluding interest rate contracts and net investment hedge contracts. The amount ultimately realized in earnings may differ as foreign exchange rates change. Realized gains and losses are ultimately determined by actual exchange rates at maturity of the derivative.

The following table is a summary of the activity related to derivatives and hedges for the fiscal first quarters ended March 31, 2024 and April 2, 2023, net of tax

(Dollars in Millions)	March 31, 2024					April 2, 2023				
	Sales	Cost of Products Sold	R&D Expense	Interest (Income) Expense	Other (Income) Expense	Sales	Cost of Products Sold	R&D Expense	Interest (Income) Expense	Other (Income) Expense
The effects of fair value, net investment and cash flow hedging:

As of March 31, 2024, and December 31, 2023, the following amounts were recorded on the Consolidated Balance Sheet related to cumulative basis adjustment for fair value hedges:

Line item in the Consolidated Balance Sheet in which the hedged item is included (Dollars in Millions)	Carrying Amount of the Hedged Liability		Cumulative Amount of Fair Value Hedging Gain/ (Loss) Included in the Carrying Amount of the Hedged Liability	
	March 31, 2024	December 31, 2023	March 31, 2024	December 31, 2023
Long-term Debt	\$8,871	8,862	(1,205)	(1,216)

The following table is the effect of derivatives not designated as hedging instruments for the fiscal first quarters ended 2024 and 2023:

(Dollars in Millions)	Location of Gain/(Loss) Recognized in Income on Derivative	Gain/(Loss) Recognized In Income on Derivative	
		Fiscal First Quarter Ended	
		March 31, 2024	April 2, 2023
Derivatives Not Designated as Hedging Instruments			
Foreign Exchange Contracts	Other (income) expense	25	(31)

The following table is the effect of net investment hedges for the fiscal first quarters ended in 2024 and 2023:

(Dollars in Millions)	Gain/(Loss) Recognized In Accumulated OCI		Location of Gain or (Loss) Reclassified from Accumulated Other Comprehensive Income Into Income	Gain/(Loss) Reclassified From Accumulated OCI Into Income	
	March 31, 2024	April 2, 2023		March 31, 2024	April 2, 2023
Debt	\$84	(77)	Interest (income) expense	—	—
Cross Currency interest rate swaps	\$728	690	Interest (income) expense	—	—

The Company holds equity investments with readily determinable fair values and equity investments without readily determinable fair values. The Company has elected to measure equity investments that do not have readily determinable fair values at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer.

The following table is a summary of the activity related to equity investments:

(Dollars in Millions)	December 31, 2023	Changes in Fair Value Reflected in Net Income ⁽¹⁾	Sales/ Purchases/Other ⁽²⁾	March 31, 2024	
	Carrying Value			Carrying Value	Non Current Other Assets
Equity Investments with readily determinable value*	\$4,473	30	(17)	4,486	4,486
Equity Investments without readily determinable value	\$696	23	(12)	707	707

⁽¹⁾ Recorded in Other (income)/expense, net

⁽²⁾ Other includes impact of currency

* Includes the 9.5% remaining stake in Kenvue and the unfavorable change in the fair value of the investment.

Fair value is the exit price that would be received to sell an asset or paid to transfer a liability. Fair value is a market-based measurement determined using assumptions that market participants would use in pricing an asset or liability. In accordance with ASC 820, a three-level hierarchy was established to prioritize the inputs used in measuring fair value. The levels within the hierarchy are described below with Level 1 inputs having the highest priority and Level 3 inputs having the lowest.

The fair value of a derivative financial instrument (i.e., forward foreign exchange contracts, interest rate contracts) is the aggregation by currency of all future cash flows discounted to its present value at the prevailing market interest rates and subsequently converted to the U.S. Dollar at the current spot foreign exchange rate. The Company does not believe that fair values of these derivative instruments materially differ from the amounts that could be realized upon settlement or maturity, or that the changes in fair value will have a material effect on the Company's results of operations, cash flows or financial position. The Company also holds equity investments which are classified as Level 1 and debt securities which are classified as Level 2. The Company holds acquisition related contingent liabilities based upon certain regulatory and commercial events, which are classified as Level 3, whose values are determined using discounted cash flow methodologies or similar techniques for which the determination of fair value requires significant judgment or estimations.

The following three levels of inputs are used to measure fair value:

Level 1 — Quoted prices in active markets for identical assets and liabilities.

Level 2 — Significant other observable inputs.

Level 3 — Significant unobservable inputs.

The Company's significant financial assets and liabilities measured at fair value as of March 31, 2024 and December 31, 2023 were as follows:

(Dollars in Millions)	March 31, 2024			December 31, 2023	
	Level 1	Level 2	Level 3	Total	Total ⁽¹⁾
Derivatives designated as hedging instruments:					
Assets:

Total Net Asset	41	16
Total Gross Liabilities	3,980	6,037
Credit Support Agreement (CSA)	(3,882)	(5,604)
Total Net Liabilities	\$98	433

Summarized information about changes in liabilities for contingent consideration for the fiscal first quarters ended March 31, 2024 and April 2, 2023 is as follows:

(Dollars in Millions)	March 31, 2024	April 2, 2023
Beginning Balance	\$1,092	1,120
Changes in estimated fair value ⁽⁶⁾	22	23
Additions	—	—
Payments	—	(1)
Ending Balance	\$1,114	1,142

⁽¹⁾ 2023 assets and liabilities are all classified as Level 2 with the exception of equity investments of \$4,473 million, which are classified as Level 1 and contingent consideration of \$1,092 million, classified as Level 3.

⁽²⁾ Includes cross currency interest rate swaps and interest rate swaps.

⁽³⁾ Classified as non-current other assets.

⁽⁴⁾ Classified within cash equivalents and current marketable securities.

⁽⁵⁾ Classified as non-current other liabilities as of March 31, 2024 and December 31, 2023, respectively.

⁽⁶⁾ Ongoing fair value adjustment amounts are primarily recorded in Research and Development expense.

The Company's cash, cash equivalents and current marketable securities as of March 31, 2024 comprised:

(Dollars in Millions)	Carrying Amount	Unrealized Gain	Estimated Fair Value	Cash & Cash Equivalents	Current Marketable Securities
Cash	\$3,410	—	3,410	3,410	—
U.S. Gov't securities	96	—	96	96	—
Non-U.S. sovereign securities	324	—	324	324	—
U.S. reverse repurchase agreements	7,892	—	7,892	7,892	—
Corporate debt securities ⁽¹⁾	702	—	702	588	114
Money market funds	3,822	—	3,822	3,822	—
Time deposits ⁽¹⁾	626	—	626	626	—
Subtotal	16,872	—	16,872	16,758	114
U.S. Gov't securities	9,064	—	9,064	8,665	399
U.S. Gov't Agencies	41	2	43	—	43
Other sovereign securities	2	—	2	—	2
Corporate debt securities	237	—	237	50	187
Subtotal available for sale debt ⁽²⁾	\$9,344	2	9,346	8,715	631
Total cash, cash equivalents and current marketable securities	\$26,216	2	26,218	25,473	745

⁽¹⁾ Held to maturity investments are reported at amortized cost and gains or losses are reported in earnings.

⁽²⁾ Available for sale debt securities are reported at fair value with unrealized gains and losses reported net of taxes in other comprehensive income.

As of the fiscal year ended December 31, 2023, the carrying amount was approximately the same as the estimated fair value.

Fair value of government securities and obligations and corporate debt securities was estimated using quoted broker prices and significant other observable inputs.

The Company classifies all highly liquid investments with stated maturities of three months or less from date of purchase as cash equivalents and all highly liquid investments with stated maturities of greater than three months from the date of purchase as current marketable securities. Available for sale securities with stated maturities of greater than one year from the date of purchase are available to fund current operations and are classified as either cash equivalents or current marketable securities.

The contractual maturities of the available for sale securities as of March 31, 2024 are as follows:

(Dollars in Millions)	Cost Basis	Fair Value
Due within one year	\$9,331	9,333
Due after one year through five years	13	13
Due after five years through ten years	—	—
Total debt securities	\$9,344	9,346

Financial instruments not measured at fair value

The following financial liabilities are held at carrying amount on the consolidated balance sheet as of March 31, 2024:

(Dollars in Millions)	Carrying Amount	Estimated Fair Value
Financial Liabilities		
Current Debt	\$8,550	8,533
Non-Current Debt		
0.55% Notes due 2025	974	940
2.46% Notes due 2026	1,998	1,917
2.95% Notes due 2027	907	958
0.95% Notes due 2027	1,434	1,337
2.90% Notes due 2028	1,497	1,422
1.150% Notes due 2028 (750MM Euro 1.0809)	807	751
6.95% Notes due 2029	298	339
1.30% Notes due 2030	1,633	1,466
4.95% Debentures due 2033	499	523
4.375% Notes due 2033	854	848
1.650% Notes due 2035 (1.5B Euro 1.0809)	1,610	1,430
3.587% Notes due 2036	862	893
5.95% Notes due 2037	994	1,110
3.625% Notes due 2037	1,354	1,333
3.40% Notes due 2038	993	858
5.85% Debentures due 2038	697	772
4.50% Debentures due 2040	541	530
2.10% Notes due 2040	844	688
4.85% Notes due 2041	297	301
4.50% Notes due 2043	496	481
3.73% Notes due 2046	1,978	1,675
3.75% Notes due 2047	825	829
3.50% Notes due 2048	743	598
2.25% Notes due 2050	816	629
2.45% Notes due 2060	1,064	743
Other	67	67
Total Non-Current Debt	\$25,082	23,438

The weighted average effective interest rate on non-current debt is 2.99%.

The excess of the carrying value over the estimated fair value of debt was \$1.0 billion at December 31, 2023.

Fair value of the non-current debt was estimated using market prices, which were corroborated by quoted broker prices and significant other observable inputs.

The current debt balance as of March 31, 2024 includes \$6.3 billion of commercial paper which has a weighted average interest rate of 5.25% and a weighted average maturity of approximately three months.

Note 5 — Income taxes

The worldwide effective income tax rates for the fiscal first quarters of 2024 and 2023 were 12.4% and 61.8%, respectively. The change in the consolidated tax rate as compared to the prior year fiscal first quarter is primarily due to a charge of \$6.9 billion in the fiscal first quarter of 2023 and a charge of \$2.7 billion in the fiscal first quarter of 2024, both for the talc settlement proposal. Both charges were recorded at an effective U.S. federal and state tax rate of approximately 23% (for further information see Note 11 to the Consolidated Financial Statements).

Additionally in the fiscal first quarter of 2024, the effective tax rate was impacted by legislative changes that went into effect for Pillar Two in some of the Company's foreign jurisdictions. The Company also had tax benefits received from stock-based compensation that were either exercised or vested during each of the fiscal first quarters, as well as a capital loss tax benefit in the fiscal first quarter of 2024.

As of March 31, 2024, the Company had approximately \$2.5 billion of liabilities from unrecognized tax benefits. The Company conducts business and files tax returns in numerous countries and currently has tax audits in progress in a number of jurisdictions. With respect to the United States, the Internal Revenue Service has completed its audit for the tax years through 2016 and in the fiscal first quarter of 2024 has commenced the audit for tax years 2017 through 2020.

In other major jurisdictions where the Company conducts business, the years that remain open to tax audit go back to the year 2013. The Company believes it is possible that tax audits may be completed over the next twelve months by taxing authorities in some jurisdictions outside of the United States. However, the Company is not able to provide a reasonably reliable estimate of the timing of any other future tax payments relating to uncertain tax positions.

Note 6 — Pensions and other benefit plans

Components of net periodic benefit cost

Net periodic benefit costs for the Company's defined benefit retirement plans and other benefit plans include the following components:

(Dollars in Millions)	Fiscal First Quarter Ended			
	Retirement Plans		Other Benefit Plans	
	March 31, 2024	April 2, 2023	March 31, 2024	April 2, 2023
Service cost	\$224	210	69	68
Interest cost	352	352	52	54
Expected return on plan assets	(642)	(668)	(2)	(1)
Amortization of prior service cost/(credit)	(46)	(46)	—	—
Recognized actuarial (gains)/losses	43	(50)	13	6
Curtailments and settlements	—	—	—	—
Net periodic benefit cost/(credit)	\$(69)	(202)	132	127

The service cost component of net periodic benefit cost is presented in the same line items on the Consolidated Statement of Earnings where other employee compensation costs are reported, including Cost of products sold, Research and development expense, Selling, marketing and administrative expenses, and in the fiscal first quarter of 2023, Net earnings from discontinued operations, net of taxes if related to the separation of Kenvue. All other components of net periodic benefit cost are presented as part of Other (income) expense, net on the Consolidated Statement of Earnings.

Company contributions

For the fiscal three months ended March 31, 2024, the Company contributed \$29 million and \$3 million to its U.S. and international retirement plans, respectively. The Company plans to continue to fund its U.S. defined benefit plans to comply with the Pension Protection Act of 2006. International plans are funded in accordance with local regulations.

Note 7 — Accumulated other comprehensive income

Components of other comprehensive income/(loss) consist of the following:

(Dollars in Millions)	Foreign Currency Translation	Gain/ (Loss) On Securities	Employee Benefit Plans	Gain/ (Loss) On Derivatives & Hedges	Total Accumulated Other Comprehensive Income/(Loss)
December 31, 2023	\$(10,149)	(1)	(2,000)	(377)	(12,527)
Net change	2,123	2	52	(418)	1,759
March 31, 2024	(8,026)	1	(1,948)	(795)	(10,768)

Amounts in accumulated other comprehensive income are presented net of the related tax impact. Foreign currency translation is not adjusted for income taxes where it relates to permanent investments in international subsidiaries. For additional details on comprehensive income see the Consolidated Statements of Comprehensive Income.

Details on reclassifications out of Accumulated Other Comprehensive Income:

Gain/(Loss) On Securities - reclassifications released to Other (income) expense, net.

Employee Benefit Plans - reclassifications are included in net periodic benefit cost. See Note 6 for additional details.

Gain/(Loss) On Derivatives & Hedges - reclassifications to earnings are recorded in the same account as the underlying transaction. See Note 4 for additional details.

Note 8 — Earnings per share

The following is a reconciliation of basic net earnings per share to diluted net earnings per share:

(Shares in Millions)	Fiscal First Quarter Ended	
	March 31, 2024	April 2, 2023
Basic net earnings (loss) per share from continuing operations	\$1.35	(0.19)
Basic net earnings per share from discontinued operations	—	0.16
Total net earnings (loss) per share - basic	1.35	(0.03)
Average shares outstanding — basic	2,408.2	2,605.5
Potential shares exercisable under stock option plans	87.6	—
Less: shares which could be repurchased under treasury stock method	(65.7)	—
Average shares outstanding — diluted/basic*	2,430.1	2,605.5
Diluted net earnings (loss) per share from continuing operations	1.34	(0.19)
Diluted net earnings per share from discontinuing operations	—	0.16
Total net earnings (loss) per share - diluted	\$1.34	(0.03)

The diluted net earnings per share calculation for the fiscal first quarter ended March 31, 2024 excluded 44.2 million shares related to stock options, as the exercise price of these options was greater than the average market value of the Company's stock.

* Basic shares are used to calculate loss per share as use of diluted shares when in a loss position would be anti-dilutive.

.Note 9 — Segments of business and geographic areas

Following the separation of the Consumer Health business in the fiscal third quarter of 2023, the Company is now organized into two business segments: Innovative Medicine and MedTech. The segment results have been recast for all periods to reflect the continuing operations of the Company.

Sales by segment of business

Note 10 — Acquisitions and divestitures

Subsequent to the fiscal first quarter of 2024, the Company announced that it has entered into a definitive agreement to acquire all outstanding shares of Shockwave Medical, Inc. (Shockwave) (Nasdaq: SWAV), a leading, first-to-market provider of innovative intravascular lithotripsy (IVL) technology for the treatment of calcified coronary artery disease (CAD) and peripheral artery disease (PAD), for \$335.00 per share in cash, corresponding to an enterprise value of approximately \$13.1 billion including cash acquired. The results of operations will be included in the MedTech segment as of the acquisition date. The closing of the transaction is expected to occur by mid-year 2024.

On March 7, 2024, the Company completed the acquisition of Ambrx Biopharma, Inc., (Ambrx), a clinical-stage biopharmaceutical company with a proprietary synthetic biology technology platform to design and develop next-generation antibody drug conjugates (ADCs), in an all-cash merger transaction for a total equity value of approximately \$2.0 billion, or \$1.8 billion net of cash acquired. The Company acquired all of the outstanding shares of Ambrx's common stock for \$28.00 per share through a merger of Ambrx with a subsidiary of the Company. The transaction was accounted for as a business combination and the results of operations were included in the Innovative Medicine segment as of the acquisition date. The fair value of the acquisition was allocated to assets acquired of \$2.3 billion, primarily non-amortizable intangible assets, inclusive of purchased IPR&D, for \$1.9 billion, goodwill for \$0.3 billion and liabilities assumed of \$0.5 billion, which includes deferred taxes of \$0.4 billion. The preliminary purchase price allocation is subject to any subsequent valuation adjustments within the measurement period. A probability of success factor ranging from 40% to 70% was used in the fair value calculation to reflect inherent regulatory and commercial risk of the IPR&D. The discount rate applied was approximately 17%. The goodwill is primarily attributable to synergies expected to arise from the business acquisition and is not expected to be deductible for tax purposes. Acquisition related costs before tax for the fiscal first quarter of 2024 were not material.

Divestitures

In the fiscal first quarter of 2024, the Company completed the divestiture of Ponvory resulting in approximately \$0.2 billion in proceeds.

There were no material acquisitions or divestitures in the fiscal first quarter of 2023.

Note 11 — Legal Proceedings

Johnson & Johnson and certain of its subsidiaries are involved in various lawsuits and claims regarding product liability; intellectual property; commercial; indemnification and other matters; governmental investigations; and other legal proceedings that arise from time to time in the ordinary course of their business.

The Company records accruals for loss contingencies associated with these legal matters when it is probable that a liability will be incurred, and the amount of the loss can be reasonably estimated. As of March 31, 2024, the Company has determined that the liabilities associated with certain litigation matters are probable and can be reasonably estimated. The Company has accrued for these matters and will continue to monitor each related legal issue and adjust accruals as might be warranted based on new information and further developments in accordance with ASC 450-20-25. For these and other litigation and regulatory matters discussed below for which a loss is probable or reasonably possible, the Company is unable to estimate the possible loss or range of loss beyond the amounts accrued. Amounts accrued for legal contingencies often result from a complex series of judgments about future events and uncertainties that rely heavily on estimates and assumptions including timing of related payments. The ability to make such estimates and judgments can be affected by various factors including, among other things, whether damages sought in the proceedings are unsubstantiated or indeterminate; scientific and legal discovery has not commenced or is not complete; proceedings are in early stages; matters present legal uncertainties; there are significant facts in dispute; procedural or jurisdictional issues; the uncertainty and unpredictability of the number of potential claims; ability to achieve comprehensive multi-party settlements; complexity of related cross-claims and counterclaims; and/or there are numerous parties involved. To the extent adverse awards, judgments or verdicts have been rendered against the Company, the Company does not record an accrual until a loss is determined to be probable and can be reasonably estimated.

In the Company's opinion, based on its examination of these matters, its experience to date and discussions with counsel, the ultimate outcome of legal proceedings, net of liabilities accrued in the Company's balance sheet, is not expected to have a material adverse effect on the Company's financial position. However, the resolution of, or increase in accruals for, one or more of these matters in any reporting period may have a material adverse effect on the Company's results of operations and cash flows for that period.

Matters concerning talc

A significant number of personal injury claims alleging that talc causes cancer have been asserted against Johnson & Johnson Consumer Inc., its successor LTL Management LLC (now known as LLT Management LLC) and the Company arising out of the use of body powders containing talc, primarily JOHNSON'S Baby Powder.

In talc cases that have gone to trial, the Company has obtained a number of defense verdicts, but there also have been verdicts against the Company, many of which have been reversed on appeal. In June 2020, the Missouri Court of Appeals reversed in part and affirmed in part a July 2018 verdict of \$4.7 billion in *Ingham v. Johnson & Johnson, et al.*, No. ED 207476 (Mo. App.), reducing the overall award to \$2.1 billion. An application for transfer of the case to the Missouri Supreme Court was subsequently denied and in June 2021, a petition for certiorari, seeking a review of the Ingham decision by the United States Supreme Court, was denied. In June 2021, the Company paid the award, which, including interest, totaled approximately \$2.5 billion. The facts and circumstances, including the terms of the award, were unique to the Ingham decision and not representative of other claims brought against the Company. The Company continues to believe that it has strong legal grounds to contest the other talc verdicts that it has appealed. Notwithstanding the Company's confidence in the safety of its talc products, in certain circumstances the Company has settled cases.

In October 2021, Johnson & Johnson Consumer Inc. (Old JJCI) implemented a corporate restructuring (the 2021 Corporate Restructuring). As a result of that restructuring, Old JJCI ceased to exist and three new entities were created: (a) LTL Management LLC, a North Carolina limited liability company (LTL or Debtor); (b) Royalty A&M LLC, a North Carolina limited liability company and a direct subsidiary of LTL (RAM); and (c) the Debtor's direct parent, Johnson & Johnson Consumer Inc., a New Jersey company (New JJCI). The Debtor received certain of Old JJCI's assets and became solely responsible for the talc-related liabilities of Old JJCI, including all liabilities related in any way to injury or damage, or alleged injury or damage, sustained or incurred in the purchase or use of, or exposure to, talc, including talc contained in any product, or to the risk of, or responsibility for, any such damage or injury, except for any liabilities for which the exclusive remedy is provided under a workers' compensation statute or act (the Talc-Related Liabilities).

In October 2021, notwithstanding the Company's confidence in the safety of its talc products, the Debtor filed a voluntary petition with the United States Bankruptcy Court for the Western District of North Carolina, Charlotte Division, seeking relief under chapter 11 of the Bankruptcy Code (the LTL Bankruptcy Case). All litigation against LTL, Old JJCI, New JJCI, the Company, other of their corporate affiliates, identified retailers, insurance companies, and certain other parties (the Protected Parties) was stayed. The LTL Bankruptcy Case was transferred to the United States Bankruptcy Court for the District of New Jersey. Claimants filed motions to dismiss the LTL Bankruptcy Case and, following a multiple day hearing, the New Jersey Bankruptcy Court denied those motions in March 2022.

The claimants subsequently filed notices of appeal as to the denial of the motions to dismiss the LTL Bankruptcy Case and the extension of the stay to the Protected Parties. On January 30, 2023, the Third Circuit reversed the Bankruptcy Court's ruling and remanded to the Bankruptcy Court to dismiss the LTL bankruptcy.

In April 2023, the New Jersey Bankruptcy Court dismissed the LTL Bankruptcy Case, effectively lifting the stay as to all parties and returning the talc litigation to the tort system. LTL re-filed in the United States Bankruptcy Court for the District of New Jersey seeking relief under chapter 11 of the Bankruptcy Code (the LTL 2 Bankruptcy Case). As a result of the new filing, all talc claims against LTL were again automatically stayed pursuant to section 362 of the Bankruptcy Code. Additionally, the New Jersey Bankruptcy Court issued a temporary restraining order staying all litigation as to LTL, Old JJCI, New JJCI, the Company, identified retailers, and certain other parties (the New Protected Parties).

Also in April 2023, the New Jersey Bankruptcy Court issued a decision that granted limited injunctive relief to the Company and the New Protected Parties (the LTL 2 Preliminary Injunction). The LTL 2 Preliminary Injunction remained in force until late August 2023, following the Bankruptcy Court's extension of the initial LTL 2 Preliminary Injunction in June 2023. Under the LTL 2 Preliminary Injunction, except for in those cases filed in the federal court ovarian cancer multi-district litigation, discovery in all personal injury and wrongful death matters was permitted to proceed.

Furthermore, in April 2023, the Talc Claimants' Committee filed a motion to dismiss the LTL 2 Bankruptcy followed by similar motions from other claimants. Hearings on the motions to dismiss occurred in June 2023. In July 2023, the court dismissed the LTL 2 Bankruptcy case and, the same day, the Company stated its intent to appeal the decision and to continue its efforts to obtain a resolution of the talc claims. In September 2023, the Bankruptcy Court entered an order granting LTL leave to seek a direct appeal to the Third Circuit Court of Appeals. In October 2023, the Third Circuit granted LTL's petition for a direct appeal. Briefing is ongoing.

In October 2023, the Company stated that it was pursuing the following four parallel and alternative pathways to achieve a comprehensive and final resolution of the talc claims: (i) the appeal of the LTL 2 dismissal decision; (ii) pursuing a consensual "prepackaged" bankruptcy case, as "strongly encouraged" by the Bankruptcy Court in its dismissal decision; (iii) aggressively litigating the talc claims in the tort system; and (iv) pursuing affirmative claims against experts for false and defamatory narratives regarding the Company's talc powder products.

Following the dismissal of LTL 2, new lawsuits were filed, cases across the country that had been stayed were reactivated, and trials have commenced. The majority of the cases are pending in federal court, organized in a multi-district litigation (MDL) in the United States District Court for the District of New Jersey. In the MDL, case-specific discovery is proceeding with an expectation that a trial will occur in early 2025. In March 2024, the court granted the Company's motion for a renewed *Daubert* hearing and set a briefing schedule.

On May 1, 2024, the Company commenced a three-month solicitation period of its proposed consensual "prepackaged" chapter 11 bankruptcy plan (the "Proposed Plan") for the comprehensive and final resolution of all current and future claims related to

cosmetic talc in the United States, excluding claims related to mesothelioma or State consumer protection claims, in exchange for the payment by the Company of present value of approximately \$6.475 billion payable over 25 years (nominal value of approximately \$8.4 billion, discounted at a rate of 4.4%). The claims encompassed by the Proposed Plan constitute 99.75% of pending lawsuits against the Company relating to its talc powder products. Mesothelioma and State consumer protection claims are being addressed outside the Proposed Plan. The Company separately has resolved 95% of the mesothelioma lawsuits filed to date, and has agreements in principle to resolve the State claims.

To account for these settlements and the contemplated comprehensive resolution through the Proposed Plan, the Company recorded an incremental charge of approximately \$2.7 billion, for a total reserve as of the first fiscal quarter 2024 at a present value of approximately \$11 billion (or nominal value of approximately \$13.7 billion). Approximately one-third of the reserve is recorded as a current liability. The recorded amount remains the Company's best estimate of probable loss.

During the pendency of the solicitation period, the Company will continue to pursue in parallel the other three previously-announced pathways to resolve the talc claims, including proceeding with the Daubert motions in the MDL.

In February 2019, the Company's talc supplier, Imerys Talc America, Inc. and two of its affiliates, Imerys Talc Vermont, Inc. and Imerys Talc Canada, Inc. (collectively, Imerys) filed a voluntary petition for relief under chapter 11 of the United States Code (the Bankruptcy Code) in the United States Bankruptcy Court for the District of Delaware (Imerys Bankruptcy). The Imerys Bankruptcy relates to Imerys's potential liability for personal injury from exposure to talcum powder sold by Imerys. In its bankruptcy, Imerys alleges it has claims against the Company for indemnification and rights to joint insurance proceeds. In its bankruptcy, Imerys proposed a chapter 11 plan (the Imerys Plan) that contemplated all talc-related claims against it being channeled to a trust along with its alleged indemnification rights against the Company. Following confirmation and consummation of the plan, the trust would pay talc claims pursuant to proposed trust distribution procedures (the TDP) and then seek indemnification from the Company.

In February 2021, Cyprus Mines Corporation (Cyprus), which had owned certain Imerys talc mines, filed a voluntary petition for relief under chapter 11 of the Bankruptcy Code and filed its Disclosure Statement and Plan (the Cyprus Plan). The Cyprus Plan contemplates a settlement with Imerys and talc claimants where Cyprus would make a monetary contribution to a trust established under the Imerys Plan in exchange for an injunction against talc claims asserted against it and certain affiliated parties.

The Imerys Plan proceeded to solicitation in early 2021. However, the Imerys Plan did not receive the requisite number of votes to be confirmed after the Bankruptcy Court ruled certain votes cast in favor of the Imerys Plan should be disregarded. Imerys subsequently canceled its confirmation hearing.

After the confirmation hearing was canceled, Imerys, the Imerys Tort Claimants' Committee, and the Imerys Future Claimants' Representative, along with Cyprus, the Cyprus Tort Claimants' Committee, and the Cyprus Future Claimants' Representative engaged in mediation. The Bankruptcy Court also authorized Imerys and Cyprus to proceed with mediation with certain of their insurers.

In September 2023, Imerys and Cyprus filed amended plans of reorganization. The amended plans contemplate a similar construct as the prior Imerys and Cyprus Plans, including all talc claims against Imerys and Cyprus (and certain other protected parties) being channeled to a trust along with Imerys's and Cyprus's alleged indemnification rights against the Company. In January 2024, Imerys and Cyprus each filed a disclosure statement for its respective Chapter 11 plans. On April 29, 2024, the Company, Imerys and Cyprus reached an agreement in principle on monetary and non-monetary terms to resolve their ongoing disputes, including disputes raised in the Imerys and Cyprus bankruptcies.

In February 2018, a securities class action lawsuit was filed against the Company and certain named officers in the United States District Court for the District of New Jersey, alleging that the Company violated the federal securities laws by failing to disclose alleged asbestos contamination in body powders containing talc, primarily JOHNSON'S Baby Powder, and that purchasers of the Company's shares suffered losses as a result. In April 2019, the Company moved to dismiss the complaint. In December 2019, the Court denied, in part, the motion to dismiss. In April 2021, briefing on Plaintiff's motion for class certification was completed. The case was stayed in May 2022 pursuant to the LTL Bankruptcy Case and was reopened in May 2023. In December 2023, the Court granted Plaintiff's motion for class certification. In January 2024, Defendants filed a petition with the Third Circuit under Federal Rule of Civil Procedure 23(f) for permission to appeal the Court's order granting class certification, and in February 2024, the Third Circuit granted Defendants' petition. Fact discovery closed in February 2024 and the Court ordered the parties to mediate. The Court stayed the case pending the mediation, which is scheduled for May 2024.

A lawsuit was brought against the Company in the Superior Court of California for the County of San Diego alleging violations of California's Consumer Legal Remedies Act (CLRA) relating to JOHNSON'S Baby Powder. In that lawsuit, the plaintiffs allege that the Company violated the CLRA by failing to provide required Proposition 65 warnings. In July 2019, the Company filed a notice of removal to the United States District Court for the Southern District of California and plaintiffs filed a second amended complaint shortly thereafter. In October 2019, the Company moved to dismiss the second amended complaint for failure to state a claim upon which relief may be granted. In response to those motions, plaintiffs filed a third amended complaint. In December 2019, the Company moved to dismiss the third amended complaint for failure to state a claim upon which relief may be granted. In April 2020, the Court granted the motion to dismiss but granted leave to amend. In May 2020, plaintiffs filed a Fourth Amended Complaint but indicated that they would be filing a motion for leave to file a fifth amended complaint. Plaintiffs filed a Fifth Amended Complaint in August 2020. The Company moved to dismiss the Fifth Amended Complaint for failure to state a claim upon which relief may be granted. In January 2021, the Court issued an Order and opinion ruling in the Company's favor and granting the motion to dismiss.

with prejudice. In February 2021, Plaintiffs filed a Notice of Appeal with the Ninth Circuit. Plaintiffs filed their opening brief in July 2021. The company filed its responsive brief in October 2021. After the Notice of Suggestion of Bankruptcy was filed with the Ninth Circuit, a stay was imposed, and the Court held the reply deadline in abeyance. In September 2023, the stay lifted. On April 29, 2024, the Ninth Circuit affirmed the District Court's order dismissing the case with prejudice.

In June 2014, the Mississippi Attorney General filed a complaint in Chancery Court of The First Judicial District of Hinds County, Mississippi against the Company and Johnson & Johnson Consumer Companies, Inc. (now known as Johnson & Johnson Consumer Inc.) (collectively, JJCI). The complaint alleges that JJCI violated the Mississippi Consumer Protection Act by failing to disclose alleged health risks associated with female consumers' use of talc contained in JOHNSON'S Baby Powder and JOHNSON'S Shower to Shower (a product divested in 2012) and seeks injunctive and monetary relief. In February 2022, the trial court set the case for trial to begin in February 2023. However, in October 2022, the LTL bankruptcy court issued an order staying the case. In March 2023, the Third Circuit issued the mandate to dismiss the LTL Bankruptcy Case and in April 2023, the New Jersey Bankruptcy Court dismissed the LTL Bankruptcy Case, effectively lifting the stay as to this matter. The State requested a new trial setting. Later in April 2023, the trial court set a new trial date for April 2024. The Company filed summary judgment and *Daubert* motions. The State filed a limited *Daubert* motion. The parties agreed to the Court's request for mediation. The Company has reached an agreement to resolve this matter.

In January 2020, the State of New Mexico filed a consumer protection case alleging that the Company deceptively marketed and sold its talcum powder products by making misrepresentations about the safety of the products and the presence of carcinogens, including asbestos. In March 2022, the New Mexico court denied the Company's motion to compel the State of New Mexico to engage in discovery of state agencies and denied the Company's request for interlocutory appeal of that decision. The Company then filed a Petition for Writ of Superintending Control and a Request for a Stay to the New Mexico Supreme Court on the issue of the State of New Mexico's discovery obligations. In April 2022, in view of the efforts to resolve talc-related claims in the LTL Bankruptcy Case, the Company and the State agreed to a 60-day stay of all matters except for the pending writ before the New Mexico Supreme Court, which expired in June 2022. Thereafter, the Company moved to enjoin prosecution of the case in the LTL Bankruptcy Case. In October 2022, the bankruptcy court issued an order staying the case. In December 2022, the State filed an appeal to the Third Circuit concerning the stay order. Separately, in September 2022, the New Mexico Supreme Court granted the Company's request for a stay pending further briefing on the scope of the State of New Mexico's discovery obligations. In March 2023, the Third Circuit issued the mandate to dismiss the LTL Bankruptcy Case and in April 2023, the New Jersey Bankruptcy Court dismissed the LTL Bankruptcy Case, effectively lifting the stay as to this matter. While the State notified the New Mexico Supreme Court of the lifted stay of litigation in April 2023, the Court has not taken any action since being notified of the lifting of the stay and it remains in effect. The Company has reached an agreement to resolve this matter.

Forty-two states and the District of Columbia (including Mississippi and New Mexico) have commenced a joint investigation into the Company's marketing of its talcum powder products. At this time, the multi-state group has not asserted any claims against the Company. Five states have issued Civil Investigative Demands seeking documents and other information. The Company has produced documents to Arizona, North Carolina, Texas, and Washington and entered into confidentiality agreements. The Company has not received any follow up requests from those states. In March 2022, each of the forty-two states agreed to mediation of their claims in the LTL Bankruptcy Case. In July 2022, New Mexico and Mississippi indicated they would no longer voluntarily submit to further mediation in the LTL Bankruptcy and would proceed with their respective cases in state court. In March 2023, the mediation was terminated. In January 2024, the Company reached an agreement in principle with the multi-state group of state Attorneys General, subject to ongoing negotiation of non-monetary terms. The unique procedural history and status of the New Mexico and Mississippi matters specifically have been discussed above.

In addition, the Company has received inquiries, subpoenas, and requests to produce documents regarding talc matters and the LTL Bankruptcy Case from various governmental authorities. The Company has produced documents and responded to inquiries, and will continue to cooperate with government inquiries.

Matters concerning opioids

Beginning in 2014 and continuing to the present, the Company and Janssen Pharmaceuticals, Inc. (JPI), along with other pharmaceutical companies, have been named in close to 3,500 lawsuits related to the marketing of opioids, including DURAGESIC, NUCYNТА and NUCYNТА ER. The majority of the cases were filed by state and local governments, which were subject to a final settlement in 2021. As of January 2024, the Company and JPI have settled or otherwise resolved the opioid claims advanced by all government entity claimants except the City of Baltimore, a number of school districts, and other claimants. Similar lawsuits have also been filed by private plaintiffs and organizations, including but not limited to the following: individual plaintiffs on behalf of children born with Neonatal Abstinence Syndrome (NAS); hospitals; and health insurers/payers.

To date, the Company and JPI have litigated two of the cases to judgment and have prevailed in both, either at trial or on appeal.

In July 2021, the Company announced finalization of an agreement to settle all remaining state and subdivision claims for up to \$5.0 billion. Approximately 60% of the all-in settlement was paid by the end of fiscal first quarter 2024, and will increase to approximately 75% by fiscal year end 2024.

The Company and JPI continue to defend the cases brought by the remaining government entity litigants as well as the cases brought by private litigants, including NAS claimants, hospitals, and health insurers/payors. Counting the private litigant cases, there are approximately 35 remaining opioid cases against the Company and JPI in various state courts, 435 remaining cases in the Ohio MDL, and 4 additional cases in other federal courts. Some of these cases have been dismissed and are being appealed by the plaintiffs and certain others are scheduled for trial in 2024, 2025, or 2026.

In addition, the Province of British Columbia filed suit against the Company and its Canadian affiliate Janssen Inc., and many other industry members, in Canada, and is seeking to have that action certified as an opt in class action on behalf of other provincial/territorial and the federal governments in Canada. Additional proposed class actions have been filed in Canada against the Company and Janssen Inc., and many other industry members, by and on behalf of people who used opioids (for personal injuries), municipalities and First Nations bands. These actions allege a variety of claims related to opioid marketing practices, including false advertising, unfair competition, public nuisance, consumer fraud violations, deceptive acts and practices, false claims and unjust enrichment. An adverse judgment in any of these lawsuits could result in the imposition of large monetary penalties and significant damages including, punitive damages, cost of abatement, substantial fines, equitable remedies and other sanctions.

In November 2019, a shareholder filed a derivative complaint against the Company as the nominal defendant and certain current and former directors and officers as defendants in the Superior Court of New Jersey. The complaint alleges breaches of fiduciary duties related to the marketing of opioids, and that the Company has suffered damages as a result of those alleged breaches. A series of additional derivative complaints making similar allegations against the same and similar defendants were filed in New Jersey state and federal courts in 2019 and 2020. By 2022, all but two state court cases had been voluntarily dismissed. In February 2022, the state court granted the Company's motion to dismiss one of the two cases, and the shareholder that brought the second case filed a notice of dismissal. The shareholder whose complaint was dismissed appealed the state court's dismissal order, and briefing on the appeal concluded in October 2022. In February 2024, the appellate court affirmed the dismissal of the shareholder's amended complaint. In March 2024, the shareholder filed a notice of petition for certification with the Supreme Court of New Jersey seeking review of the appellate court's decision.

Product liability

The Company and certain of its subsidiaries are involved in numerous product liability claims and lawsuits involving multiple products. Claimants in these cases seek substantial compensatory and, where available, punitive damages. While the Company believes it has substantial defenses, it is not feasible to predict the ultimate outcome of litigation. From time to time, even if it has substantial defenses, the Company considers isolated settlements based on a variety of circumstances. The Company has accrued for these matters and will continue to monitor each related legal issue and adjust accruals as might be warranted based on new information and further developments in accordance with ASC 450-20-25, Contingencies. The Company accrues an estimate of the legal defense costs needed to defend each matter when those costs are probable and can be reasonably estimated. For certain of these matters, the Company has accrued additional amounts such as estimated costs associated with settlements, damages and other losses. Product liability accruals can represent projected product liability for thousands of claims around the world, each in different litigation environments and with different fact patterns. Changes to the accruals may be required in the future as additional information becomes available.

The table below contains the most significant of these cases and provides the approximate number of plaintiffs in the United States with direct claims in pending lawsuits regarding injuries allegedly due to the relevant product or product category as of March 31, 2024:

Product or product category	Number of plaintiffs
Body powders containing talc, primarily JOHNSON'S Baby Powder	61,490
DePuy ASR XL Acetabular System and DePuy ASR Hip Resurfacing System	160
PINNACLE Acetabular Cup System	920
Pelvic meshes	6,440
ETHICON PHYSIOMESH Flexible Composite Mesh	230
RISPERDAL	50
ELMIRON	2,150

The number of pending lawsuits is expected to fluctuate as certain lawsuits are settled or dismissed and additional lawsuits are filed. There may be additional claims that have not yet been filed.

MedTech

DePuy ASR XL acetabular system and ASR Hip resurfacing system

In August 2010, DePuy Orthopaedics, Inc. (DePuy) announced a worldwide voluntary recall of its ASR XL Acetabular System and DePuy ASR Hip Resurfacing System (ASR Hip) used in hip replacement surgery. Claims for personal injury have been made against DePuy and the Company. Cases filed in federal courts in the United States have been organized as a multi-district litigation in the United States District Court for the Northern District of Ohio. Litigation has also been filed in countries outside of the United States, primarily in the United Kingdom, Canada, Australia, Ireland, Germany, India and Italy. In November 2013, DePuy reached an agreement with a Court-appointed committee of lawyers representing ASR Hip plaintiffs to establish a program to settle claims with eligible ASR Hip patients in the United States who had surgery to replace their ASR Hips, known as revision surgery, as of August 2013. DePuy reached additional agreements in February 2015 and March 2017, which further extended the settlement program to include ASR Hip patients who had revision surgeries after August 2013 and prior to February 15, 2017. This settlement program has resolved more than 10,000 claims, thereby bringing to resolution significant ASR Hip litigation activity in the United States. However, lawsuits in the United States remain, and the settlement program does not address litigation outside of the United States. In Australia, a class action settlement was reached that resolved the claims of the majority of ASR Hip patients in that country. In Canada, the Company has reached agreements to settle the class actions filed in that country. The Company continues to receive information with respect to potential additional costs associated with this recall on a worldwide basis. The Company has established accruals for the costs associated with the United States settlement program and ASR Hip-related product liability litigation.

DePuy PINNACLE Acetabular Cup System

Claims for personal injury have also been made against DePuy Orthopaedics, Inc. and the Company (collectively, DePuy) relating to the PINNACLE Acetabular Cup System used in hip replacement surgery. Product liability lawsuits continue to be filed, and the Company continues to receive information with respect to potential costs and the anticipated number of cases. Most cases filed in federal courts in the United States have been organized as a multi-district litigation in the United States District Court for the Northern District of Texas (Texas MDL). Beginning on June 1, 2022, the Judicial Panel on Multidistrict Litigation ceased transfer of new cases into the Texas MDL, and there are now cases pending in federal court outside the Texas MDL. Litigation also has been filed in state courts and in countries outside of the United States. During the first quarter of 2019, DePuy established a United States settlement program to resolve these cases. As part of the settlement program, adverse verdicts have been settled. The Company has established an accrual for product liability litigation associated with the PINNACLE Acetabular Cup System and the related settlement program.

Ethicon Pelvic Mesh

Claims for personal injury have been made against Ethicon, Inc. (Ethicon) and the Company arising out of Ethicon's pelvic mesh devices used to treat stress urinary incontinence and pelvic organ prolapse. The Company continues to receive information with respect to potential costs and additional cases. Cases filed in federal courts in the United States had been organized as a multi-district litigation (MDL) in the United States District Court for the Southern District of West Virginia. In March 2021, the MDL Court entered an order closing the MDL. The MDL Court has remanded cases for trial to the jurisdictions where the case was originally filed and additional pelvic mesh lawsuits have been filed, and remain, outside of the MDL. The Company has settled or otherwise resolved the majority of the United States cases and the estimated costs associated with these settlements and the remaining cases are reflected in the Company's accruals. In addition, class actions and individual personal injury cases or claims seeking damages for alleged injury resulting from Ethicon's pelvic mesh devices have been commenced in various countries outside of the United States, including claims and cases in the United Kingdom, the Netherlands, Belgium, France, Ireland, Italy, Spain and Slovenia and class actions in Israel, Australia, Canada and South Africa. The vast majority of these actions are now resolved. The Company has established accruals with respect to product liability litigation associated with Ethicon's pelvic mesh products.

Ethicon Physiomesb

Following a June 2016 worldwide market withdrawal of Ethicon Physiomesb Flexible Composite Mesh (Physiomesb), claims for personal injury have been made against Ethicon, Inc. (Ethicon) and the Company alleging personal injury arising out of the use of this hernia mesh device. Cases filed in federal courts in the United States have been organized as a multi-district litigation (MDL) in the United States District Court for the Northern District of Georgia. A multi-county litigation (MCL) also has been formed in New Jersey state court and assigned to Atlantic County for cases pending in New Jersey. In addition to the matters in the MDL and MCL, there are additional lawsuits pending in the United States District Court for the Southern District of Ohio, which are part of the MDL for polypropylene mesh devices manufactured by C.R. Bard, Inc., and lawsuits pending in two New Jersey MCLs formed for Proceed/Proceed Ventral Patch and Prolene Hernia systems, and lawsuits pending outside the United States. In May 2021, Ethicon

and lead counsel for the plaintiffs entered into a term sheet to resolve approximately 3,600 Physiomes mesh cases (covering approximately 4,300 plaintiffs) pending in the MDL and MCL at that time. A master settlement agreement (MSA) was entered into in September 2021 and includes 3,729 cases in the MDL and MCL. Other than a small number of cases still pending in the MDL, all Physiomes mesh matters in the United States have been resolved or are undergoing formal review for purposes of settlement.

Claims have also been filed against Ethicon and the Company alleging personal injuries arising from the PROCEED Mesh and PROCEED Ventral Patch hernia mesh products. In March 2019, the New Jersey Supreme Court entered an order consolidating these cases pending in New Jersey as an MCL in Atlantic County Superior Court. Additional cases have been filed in various federal and state courts in the United States, and in jurisdictions outside the United States.

Ethicon and the Company also have been subject to claims for personal injuries arising from the PROLENE Polypropylene Hernia System. In January 2020, the New Jersey Supreme Court created an MCL in Atlantic County Superior Court to handle such cases. Cases involving this product have also been filed in other federal and state courts in the United States.

In October 2022, an agreement in principle, subject to various conditions, was reached to settle the majority of the pending cases involving Proceed, Proceed Ventral Patch, Prolene Hernia System and related multi-layered mesh products, as well as a number of unfiled claims. All litigation activities in the two New Jersey MCLs are stayed pending effectuation of the proposed settlement. Future cases that are filed in the New Jersey MCLs will be subject to docket control orders requiring early expert reports and discovery requirements.

The Company has established accruals with respect to product liability litigation associated with Ethicon Physiomes Flexible Composite Mesh, PROCEED Mesh and PROCEED Ventral Patch, and PROLENE Polypropylene Hernia System products.

Innovative Medicine

RISPERDAL

Claims for personal injury have been made against Janssen Pharmaceuticals, Inc. and the Company arising out of the use of RISPERDAL, and related compounds, indicated for the treatment of schizophrenia, acute manic or mixed episodes associated with bipolar I disorder and irritability associated with autism. Lawsuits primarily have been filed in state courts in Pennsylvania, California, and Missouri. Other actions are pending in various courts in the United States and Canada. The Company continues to defend RISPERDAL product liability lawsuits, and continues to evaluate potential costs related to those claims. The Company has successfully defended a number of these cases but there have been verdicts against the Company, including a verdict in October 2019 of \$8.0 billion of punitive damages related to one plaintiff, which the trial judge reduced to \$6.8 million in January 2020. In September 2021, the Company entered into a settlement in principle with the counsel representing plaintiffs in this matter and in substantially all of the outstanding cases in the United States. The costs associated with this and other settlements are reflected in the Company's accruals.

ELMIRON

Claims for personal injury have been made against a number of Johnson & Johnson companies, including Janssen Pharmaceuticals, Inc. and the Company, arising out of the use of ELMIRON, a prescription medication indicated for the relief of bladder pain or discomfort associated with interstitial cystitis. These lawsuits, which allege that ELMIRON contributes to the development of permanent retinal injury and vision loss, have been filed in both state and federal courts across the United States. In December 2020, lawsuits filed in federal courts in the United States, including putative class action cases seeking medical monitoring, were organized as a multi-district litigation in the United States District Court for the District of New Jersey (MDL). In addition, cases have been filed in various state courts of New Jersey, which have been coordinated in a multi-county litigation in Bergen County, as well as the Court of Common Pleas in Philadelphia, which have been coordinated and granted mass tort designation. In addition, three class action lawsuits have been filed in Canada. The Company continues to defend ELMIRON product liability lawsuits and continues to evaluate potential costs related to those claims. Other than a small number of cases in the MDL filed by one law firm, all U.S. based ELMIRON matters have been resolved or are undergoing formal review for purposes of settlement. The Company has established accruals for defense and indemnity costs associated with ELMIRON related product liability litigation.

Intellectual Property

Certain subsidiaries of the Company are subject, from time to time, to legal proceedings and claims related to patent, trademark and other intellectual property matters arising out of their businesses. Many of these matters involve challenges to the scope and/or validity of patents that relate to various products and allegations that certain of the Company's products infringe the intellectual property rights of third parties. Although these subsidiaries believe that they have substantial defenses to these challenges and allegations with respect to all significant patents, there can be no assurance as to the outcome of these matters. A loss in any of these cases could adversely affect the ability of these subsidiaries to sell their products, result in loss of sales due to loss of market

exclusivity, require the payment of past damages and future royalties, and may result in a non-cash impairment charge for any associated intangible asset.

Innovative Medicine - litigation against filers of abbreviated new drug applications (ANDAs)

The Company's subsidiaries have brought lawsuits against generic companies that have filed ANDAs with the U.S. FDA (or similar lawsuits outside of the United States) seeking to market generic versions of products sold by various subsidiaries of the Company prior to expiration of the applicable patents covering those products. These lawsuits typically include allegations of non-infringement and/or invalidity of patents listed in FDA's publication "Approved Drug Products with Therapeutic Equivalence Evaluations" (commonly known as the Orange Book). In each of these lawsuits, the Company's subsidiaries are seeking an order enjoining the defendant from marketing a generic version of a product before the expiration of the relevant patents (Orange Book Listed Patents). In the event the Company's subsidiaries are not successful in an action, or any automatic statutory stay expires before the court rulings are obtained, the generic companies involved would have the ability, upon regulatory approval, to introduce generic versions of their products to the market, resulting in the potential for substantial market share and revenue losses for the applicable products, and which may result in a non-cash impairment charge in any associated intangible asset. In addition, from time to time, the Company's subsidiaries may settle these types of actions and such settlements can involve the introduction of generic versions of the products at issue to the market prior to the expiration of the relevant patents.

The Inter Partes Review (IPR) process with the United States Patent and Trademark Office (USPTO), created under the 2011 America Invents Act, is also being used at times by generic companies in conjunction with ANDAs and lawsuits to challenge the applicable patents.

XARELTO

Beginning in March 2021, Janssen Pharmaceuticals, Inc.; Bayer Pharma AG; Bayer AG; and Bayer Intellectual Property GmbH filed patent infringement lawsuits in United States district courts against generic manufacturers who have filed ANDAs seeking approval to market generic versions of XARELTO before expiration of certain Orange Book Listed Patents. The following entities are named defendants: Dr. Reddy's Laboratories, Inc.; Dr. Reddy's Laboratories, Ltd.; Lupin Limited; Lupin Pharmaceuticals, Inc.; Taro Pharmaceutical Industries Ltd.; Taro Pharmaceuticals U.S.A., Inc.; Teva Pharmaceuticals USA, Inc.; Mylan Pharmaceuticals Inc.; Mylan Inc.; Mankind Pharma Limited; Apotex Inc.; Apotex Corp.; Auson Pharmaceuticals Inc.; Auson Pharmaceuticals Co. Ltd.; Macleods Pharmaceuticals Ltd; Macleods Pharma USA, Inc.; Indoco Remedies Limited; FPP Holding Company LLC; Umedica Laboratories Pvt. Ltd.; Aurobindo Pharma Limited; Aurobindo Pharma USA, Inc.; Cipla Ltd.; Cipla USA Inc.; InvaGen Pharmaceuticals, Inc.; and Princeton Pharmaceuticals, Inc. The following U.S. patents are included in one or more cases: 9,539,218 and 10,828,310. In January 2024, the Company entered into a confidential settlement agreement with Macleods Pharmaceuticals Ltd. and Macleods Pharma USA, Inc. In February 2024, the Company entered into confidential settlement agreements with Apotex Inc. and Apotex Corp. (as to U.S. Patent No. 9,539,218), as well as Indoco Remedies Limited and FPP Holding Company LLC. In March 2024, the Company entered into confidential settlement agreements with Umedica Laboratories Pvt. Ltd.

U.S. Patent No. 10,828,310 was also under consideration by the USPTO in an IPR proceeding. In July 2023, the USPTO issued a final written decision finding the claims of the patent invalid. In September 2023, Bayer Pharma AG filed an appeal to the U.S. Court of Appeals for the Federal Circuit.

OPSUMIT

Beginning in January 2023 Actelion Pharmaceuticals Ltd and Actelion Pharmaceuticals US, Inc. filed patent infringement lawsuits in United States district courts against generic manufacturers who have filed ANDAs seeking approval to market generic versions of OPSUMIT before expiration of certain Orange Book Listed Patents. The following entities are named defendants: Mylan Pharmaceuticals Inc.; Torrent Pharmaceuticals Ltd.; and Torrent Pharma Inc. The following U.S. patents are included in one or more cases: 7,094,781; and 10,946,015.

INVEGA SUSTENNA

Beginning in January 2018, Janssen Pharmaceutica NV and Janssen Pharmaceuticals, Inc. filed patent infringement lawsuits in United States district courts against generic manufacturers who have filed ANDAs seeking approval to market generic versions of INVEGA SUSTENNA before expiration of the Orange Book Listed Patent. The following entities are named defendants: Teva Pharmaceuticals USA, Inc.; Mylan Laboratories Limited; Pharmascience Inc.; Mallinckrodt PLC; Specgx LLC; Tolmar, Inc.; and Accord Healthcare, Inc. The following U.S. patent is included in one or more cases: 9,439,906.

Beginning in February 2018, Janssen Inc. and Janssen Pharmaceutica NV initiated a Statement of Claim under Section 6 of the Patented Medicines (Notice of Compliance) Regulations against generic manufacturers who have filed ANDAs seeking approval to market generic versions of INVEGA SUSTENNA before expiration of the listed patent. The following entities are named defendants: Pharmascience Inc. and Apotex Inc. The following Canadian patent is included in one or more cases: 2,655,335.

INVEGA TRINZA

Beginning in September 2020, Janssen Pharmaceuticals, Inc., Janssen Pharmaceutica NV, and Janssen Research & Development, LLC filed patent infringement lawsuits in United States district courts against generic manufacturers who have filed ANDAs seeking approval to market generic versions of INVEGA TRINZA before expiration of the Orange Book Listed Patent. The following entities are named defendants: Mylan Laboratories Limited; Mylan Pharmaceuticals Inc.; and Mylan Institutional LLC. The following U.S. patent is included in one or more cases: 10,143,693. In May 2023, the District Court issued a decision finding that Mylan's proposed generic product infringes the asserted patent and that the patent is not invalid. Mylan has appealed the verdict.

SYM TUZA

Beginning in November 2021, Janssen Products, L.P., Janssen Sciences Ireland Unlimited Company, Gilead Sciences, Inc. and Gilead Sciences Ireland UC filed patent infringement lawsuits in United States district courts against generic manufacturers who have filed ANDAs seeking approval to market generic versions of SYM TUZA before expiration of certain Orange Book Listed Patents. The following entities are named defendants: Lupin Limited; Lupin Pharmaceuticals, Inc.; MSN Laboratories Private Ltd.; MSN Life Sciences Private Ltd.; MSN Pharmaceuticals Inc.; Apotex Inc.; and Apotex Corp. The following U.S. patents are included in one or more cases: 10,039,718 and 10,786,518.

ERLEADA

Beginning in May 2022, Aragon Pharmaceuticals, Inc., Janssen Biotech, Inc. (collectively, Janssen), Sloan Kettering Institute for Cancer Research (SKI) and The Regents of the University of California filed patent infringement lawsuits in United States district courts against generic manufacturers who have filed ANDAs seeking approval to market generic versions of ERLEADA before expiration of certain Orange Book Listed Patents. The following entities are named defendants: Zydus Worldwide DMCC; Zydus Pharmaceuticals (USA), Inc.; Zydus Lifesciences Limited; Sandoz Inc.; Eugia Pharma Specialities Limited; Aurobindo Pharma USA, Inc.; Auromedics Pharma LLC; Hetero Labs Limited Unit V; and Hetero USA, Inc. The following U.S. patents are included in one or more cases: 9,481,663; 9,884,054; 10,052,314 (which reissued as RE49,353); 10,702,508; 10,849,888; 8,445,507; 8,802,689; 9,388,159; 9,987,261; and RE49,353.

UPTRAVI

Beginning in November 2022, Actelion Pharmaceuticals US Inc., Actelion Pharmaceuticals Ltd and Nippon Shinyaku Co., Ltd. filed patent infringement lawsuits in United States district courts against generic manufacturers who have filed ANDAs seeking approval to market generic versions of UPTRAVI intravenous before expiration of certain Orange Book Listed Patents. The following entities are named defendants: Lupin Ltd.; Lupin Pharmaceuticals, Inc.; Cipla Limited; Cipla USA Inc.; MSN Laboratories Private Ltd.; and MSN Pharmaceuticals Inc. The following U.S. patents are included in one or more cases: 8,791,122 and 9,284,280. In February 2024, the Company entered into a confidential settlement agreement with Lupin Ltd. and Lupin Pharmaceuticals, Inc.

SPRAVATO

Beginning in May 2023, Janssen Pharmaceuticals, Inc. and Janssen Pharmaceutica NV filed patent infringement lawsuits in United States district courts against generic manufacturers who have filed ANDAs seeking approval to market generic versions of SPRAVATO before expiration of certain Orange Book Listed Patents. The following entities are named defendants: Sandoz Inc.; Hikma Pharmaceuticals Inc. USA; Hikma Pharmaceuticals PLC; and Alkem Laboratories Ltd. The following U.S. patents are included in one or more cases: 10,869,844; 11,173,134; 11,311,500; and 11,446,260.

STELARA

In November 2023, Biocon Biologics Inc. filed a Petition for Inter Partes Review (IPR) with the USPTO seeking review of U.S. Patent No. 10,961,307 related to methods of treating ulcerative colitis with ustekinumab. In February 2024, the parties entered into a confidential settlement agreement, and the IPR was terminated.

INVOKANA

Beginning in January 2024, Janssen Inc. and Mitsubishi Tanabe Pharma Corporation initiated Statements of Claim under Section 6 of the Patented Medicines (Notice of Compliance) Regulations against a generic manufacturer who filed an ANDS seeking approval to market generic versions of INVOKANA before expiration of the listed patents. The following entity is a named defendant: Jamp Pharma Corporation. The following Canadian patents are included in one or more cases: 2,534,024 and 2,671,357.

MedTech

In March 2016, Abiomed, Inc. (Abiomed) filed a declaratory judgment action against Maquet Cardiovascular LLC (Maquet) in U.S. District Court for the District of Massachusetts seeking a declaration that the Impella does not infringe certain Maquet patents, currently U.S. Patent Nos. 7,022,100 ('100); 8,888,728; 9,327,068; 9,545,468; 9,561,314; and 9,597,437. Maquet counterclaimed for infringement of each of those patents. After claim construction, Maquet alleged infringement of only the '100 patent. In

September 2021, the court granted Abiomed's motion for summary judgment of non-infringement of the '100 patent, and in September 2023, the district court entered final judgment in favor of Abiomed on all patents-in-suit. Maquet appealed.

Government proceedings

Like other companies in the pharmaceutical and medical technologies industries, the Company and certain of its subsidiaries are subject to extensive regulation by national, state and local government agencies in the United States and other countries in which they operate. Such regulation has been the basis of government investigations and litigations. The most significant litigation brought by, and investigations conducted by, government agencies are listed below. It is possible that criminal charges and substantial fines and/or civil penalties or damages could result from government investigations or litigation.

MedTech

In July 2018, the Public Prosecution Service in Rio de Janeiro and representatives from the Brazilian antitrust authority CADE inspected the offices of more than 30 companies including Johnson & Johnson do Brasil Indústria e Comércio de Produtos para Saúde Ltda. The authorities appear to be investigating allegations of possible anti-competitive behavior and possible improper payments in the medical device industry. The Company continues to respond to inquiries regarding the Foreign Corrupt Practices Act from the United States Department of Justice and the United States Securities and Exchange Commission.

In July 2023, the U.S. Department of Justice (DOJ) issued Civil Investigative Demands to the Company, Johnson & Johnson Surgical Vision, Inc., and Johnson & Johnson Vision Care, Inc. (collectively, J&J Vision) in connection with a civil investigation under the False Claims Act relating to free or discounted intraocular lenses and equipment used in eye surgery, such as phacoemulsification and laser systems. J&J Vision has begun producing documents and information responsive to the Civil Investigative Demands. J&J Vision is in ongoing discussions with the DOJ regarding its inquiry.

Innovative Medicine

In July 2016, the Company and Janssen Products, LP were served with a qui tam complaint pursuant to the False Claims Act filed in the United States District Court for the District of New Jersey alleging the off-label promotion of two HIV products, PREZISTA and INTELENCE, and anti-kickback violations in connection with the promotion of these products. The complaint was filed under seal in December 2012. The federal and state governments have declined to intervene, and the lawsuit is being prosecuted by the relators. The Court denied summary judgment on all claims in December 2021. Daubert motions were granted in part and denied in part in January 2022, and the case is proceeding to trial. Trial is scheduled for May 2024.

In March 2017, Janssen Biotech, Inc. (JBI) received a Civil Investigative Demand from the United States Department of Justice regarding a False Claims Act investigation concerning management and advisory services provided to rheumatology and gastroenterology practices that purchased REMCADE or SIMPONI ARIA. In August 2019, the United States Department of Justice notified JBI that it was closing the investigation. Subsequently, the United States District Court for the District of Massachusetts unsealed a qui tam False Claims Act complaint, which was served on the Company. The Department of Justice had declined to intervene in the qui tam lawsuit in August 2019. The Company filed a motion to dismiss, which was granted in part and denied in part. Discovery is underway.

From time to time, the Company has received requests from a variety of United States Congressional Committees to produce information relevant to ongoing congressional inquiries. It is the policy of Johnson & Johnson to cooperate with these inquiries by producing the requested information.

General litigation

The Company or its subsidiaries are also parties to various proceedings brought under the Comprehensive Environmental Response, Compensation, and Liability Act, commonly known as Superfund, and comparable state, local or foreign laws in which the primary relief sought is the Company's agreement to implement remediation activities at designated hazardous waste sites or to reimburse the government or third parties for the costs they have incurred in performing remediation as such sites.

In October 2017, certain United States service members and their families brought a complaint against a number of pharmaceutical and medical devices companies, including Johnson & Johnson and certain of its subsidiaries in United States District Court for the District of Columbia, alleging that the defendants violated the United States Anti-Terrorism Act. The complaint alleges that the defendants provided funding for terrorist organizations through their sales practices pursuant to pharmaceutical and medical device contracts with the Iraqi Ministry of Health. In July 2020, the District Court dismissed the complaint. In January 2022, the United States Court of Appeals for the District of Columbia Circuit reversed the District Court's decision. In June 2023, defendants filed a petition for a writ of certiorari to the United States Supreme Court.

In February 2024, a putative class action was filed against the Company, the Pension & Benefits Committee of Johnson & Johnson, and certain named officers and employees, in United States District Court for the District of New Jersey. The complaint alleges that defendants breached fiduciary duties under the Employee Retirement Income Security Act (ERISA) by allegedly mismanaging the Company's prescription-drug benefits program. The complaint seeks damages and other relief.

MedTech

In October 2020, Fortis Advisors LLC (Fortis), in its capacity as representative of the former stockholders of Auris Health Inc. (Auris), filed a complaint against the Company, Ethicon Inc., and certain named officers and employees (collectively, Ethicon) in the Court of Chancery of the State of Delaware. The complaint alleges breach of contract, fraud, and other causes of action against Ethicon in connection with Ethicon's acquisition of Auris in 2019. The complaint seeks damages and other relief. In December 2021, the Court granted in part and denied in part defendants' motion to dismiss certain causes of action. All claims against the individual defendants were dismissed. The trial was held in January 2024 and the decision is pending.

Innovative Medicine

In June 2019, the United States Federal Trade Commission (FTC) issued a Civil Investigative Demand to the Company and Janssen Biotech, Inc. (collectively, Janssen) in connection with its investigation of whether Janssen's REMICADE contracting practices violate federal antitrust laws. The Company has produced documents and information responsive to the Civil Investigative Demand. Janssen is in ongoing discussions with the FTC staff regarding its inquiry.

In February 2022, the United States Federal Trade Commission (FTC) issued Civil Investigative Demands to Johnson & Johnson and Janssen Biotech, Inc. (collectively, Janssen) in connection with its investigation of whether advertising practices for REMICADE violate federal law. Janssen has produced documents and information responsive to the Civil Investigative Demands. Janssen is in ongoing discussions with the FTC staff regarding the inquiry.

In October 2018, two separate putative class actions were filed against Actelion Pharmaceutical Ltd., Actelion Pharmaceuticals U.S., Inc., and Actelion Clinical Research, Inc. (collectively Actelion) in United States District Court for the District of Maryland and United States District Court for the District of Columbia. The complaints allege that Actelion violated state and federal antitrust and unfair competition laws by allegedly refusing to supply generic pharmaceutical manufacturers with samples of TRACLEER. TRACLEER is subject to a Risk Evaluation and Mitigation Strategy required by the U.S. Food and Drug Administration, which imposes restrictions on distribution of the product. In January 2019, the plaintiffs dismissed the District of Columbia case and filed a consolidated complaint in the United States District Court for the District of Maryland. In September 2019, the district court granted Actelion's motion to dismiss the complaint. In April 2024, the Fourth Circuit reversed the decision of the district court. Plaintiff's motion for class certification and Actelion's motion for summary judgment currently are pending before the district court.

In December 2023, a putative class action lawsuit was filed against the Company and Janssen Biotech Inc. (collectively Janssen) in the United States District Court for the Eastern District of Virginia. The complaint alleges that Janssen violated federal and state antitrust laws and other state laws by delaying biosimilar competition with STELARA through Janssen's enforcement of patent rights covering STELARA. The complaint seeks damages and other relief. In March 2024, Janssen filed a motion to dismiss the complaint.

In June 2022, Janssen Pharmaceuticals, Inc. filed a Demand for Arbitration against Emergent Biosolutions Inc. et al (EBSI) with the American Arbitration Association, alleging that EBSI breached the parties' Manufacturing Services Agreement for the Company's COVID-19 vaccine. In July 2022, Emergent filed its answering statement and counterclaims. The hearing is scheduled for July 2024.

Note 12 — Restructuring

In fiscal 2023, the Company completed a prioritization of its research and development (R&D) investment within its Innovative Medicine segment to focus on the most promising medicines with the greatest benefit to patients. This resulted in the exit of certain programs within certain therapeutic areas. The R&D program exits are primarily in infectious diseases and vaccines including the discontinuation of its respiratory syncytial virus (RSV) adult vaccine program, hepatitis and HIV development. Pre-tax Restructuring expenses of \$144 million in the fiscal first quarter of 2024, included the termination of partnered and non-partnered development program costs and asset impairments. The pre-tax restructuring charge of approximately \$0.1 billion in the fiscal first quarter of 2023 included the termination of partnered and non-partnered program costs and asset impairments. Total project costs of approximately \$0.6 billion have been recorded since the restructuring was announced. The majority of the restructuring is completed, with minor charges expected in the remainder of year.

In fiscal 2023, the Company initiated a restructuring program of its Orthopaedics franchise within its MedTech segment to streamline operations by exiting certain markets, product lines and distribution network arrangements. The pre-tax restructuring expense of \$27 million in the fiscal first quarter of 2024, primarily included costs related to market and product exits. Total project costs of approximately \$0.3 billion have been recorded since the restructuring was announced. The estimated costs of the total program are between \$0.7 billion - \$0.8 billion and is expected to be completed by the end of fiscal year 2025.

The following table summarizes the restructuring expenses for 2024:

(Pre-tax Dollars in Millions)	Fiscal First Quarter Ended
Innovative Medicine Segment ⁽¹⁾	\$144
MedTech Segment ⁽²⁾	27
Total Programs	\$171

⁽¹⁾ Included in Restructuring on the Consolidated Statement of Earnings

⁽²⁾ Included \$20 million in Restructuring and \$7 million in Cost of products sold on the Consolidated Statement of Earnings

Restructuring reserves as of March 31, 2024 and December 31, 2023 were insignificant.

Note 13— Kenvue separation

The results of the Consumer Health business (previously reported as a separate business segment) have been reflected as discontinued operations in the Company's consolidated statements of earnings as Net earnings from discontinued operations, net of taxes through August 23, 2023, the date of the exchange offer. Prior periods have been recast to reflect this presentation.

Details of Net Earnings from Discontinued Operations, net of taxes are as follows:

(Dollars in Millions)	Fiscal First Quarter Ended
	April 2, 2023
Sales to customers	\$3,852
Cost of products sold	1,708
Gross profit	2,144
Selling, marketing and administrative expenses	1,232
Research and development expense	108
Interest Income	(37)
Interest expense, net of portion capitalized	3
Other (income) expense, net	288
Earnings from Discontinued Operations Before Provision for Taxes on Income	550
Provision for taxes on income	127
Net earnings from Discontinued Operations	\$423

The following table presents depreciation, amortization and capital expenditures of the discontinued operations related to Kenvue:

(Dollars in Millions)	Fiscal First Quarter Ended
	April 2, 2023
Depreciation and Amortization	\$153
Capital expenditures	\$47

Item 2 — Management’s discussion and analysis of financial condition and results of operations

Results of operations

Sales to customers

Analysis of consolidated sales

For the fiscal first quarter of 2024, worldwide sales were \$21.4 billion, a total increase of 2.3%, which included operational growth of 3.9% and a negative currency impact of 1.6% as compared to 2023 fiscal first quarter sales of \$20.9 billion. In the fiscal first quarter of 2024, the net impact of acquisitions and divestitures on worldwide operational sales growth was a negative 0.1%. In the fiscal first quarter of 2024, the impact of the Covid-19 Vaccine sales decline on the worldwide operational sales was a negative 3.7%

Sales by U.S. companies were \$11.6 billion in the fiscal first quarter of 2024, which represented an increase of 7.8% as compared to the prior year. In the fiscal first quarter of 2024, the net impact of acquisitions and divestitures on the U.S. operational sales growth was a negative 0.1%. Sales by international companies were \$9.8 billion, a total decrease of 3.4%, which included an operational decline of 0.3% and a negative currency impact of 3.1%. In the fiscal first quarter of 2024, acquisitions and divestitures had no impact on international operational sales. In the fiscal first quarter of 2024, the impact of the Covid-19 Vaccine sales decline on the international operational sales was a negative 7.7%

In the fiscal first quarter of 2024, sales by companies in Europe experienced a decline of 7.6%, which included an operational decline of 7.7% and a positive currency impact of 0.1%. In the fiscal first quarter of 2024, the impact of the Covid-19 Vaccine sales decline on the European region operational sales was a negative 13.7%. Sales by companies in the Western Hemisphere, excluding the U.S., achieved growth of 11.0%, including operational growth of 21.3% and a negative currency impact of 10.3%. Sales by companies in the Asia-Pacific, Africa region experienced a decline of 1.1%, which included operational growth of 5.0% offset by a negative currency impact of 6.1%.

Q1 2024
Sales by Geographic Region (in billions)

Q1 2024
Sales by Segment (in billions)

Note: values may have been rounded

Analysis of sales by business segments

Innovative Medicine

Innovative Medicine segment sales in the fiscal first quarter of 2024 were \$13.6 billion, an increase of 1.1% as compared to the same period a year ago, including an operational increase of 2.5% and a negative currency impact of 1.4%. In the fiscal first quarter of 2024, the impact of the Covid-19 Vaccine sales decline on the Innovative Medicine segment operational sales was a negative 5.8%. U.S. Innovative Medicine sales increased 8.4% as compared to the same period a year ago. International Innovative Medicine sales decreased by 6.9%, including an operational decline of 4.0% and a negative currency impact of 2.9%. In the fiscal first quarter of 2024, the impact of the Covid-19 Vaccine sales decline on the international Innovative Medicine operational sales was a negative 12.3%. In the fiscal first quarter of 2024, acquisitions and divestitures had no impact on the Innovative Medicine segment operational sales growth.

Major Innovative Medicine therapeutic area sales — Fiscal First Quarter Ended

(Dollars in Millions)	March 31, 2024	April 2, 2023	Total Change	Operations Change	Currency Change

⁽¹⁾ Previously in Other Oncology

Immunology products achieved operational growth of 4.6% as compared to the same period a year ago. Sales of STELARA (ustekinumab) were driven by market growth and share gains in Inflammatory Bowel Disease partially offset by unfavorable patient mix. Growth of TREMFYA (guselkumab) was due to market growth and share gains. Additionally, SIMPONI/SIMPONI ARIA growth was driven by growth outside the U.S. Lower sales of REMICADE (infliximab) were due to biosimilar competition.

Sales of STELARA in the United States were approximately \$7.0 billion in fiscal 2023. Third parties have filed abbreviated Biologics License Applications with the FDA seeking approval to market biosimilar versions of STELARA. The Company has settled certain litigation under the Biosimilar Price Competition and Innovation Act of 2009. As a result of these settlements and other agreements with separate third parties, the Company does not anticipate the launch of a biosimilar version of STELARA until January 1, 2025 in the United States. The latest expiring European composition of matter patent (Supplementary Protection Certificate) expires in 2024 in most European Union Member States and the United Kingdom.

Biosimilar versions of REMICADE have been introduced in the United States and certain markets outside the United States and additional competitors continue to enter the market. Continued infliximab biosimilar competition will result in a further reduction in sales of REMICADE.

Infectious disease products experienced an operational decline of 48.3% as compared to the same period a year ago primarily driven by a decline in COVID-19 vaccine revenue. The Company expects an insignificant amount of COVID-19 vaccine revenue in fiscal 2024.

Neuroscience products achieved operational sales growth of 2.2% as compared to the same period a year ago. The growth of SPRAVATO (esketamine) was driven by increased physician and patient demand. Growth was partially offset by declines in RISPERDAL CONSTA.

Oncology products achieved operational sales growth of 18.8% as compared to the same period a year ago. Strong sales of DARZALEX (daratumumab) were driven by continued share gains in all regions. Growth of ERLEADA (apalutamide) was due to continued share gains and market growth. Increased sales of CARVYKT1 (ciltacabtagene autoleucel) were driven by continued share gains, capacity expansion and manufacturing efficiencies. Additionally, sales from the ongoing launch of TECVAYLI (teclistamab-cqyv) and the launch of TALVEY (talquetamab) and RYBREVANT (amivantamab) in Other Oncology contributed to the growth. Growth was partially offset by ZYTIGA (abiraterone acetate) due to loss of exclusivity and IMBRUVICA (ibrutinib) declines due to global competitive pressures.

Pulmonary Hypertension achieved operational sales growth of 22.4% as compared to the same period a year ago. Sales growth was due to favorable patient mix, market growth and share gains from UPTRAM (selexipag) and OPSUMIT (macitentan).

Cardiovascular / Metabolism / Other products experienced an operational decline of 10.5% as compared to the same period a year ago. The decline of XARELTO (rivaroxaban) sales was primarily driven by unfavorable patient mix and share loss.

The Company maintains a policy that no end customer will be permitted direct delivery of product to a location other than the billing location. This policy impacts contract pharmacy transactions involving non-grantee 340B covered entities for most of the Company's drugs, subject to multiple exceptions. Both grantee and non-grantee covered entities can maintain certain contract pharmacy arrangements under policy exceptions. The Company has been and will continue to offer 340B discounts to covered entities on all of its covered outpatient drugs, and it believes its policy will improve its ability to identify inappropriate duplicate discounts and diversion prohibited by the 340B statute. The 340B Drug Pricing Program is a U.S. federal government program requiring drug manufacturers to provide significant discounts on covered outpatient drugs to covered entities.

MedTech

The MedTech segment sales in the fiscal first quarter of 2024 were \$7.8 billion, an increase of 4.5% as compared to the same period a year ago, which included operational growth of 6.3% and a negative currency impact of 1.8%. U.S. MedTech sales increased 6.6%. International MedTech sales increased by 2.4%, including operational growth of 6.1% and a negative currency impact of 3.7%. In the fiscal first quarter of 2024, the net impact of acquisitions and divestitures on the MedTech segment operational sales growth was a negative 0.2%.

Major MedTech franchise sales — Fiscal First Quarter Ended

(Dollars in Millions)	March 31, 2024	April 2, 2023	Total Change	Operations Change	Currency Change
Surgery	\$2,416	\$2,434	(0.7) %	1.9 %	(2.6) %

Total MedTech Sales	\$7,821	\$7,481	4.5 %	6.3 %	(1.8) %

* Percentage greater than 100% or not meaningful

⁽¹⁾ Previously referred to as Interventional Solutions

The Surgery franchise achieved operational sales growth of 1.9% as compared to the prior year fiscal first quarter. The decline in Advanced Surgery was primarily driven by competitive pressures and volume-based procurement impacts in Endocutters and Energy partially offset by Biosurgery global procedure growth, strength of the portfolio and commercial execution as well as uptake of new products in Endocutters and Energy. The operational growth in General Surgery was primarily driven by increased procedures coupled with technology penetration and upgrades within the differentiated Wound Closure portfolio. The growth was partially offset by fewer selling days.

The Orthopaedics franchise achieved operational sales growth of 4.8% as compared to the prior year fiscal first quarter. The fiscal first quarter of 2024, includes a one-time revenue recognition timing change related to certain products across all Orthopaedic platforms in the U.S. which positively impacted the worldwide Orthopaedics franchise growth by approximately 3.0%. The operational growth in Hips reflects global procedure growth, continued strength of the portfolio and the aforementioned revenue recognition timing change partially offset by Russia Sanctions and one less selling day. The operational growth in Knees was primarily driven by procedures, continued strength of the ATTUNE portfolio, pull through related to the VELYS Robotic assisted solution, the aforementioned revenue recognition timing change and timing of tenders outside the U.S. partially offset by one less selling day. The operational growth in Trauma was driven by the aforementioned revenue recognition timing change and the continued adoption of recently launched products. This was partially offset by U.S. competitive challenges, one less selling day, weather-related softness in core trauma and volume-based procurement impacts. The operational growth in Spine, Sports & Other was primarily driven by growth in Digital Solutions, Craniomaxillofacial, Shoulders, and the aforementioned revenue recognition timing change partially offset by Spine competitive pressures and one less selling day.

The Cardiovascular franchise (previously referred to as Interventional Solutions) achieved operational sales growth of 22.5% as compared to the prior year fiscal first quarter. Electrophysiology grew by double digits due to global procedure growth, new product uptake, commercial execution and Asia Pacific distributor inventory dynamics partially offset by the impacts of volume-

based procurement in China and fewer selling days. Abiomed sales reflect the strength of all major commercialized regions driven by continued strong adoption of Impella 5.5 and Impella RP.

The Vision franchise experienced an operational sales decline of 1.4% as compared to the prior year fiscal first quarter. The Contact Lenses/Other operational decline was primarily driven by U.S. stocking dynamics, the impact of the Blink divestiture in the fiscal third quarter of 2023 and economic pressures in Asia Pacific partially offset by the continued strong performance in the ACUVUE OASYS 1-Day family of products (including recent launches) and price actions. The Surgical operational growth was primarily driven by the continued strength of recent innovations and commercial execution partially offset by preparation for volume-based procurement implementation in China and refractive softness in the U.S.

Analysis of consolidated earnings before provision for taxes on income

Consolidated earnings before provision for taxes on income for the fiscal first quarter of 2024 was \$3.7 billion representing 17.4% of sales as compared to a loss of \$1.3 billion in the fiscal first quarter of 2023, representing (6.2)% of sales.

Cost of products sold

(Dollars in billions. Percentages in chart are as a percent to total sales)

Q1 2024 versus Q1 2023

Cost of products sold decreased as a percent to sales primarily driven by:

- Lower one-time COVID-19 vaccine supply network related exit costs in 2024 (\$0 in 2024 versus \$0.2 billion 2023) and favorable patient mix in the Innovative Medicine business partially offset by
- Macroeconomic factors and unfavorable currency in the MedTech business

The intangible asset amortization expense included in cost of products sold for the fiscal first quarters of 2024 and 2023 was \$1.1 billion in both periods.

Selling, marketing and administrative expenses

(Dollars in billions. Percentages in chart are as a percent to total sales)

Q1 2024 versus Q1 2023

Selling, Marketing and Administrative Expenses increased as a percent to sales primarily driven by:

- Timing of brand marketing investment and administrative costs in the Innovative Medicine business

Research and development expense

Research and development expense by segment of business was as follows:

	Q1 2024		Q1 2023	
(Dollars in Millions)	Amount	% of Sales*	Amount	% of Sales*
Innovative Medicine	\$2,896	21.4 %	\$2,778	20.7 %
MedTech	646	8.3	677	9.1
Total research and development expense	\$3,542	16.6 %	\$3,455	16.6 %
Percent increase/(decrease) over the prior year	2.5 %			
*As a percent to segment sales				

Q1 2024 versus Q1 2023

Research and Development was flat as a percent to sales driven by:

- Increased investments in the Innovative Medicine business offset by
- Phasing of expenses in the MedTech business

In-process research and development (IPR&D) impairments

In the fiscal first quarter of 2023, the Company recorded a charge of approximately \$0.1 billion associated with the IPR&D acquired with Pulsar Vascular in 2016.

Interest (income) expense

Interest income in the fiscal first quarter of 2024 was \$364 million as compared to \$198 million in the fiscal first quarter of 2023 primarily due to higher rates of interest earned on cash balances. Interest expense in the fiscal first quarter of 2024 was \$155 million as compared to \$212 million in the same period a year ago primarily due to a lower average debt balance. The balance of cash, cash equivalents and current marketable securities was \$26.2 billion at the end of the fiscal first quarter of 2024 as compared to \$32.3 billion (including \$7.7 billion of restricted cash related to Kenvue) at the end of the fiscal first quarter of 2023. The Company's debt position was \$33.6 billion as of March 31, 2024, as compared to \$52.9 billion the same period a year ago (including \$7.7 billion related to Kenvue debt).

Other (income) expense, net***Q1 2024 versus Q1 2023**

Other (income) expense, net for the fiscal first quarter of 2024 reflected less expense as compared to the prior year primarily due to the following:

Fiscal First Quarter (Dollars in Billions)(Income)/Expense	March 31, 2024	April 2, 2023	Change
Acquisition, Integration and Divestiture related	\$ 0.1	—	0.1
Employee benefit plan related	(0.2)	(0.4)	0.2
Litigation related ⁽¹⁾	2.7	6.9	(4.2)
Changes in the fair value of securities	—	0.1	(0.1)
COVID-19 Vaccine manufacturing related exit costs	—	0.2	(0.2)
Other	(0.2)	0.1	(0.3)
Total Other (Income) Expense, Net	\$ 2.4	6.9	(4.5)

⁽¹⁾ The fiscal first quarters of 2024 and 2023 include charges for talc matters

* Other (income) expense, net is the account where the Company records gains and losses related to the sale and write-down of certain investments in equity securities held by Johnson & Johnson Innovation - JJDC, Inc. (JJDC), changes in the fair value of securities, gains and losses on divestitures, gains and losses on sale of assets, certain transactional currency gains and losses, acquisition-related costs, litigation accruals and settlements, investment (income)/loss related to employee benefit plans, as well as royalty income.

Earnings before provision for taxes by segment

Income (loss) before tax by segment of business for the fiscal first quarters were as follows:

(Dollars in Millions)	Income Before Tax		Segment Sales		Percent of Segment Sales	
	March 31, 2024	April 2, 2023	March 31, 2024	April 2, 2023	March 31, 2024	April 2, 2023
Innovative Medicine	\$4,969	\$4,402	\$13,562	\$13,413	36.6 %	32.8 %
MedTech	1,520	1,409	7,821	7,481	19.4	18.8
Segment earnings before tax	6,489	5,811	21,383	20,894	30.3	27.8
Less: Expenses not allocated to segments ⁽¹⁾	2,775	7,098				
Worldwide income (loss) before tax	\$3,714	\$(1,287)	\$21,383	\$20,894	17.4 %	(6.2)%

⁽¹⁾ Amounts not allocated to segments include interest (income) expense, certain litigation expenses and general corporate (income) expense. The fiscal first quarters of 2024 and 2023 include charges for talc matters of \$2.7 billion and \$6.9 billion, respectively.

Innovative Medicine segment

The Innovative Medicine segment income before tax as a percent of sales in the fiscal first quarter of 2024 was 36.6% versus 32.8% for the same period a year ago. The increase in the income before tax as a percent of sales for the fiscal first quarter of 2024 as compared to the prior year was primarily driven by the following:

- One-time COVID-19 Vaccine related exit costs of \$0.4 billion in 2023
- Favorable patient mix in Cost of products sold
partially offset by
- An increase in brand marketing investment
- Higher administrative costs
- Higher investments in research and development

MedTech segment

The MedTech segment income before tax as a percent of sales in the fiscal first quarter of 2024 was 19.4% versus 18.8% for the same period a year ago. The increase in the income before tax as a percent of sales for the fiscal first quarter of 2024 as compared to the prior year was primarily driven by the following:

- An IPR&D charge in 2023 of approximately \$0.1 billion related to the Pulsar Vascular acquisition in the fiscal year 2016
- Research and development expense phasing
partially offset by
- Macroeconomic factors and unfavorable currency in Cost of products sold

Restructuring

In the fiscal year 2023, the Company completed a prioritization of its research and development (R&D) investment within the Innovative Medicine segment to focus on the most promising medicines with the greatest benefit to patients. This resulted in the exit of certain programs within therapeutic areas. The R&D program exits are primarily in infectious diseases and vaccines including the discontinuation of its respiratory syncytial virus (RSV) adult vaccine program, hepatitis and HIV development. The pre-tax restructuring charge of approximately \$0.1 billion in both the fiscal first quarters of 2024 and 2023, included the termination of partnered and non-partnered program costs and asset impairments. Total project costs of approximately \$0.6 billion have been recorded since the restructuring was announced.

In the fiscal year 2023, the Company initiated a restructuring program of its Orthopaedics franchise within its MedTech segment to streamline operations by exiting certain markets, product lines and distribution network arrangements. The pre-tax restructuring expense of \$27 million in the fiscal first quarter of 2024, of which \$20 million was recorded in Restructuring and \$7 million was recorded in Cost of products sold on the Consolidated Statement of Earnings, primarily included costs related to market and product exits. Total project costs of approximately \$0.3 billion have been recorded since the restructuring was announced.

Provision for taxes on income

The worldwide effective income tax rate for the fiscal three months was 12.4% in 2024 and 61.8% in 2023.

On December 15, 2022, the European Union (EU) Member States formally adopted the EU's Pillar Two Directive, which generally provides for a minimum effective tax rate of 15%, as established by the Organization for Economic Co-operation and Development (OECD) Pillar Two Framework that was supported by over 130 countries worldwide. Several EU and non-EU countries have enacted Pillar Two legislation with an initial effective date of January 1, 2024, with other aspects of the law effective in 2025 or later. The Company is estimating that as result of this legislation the 2024 effective tax rate will increase by 1.5% (150 basis points) compared to fiscal 2023. Further legislation, guidance and regulations that may be issued in fiscal 2024, as well as other business events, may impact this estimate.

For further details related to the 2024 provision for taxes refer to Note 5 to the Consolidated Financial Statements.

Liquidity and capital resources

Cash flows

Cash and cash equivalents were \$25.5 billion at the end of the fiscal first quarter of 2024 as compared with \$21.9 billion at the end of fiscal year 2023. The primary sources and uses of cash that contributed to the \$3.6 billion increase were:

(Dollars In Billions)

21.9	Q4 2023 Cash and cash equivalents balance
3.7	net cash generated from operating activities
(0.5)	net cash used by investing activities
0.5	net cash generated from financing activities
(0.1)	effect of exchange rate changes on cash and cash equivalents
\$ 25.5	Q1 2024 Cash and cash equivalents

In addition, the Company had \$0.7 billion in marketable securities at the end of the fiscal first quarter of 2024 and \$1.1 billion at the end of fiscal year 2023.

Cash flow from operations of \$3.7 billion was the result of:

(Dollars In Billions)

\$	3.3	Net earnings
	0.7	non-cash expenses and other adjustments primarily for depreciation and amortization, stock-based compensation and asset write-downs partially offset by the deferred tax provision
	(0.6)	an increase in accounts receivable and inventories
	(2.9)	a decrease in accounts payable and accrued liabilities and other current and non-current liabilities
	3.2	a decrease in other current and non-current assets
\$	3.7	Net cash flows from operations

Cash flow used by investing activities of \$0.5 billion was primarily from:

(Dollars In Billions)

	(0.8)	additions to property, plant and equipment
	0.2	proceeds from the disposal of assets/businesses, net
	(1.8)	acquisitions, net of cash acquired
	0.3	net sales of investments
	1.6	credit support agreements activity, net
\$	(0.5)	Net cash used by investing activities

Cash flow from financing activities of \$0.5 billion was primarily from:

(Dollars In Billions)

\$	(2.9)	dividends to shareholders
	(1.5)	repurchase of common stock
	4.4	net proceeds from short and long term debt
	0.2	proceeds from stock options exercised/employee withholding tax on stock awards, net
	0.2	credit support agreements activity, net
	0.1	other and rounding
\$	0.5	Net cash from financing activities

The Company has access to substantial sources of funds at numerous banks worldwide and has the ability to issue up to \$20 billion in Commercial Paper. Furthermore, in September 2023, the Company secured a new 364-day Credit Facility of \$10 billion (expiration on September 5, 2024) which may be used for general corporate purposes including to support our commercial paper borrowings. Interest charged on borrowings under the credit line agreement is based on either Secured Overnight Financing Rate (SOFR) Reference Rate or other applicable market rate as allowed plus applicable margins. Commitment fees under the agreement are not material.

As of March 31, 2024, the Company's cash, cash equivalents and marketable securities was approximately \$26.2 billion and had approximately \$33.6 billion of notes payable and long-term debt for a net debt position of \$7.4 billion as compared to the prior year fiscal first quarter net debt position of \$20.6 billion (which included cash of \$1.7 billion and debt of \$7.7 billion related to Kenvue). The Company anticipates that operating cash flows, the ability to raise funds from external sources, borrowing capacity from existing committed credit facilities and access to the commercial paper markets will continue to provide sufficient resources to fund operating needs, including the Company's remaining balance to be paid on the agreement to settle opioid litigation for approximately \$2.1 billion and the approximately \$11.0 billion (\$13.7 billion nominal) reserve remaining for the talc settlement proposal (See Note 11 to the Consolidated Financial Statements for additional details). In addition, the Company monitors the global capital markets on an ongoing basis and from time to time may raise capital when market conditions are favorable.

Subsequent to March 31, 2024, the Company paid approximately \$2.6 billion to the U.S. Treasury, including \$2.0 billion related to the current installment due on foreign undistributed earnings as part of the TCJA charge (see Note 1 to the Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2023) and \$0.6 billion primarily related to the normal estimated payment for the fiscal first quarter of 2024.

Dividends

On January 2, 2024, the Board of Directors declared a regular cash dividend of \$1.19 per share, payable on March 5, 2024, to shareholders of record as of February 20, 2024.

On April 16, 2024, the Board of Directors declared a regular cash dividend of \$1.24 per share, payable on June 4, 2024, to shareholders of record as of May 21, 2024. The Company expects to continue the practice of paying regular quarterly cash dividends.

Other information

New accounting pronouncements

Refer to Note 1 to the Consolidated Financial Statements for new accounting pronouncements.

Economic and market factors

In July 2023, Janssen Pharmaceuticals, Inc. (Janssen) filed litigation against the U.S. Department of Health and Human Services as well as the Centers for Medicare and Medicaid Services challenging the constitutionality of the Inflation Reduction Act's (IRA) Medicare Drug Price Negotiation Program. The litigation requests a declaration that the IRA violates Janssen's rights under the First Amendment and the Fifth Amendment to the Constitution and therefore that Janssen is not subject to the IRA's mandatory pricing scheme. In April 2024, Janssen appealed the district court's denial of its summary judgment motion to the Third Circuit.

Russia-Ukraine war

Although the long-term implications of Russia's invasion of Ukraine are difficult to predict at this time, the financial impact of the conflict in the fiscal first quarter of 2024, including accounts receivable or inventory reserves, was not material. As of the fiscal first quarter ending March 31, 2024, and the fiscal year ending December 31, 2023, the business of the Company's Russian subsidiaries represented less than 1% of both Company's consolidated assets and revenues. The Company does not maintain Ukraine subsidiaries subsequent to the Kenvue separation.

In March of 2022, the Company took steps to suspend all advertising, enrollment in clinical trials, and any additional investment in Russia. The Company continues to supply products relied upon by patients for healthcare purposes.

Conflict in the Middle East

Although the long-term implications of the conflict in the Middle East are difficult to predict at this time, the financial impact of the conflict in the fiscal first quarter of 2024, including accounts receivable or inventory reserves, was not material. As of the fiscal three months ending March 31, 2024, and the fiscal year ending December 31, 2023, the business of the Company's Israel subsidiaries represented approximately 1% of the Company's consolidated assets and represented less than 1% of revenues.

Other Macroeconomic Considerations

The Company operates in certain countries where the economic conditions continue to present significant challenges. The Company continues to monitor these situations and take appropriate actions. Inflation rates and currency exchange rates continue to have an effect on worldwide economies and, consequently, on the way the Company operates. The Company has accounted for operations in Venezuela, Argentina and Turkey as highly inflationary, as the prior three-year cumulative inflation rate surpassed 100%. In the face of increasing costs, the Company strives to maintain its profit margins through cost reduction programs, productivity improvements and periodic price increases.

Governments around the world consider various proposals to make changes to tax laws, which may include increasing or decreasing existing statutory tax rates. In connection with various government initiatives, companies are required to disclose more information to tax authorities on operations around the world, which may lead to greater audit scrutiny of profits earned in other countries. A change in statutory tax rate in any country would result in the revaluation of the Company's deferred tax assets and liabilities related to that particular jurisdiction in the period in which the new tax law is enacted. This change would result in an expense or benefit recorded to the Company's Consolidated Statement of Earnings. The Company closely monitors these proposals as they arise in the countries where it operates. Changes to the statutory tax rate may occur at any time, and any related expense or benefit recorded may be material to the fiscal quarter and year in which the law change is enacted.

The Company faces various worldwide health care changes that may continue to result in pricing pressures that include health care cost containment and government legislation relating to sales, promotions and reimbursement of health care products.

Changes in the behavior and spending patterns of purchasers of healthcare products and services, including delaying medical procedures, rationing prescription medications, reducing the frequency of physician visits and foregoing healthcare insurance coverage, as a result of the current global economic downturn, may continue to impact the Company's businesses.

The Company faces regular intellectual property challenges from third parties, including generic and biosimilar manufacturers, seeking to manufacture and market generic and biosimilar versions of key pharmaceutical products prior to the expiration of the applicable patents. These challengers file Abbreviated New Drug Applications or abbreviated Biologics License Applications with the FDA or otherwise challenged the coverage and/or validity of the Company's patents. In the event the Company is not successful in defending the patent claims challenged in the resulting lawsuits, generic or biosimilar versions of the products at issue may be introduced to the market, resulting in the potential for substantial market share and revenue losses for those products, and which may result in a non-cash impairment charge in any associated intangible asset. There is also risk that one or more competitors could launch a generic or biosimilar version of the product at issue following regulatory approval even though one or more valid patents are in place.

Item 3 — Quantitative and qualitative disclosures about market risk

There has been no material change in the Company's assessment of its sensitivity to market risk since its presentation set forth in Item 7A, "Quantitative and Qualitative Disclosures About Market Risk," in its Annual Report on Form 10-K for the fiscal year ended December 31, 2023.

Item 4 — Controls and procedures

Disclosure controls and procedures. At the end of the period covered by this report, the Company evaluated the effectiveness of the design and operation of its disclosure controls and procedures. The Company's disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act is accumulated and communicated to the Company's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure. Joaquin Duato, Chief Executive Officer; Chairman, Executive Committee and Joseph J. Wolk, Executive Vice President, Chief Financial Officer, reviewed and participated in this evaluation. Based on this evaluation, Messrs. Duato and Wolk concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective.

Internal control. During the period covered by this report, there were no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. The Company continues to monitor and assess the effectiveness of the design and operation of its disclosure controls and procedures.

The Company is implementing a multi-year, enterprise-wide initiative to integrate, simplify and standardize processes and systems for the human resources, information technology, procurement, supply chain and finance functions. These are enhancements to support the growth of the Company's financial shared service capabilities and standardize financial systems. This initiative is not in response to any identified deficiency or weakness in the Company's internal control over financial reporting. In response to this initiative, the Company has and will continue to align and streamline the design and operation of its financial control environment.

Part II — Other information

Item 1 — Legal proceedings

The information called for by this item is incorporated herein by reference to Note 11 included in Part I, Item 1, Financial Statements (unaudited) — Notes to Consolidated Financial Statements.

Item 2 — Unregistered sales of equity securities and use of proceeds

(c) Purchases of Equity Securities by the Issuer and Affiliated Purchasers.

The following table provides information with respect to Common Stock purchases by the Company during the fiscal first quarter of 2024. Common stock purchases on the open market are made as part of a systematic plan to meet the needs of the Company's compensation programs. The repurchases below also include the stock-for-stock option exercises that settled in the fiscal first quarter.

Fiscal Month Period	Total Number of Shares Purchased ⁽¹⁾	Avg. Price Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
January 1, 2024 through January 28, 2024	—	—	—	—
January 29, 2024 through February 25, 2024	5,531,362	156.78	—	—
February 26, 2024 through March 31, 2024	3,793,074	160.35	—	—
Total	9,324,436	158.23	—	—

⁽¹⁾ During the fiscal first quarter of 2024, the Company repurchased an aggregate of 9,324,436 shares of Johnson & Johnson Common Stock in open-market transactions, all of which were purchased as part of a systematic plan to meet the needs of the Company's compensation programs.

Item 5 — Other information

Securities trading plans of Directors and Executive Officers. During the fiscal first quarter of 2024, none of our directors or officers (as defined in Rule 16a-1(f) of the Exchange Act) informed us of the adoption or termination of a “Rule 10b5-1 trading arrangement” or “non-Rule 10b5-1 trading arrangement,” each as defined in Item 408 of Regulation S-K.

Item 6 — Exhibits

[Exhibit 31.1](#) Certification of Chief Executive Officer under Rule 13a-14(a) of the Securities Exchange Act pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 — Filed with this document.
